Publications of The Educational Screen

The Educational Screen, (including Moving Picture Age and Visual Education), now the only magazine in the field of visual education. Published every month except July and August. Subscription price, \$1.50 a year (\$2.00 for two years). (With "1001 Films," \$1.75 and \$2.25 respectively). In Canada, \$2.00 (\$3.00 for two years). Foreign Countries, \$2.50 (\$4.00 for two years).

Comparative Effectiveness of Some Visual Aids in Seventh Grade Instruction, by Joseph J. Weber, Ph. D., of the University of Arkansas. The first published work of authoritative research on the visual field. A doctor's thesis accepted by Columbia University. With diagrams and reference tables. 131 pages, cloth. \$1.50. (To subscribers, \$1.00.)

Fundamentals in Visual Instruction, by William H. Johnson, Ph. D., (The University of Chicago). A manual for teachers. A concise and comprehensive survey of the whole question. 112 pages, cloth. \$2.00. (To subscribers, \$1.33).

Historical Charts of the Literatures (English, American, French, German), formerly published at Princeton, N. J., by Nelson Lewis Greene, A. M. Steadily used for the past 12 years by students and general readers everywhere. Revised and uniform editions of these charts are ready. Single copies 50 cents each. (To subscribers, \$.37.) Special offer, one of each of 4 charts, \$1.50. (To subscribers, \$1.00.) Discounts on quantities on application.

Is Visual Instruction a Fad? by Joseph J. Weber. Eight page pamphlet (Reprint). Price 15 cents (To subscribers, 10 cents).

Visual Aids in Education, by Joseph J. Weber. Twelve page pamphlet (Reprint). Price 15 cents (To subscribers, 10 cents).

The Stereograph as a Visual Aid, by Joseph J. Weber. Eight page pamphlet, with illustrations (Reprint). Price 15 cents (To subscribers, 10 cents).

Bibliography on the Use of Visual Aids in Education, by Joseph J. Weber. Twelve page pamphlet (Reprint). Price 25 cents (To subscribers, 15 cents).

THE EDUCATIONAL SCREEN

FOREWORD

THIS is the Fifth Edition of "1000 and One Films." It represents more time and effort on the part of the editorial staff of THE EDUCATIONAL SCREEN than any preceding edition. Every known producer and distributor of film both theatrical and non-theatrical—whether an individual, a firm, or an organization—has been consulted directly and repeatedly. Our method of gathering data and information from all these sources has been so perfected through the successive editions of the book that we confidently offer this Fifth Edition as better than any preceding one. As a systematic compilation of accurate and complete film information for the non-theatrical field, "1000 and One Films" is still unique.

MANY of the films listed in the last edition (Fourth) have been omitted, many have been retained along with the great amount of new material. No film was excluded from this edition merely because it had already appeared in the previous volume, but selection from such a mass of material, increasing every year, is compulsory. The general aim has been to include, within the necessary space limitations of the present volume, all the new and worthwhile material possible in the various subject groups, together with all films from the previous edition that are still most actively circulated. This Fifth Edition therefore represents the best films that are now available in the non-theatrical and educational fields.

IF, THEREFORE, (1) a film desired was listed in the previous edition, and *does not appear* here, it is not safe to assume that the film is unobtainable; an inquiry to THE EDUCATIONAL SCREEN will bring you full information concerning it; (2) if a film is desired on any phase of a subject which does not seem to be fully represented in this edition, THE EDUCATIONAL SCREEN will be at all times ready and willing to give its patrons the benefit of its large supplementary file of existing films. The publication of this file *in toto* would be out of the question.

HOW TO USE "1000 AND ONE"

CONSULT first the Classified Subject Index on pages 11-15, showing the subject-groups under which the films have been arranged. This will refer you direct to the pages carrying the films you seek.

The title of the film appears in bold type. The number in parentheses immediately after the title is the number of reels. Then follows the brief review and comment on the film. The distributor of each film is indicated by the number or numbers at the extreme right of the last line of description. These numbers refer to the Reference List of Producers and Distributors in the back of book (pages 114-127). (The Educational Screen distributes no films whatever).

If the distributor number is in Roman Numerals it means that the distributor has Exchanges, and the firm name with all exchanges will be found under Part I of the Reference List (Page 114). In these cases write to the exchange nearest you. If the distributor

ACME Motion Picture Projectors

The Acme Model S.V.E. Type G does more than project motion pictures. It shows stereopticon slides. It has the Acme patented Gold Glass Shutter for showing still pictures from the film. It is a safe, reliable and convenient projector.

See that you get all the features Acme offers when you buy a motion picture projector. You will find them in no other machine. Write for complete information.

INTERNATIONAL PROJECTOR CORPORATION
Acme Division

90 Gold Street
New York

Chicago

*Gift
Educational Screen
Jan 13/28*

number is in Arabic Numerals, it means that the distributor operates from a single address. His name and address will then be found under Part II of the Reference List (Page 121). Write direct to this address.

Cross references at the end of many of the groups refer to other groups in which may be found one or more films on the same or related subjects.

The stars before a large number of the films listed indicate as follows: one (*) means that the film has been seen by our staff; two (**), that the film has been seen and reviewed in a previous issue of THE EDUCATIONAL SCREEN; three (***), that THE EDUCATIONAL SCREEN considers the film to be exceptionally fine of its kind.

We cannot attempt to name rental prices on films, for they vary endlessly. The distributor of the particular film should be consulted.

THE EDUCATIONAL SCREEN itself does not handle films. It acts merely as the central clearing house for information on the whole production field of films, both theatrical and non-theatrical.

"FREE" FILMS—NON-INFLAMMABLE FILMS

IN THE Reference List of Producers and Distributors we have indicated as far as possible the distributors of "free" films—namely, those to be had for the payment of transportation charges both ways, sometimes with further conditions stipulated.

In many cases distributors have indicated whether some, or all of their film subjects are on non-flam (slow-burning) stock. If both "flam" and "non-flam" are named, users must ascertain from the distributor whether the particular film wanted can be secured on the stock desired.

OFF-STANDARD FILMS

NO Safety Standard films (28 mm.) are listed in this book, although much fine material is available in this form. As it requires a special projector, however, such listing would be useless to the majority of our film-users.

Some film libraries are also available in 18 mm. and 11 mm. sizes. These also require special projecting apparatus, and no effort has been made to list the films of such libraries. (See page 7 for a detailed discussion of 16 mm. films).

UNIVERSITY EXTENSION SERVICE

WE HAVE been forced to exclude a very important source of non-theatrical films, namely, the State Universities and Extension Divisions. Space limitations absolutely forbid the inclusion of the immense number of films carried by these Divisions. These excellent services are entirely local, as a rule, and gladly give full information to all film-users within their zone. As such information would be largely useless to the rest of the country it is omitted here.

You are doubtless familiar with the service of your nearest State University. If not, do not fail to write at once for their complete literature.

FREE AT YOUR REQUEST

*A complete 64-page illustrated
booklet describing the famous*

CHRONICLES OF AMERICA PHOTOPLAYS

Fifteen beautiful and accurate historical films, recognized the country over as the greatest contribution yet made to visual instruction. Used with equal satisfaction by every group interested in the non-theatrical presentation of distinctive photoplays.

SOURCES OF 16 mm. FILMS

THE EDUCATIONAL SCREEN recognizes the growing use in educational institutions and in the great field of amateur motion pictures, of 16 mm. films. To those whose equipment calls for films of this width, we list below sources from which such films may be secured, either on a rental basis or by outright sale.

BELL AND HOWELL Co., 1803 Larchmont Ave., Chicago, Ill.

A large library of films in various subjects. Send for catalogue direct.

BURTON HOLMES LECTURES, 7510 N. Ashland Ave., Chicago, Ill.

Many of the famous Burton Holmes travelogues are now available in this width. For outright sale.

CINE ART PRODUCTIONS, 922-23 Hunter Dulin Bldg., San Francisco, Calif.

Releasing a series of photoplays and educational subjects, for sale.

EASTMAN KODAK Co., Rochester, N. Y.

Releasing "Cinegraphs," for sale through Eastman dealers.

HOME FILM LIBRARIES, INC., 100 E. 42nd St., New York, N. Y.

Also operate regional libraries for rental of 16 mm. subjects.

KODASCOPE LIBRARIES, INC., 35 W. 42nd St., New York, N. Y.

Branch libraries are located in thirteen cities of the United States and Canada as well as many foreign cities. A full descriptive catalogue of the Kodascope Library, classified for reference, is available for 25 cents per copy. Educational subjects, comedies and dramas are included.

MOVIE CRAFT FILM Co., 2025 Broadway, New York, N. Y.

PATHE EXCHANGE, INC., Pathegrams Dept., 35 W. 45th St., New York, N. Y.

An extensive film library of Pathe subjects, on 16 mm. film. Sold outright.

SHOW-AT-HOME MOVIE LIBRARY, INC., 730 Fifth Ave., New York, N. Y.

Productions of Universal Pictures for home entertainment.

YOUR CO-OPERATION, PLEASE!

WE cannot hope to have avoided all error in this work. Therefore, the cooperation of all concerned is earnestly invited—producers, distributors, users everywhere. We shall welcome opinions, suggestions, and above all specific criticisms. Point out errors and omissions, great or small, whenever and wherever they appear. Preparation for the next edition of "1000 and One" has already begun. With the cooperation asked for above, the sixth edition can be brought still nearer the desired goal of perfect accuracy. *We thank you sincerely in advance.*

AND ABOVE ALL!

WHEN you write to advertisers—as you often will—please do not fail to mention THE EDUCATIONAL SCREEN.

USE MOTION PICTURES AS AN AID IN TEACHING

*Our Film Library, the largest in
the country, covers the following:-*

U. S. Geography	Household Economics
European Geography	Nature Study

What They Say About "1000 and One"

"Since we are attempting to find the pictures that are of most use to the departments of the Institute, your booklet seems to have a better summary than we have in the material we have gathered."

FRANK C. FOSTER, *Committee on Visual Education, Normal and Agricultural Institute, Hampton, Va.*

"Your booklet '1000 and One Films' has been a great help to us in planning our motion picture programs for children."

REV. W. T. POWELL, *Trinity M. E. Church, Springfield, Mass.*

"Both your periodical and the booklet '1000 and One' have proved an indispensable aid in my work during the past several months. I use motion pictures every Sunday evening with what seems to me extremely gratifying results."

REV. FRED W. MORRISON, *First Congregational Church, San Jose, Calif.*

"Several persons in our company have occasion to use information contained in '1000 and One' almost daily and one copy is hardly sufficient."

FRANK LAPPIN, *Jam Handy Picture Service, Chicago, Ill.*

"We have found '1000 and One' especially helpful this year."

M. L. YAPLE, *High School, Sandusky, Ohio.*

"I highly regard '1000 and One Films'."

REV. HOWARD P. WEATHERBEE, *Mt. Holly Baptist Churches, Belmont, Vt.*

"We find your publication, '1000 and One Films,' to be very valuable in our particular work."

H. L. KOOSER, *Visual Instruction Service, Iowa State College, Ames, Ia.*

"We sincerely thank you for the copy of '1000 and One Films' and assure you that it was appreciated. It is something that is really needed in the educational program field and will be of great use to many we feel sure."

SERVICE FILM PRODUCERS, *Battle Creek, Mich.*

"I find '1000 and One Films' invaluable to me."

R. C. ADAIR, *Garrett Biblical Institute, Evanston, Ill.*

"Please accept my thanks for the copy of '1000 and One Films.' This is a very valuable booklet and we will use it in our classes."

H. A. WEBB, *Department of Chemistry, George Peabody College for Teachers, Nashville Tenn.*

PICTUROLS

The Society contributed a valuable and economical service to the Schools and Churches a few years ago in developing PICTUROLS, or still picture films. These convenient and efficient series of pictures have found a ready acceptance everywhere. If your institution has not already started a permanent library of PICTUROLS you should consider immediately the great saving and service which the adoption of film stereopticon material will represent to you. Hundreds of rolls of carefully selected pictures, covering all educational and religious subjects, are ready for immediate delivery at surprisingly low costs. — *Free Picturols Available to All Users of Film Stereopticons.*

AGRICULTURE

GROUP 1

CROPS

Cotton

- The Story of Cotton (1) Self-explanatory. (59)
 The Story of Cotton (2) Its growth and manufacture. (XXX)
 ***The Land of Cotton (2) A complete story of cotton with emphasis given to milling and weaving of cloth. Well done for instructional purposes. (X)
 Cotton—Dixie's Greatest Crop (1) Soil preparation, planting, cultivating, picking, delivery to gin. Boll weevil and other problems of modern production. (144)
 Cotton Handling (1) In the largest cotton warehouse in the world. (63)
 Co-operative Marketing—Cotton (2) Activities of the co-operative cotton marketing associations of the South, showing progress of grower's bale from gin to mill, or to seaboard for export shipment. (144)

(See also Groups 12, 45, 76)

GROUP 2

Sugar

- Cane Sugar (1) Depicting the cultivation of cane and the extracting of sugar from the plant. (151)
 Sugar Cane (1) Complete descriptive study of the manufacture of sugar from planting of cane to finished product. For sale only. (58)
 Sugar Cane and Cane Sugar (1) Culture and harvesting of sugar cane in South; hauling cane to factory; various stages in manufacture and refinement of cane sugar from crushing of cane to finished product. (144)
 Raw Sugar Production in Cuba (1) Cultivation of cane and fine scenes of Cuba. (83)
 * Cuba, the Island of Sugar (2) World's largest achievement in raising sugar cane—forest transformed into modern plantation, largest sugar mill in world built and put into operation. (X)
 ***Cane Sugar Refining (1) Sugar from planting in Cuba to preparation for market. Special emphasis upon refining processes. Splendidly adapted for classroom use. (9, 83)
 Sunny South (1) Scenes in the South. Emphasis on manufacture of sugar. (18)
 Maple Sugar (1) Lure of the maple grove in spring. (49)
 Harvest of the Sugar Maple (1) Life in the sugar bush, showing old and new methods of tapping maple trees, of gathering and boiling sap. (XXX)
 Making Maple Sugar (1) From tapping the trees to the marketing—old-fashioned and modern methods. For sale only. (58)
 Beets from Seed to Sugar Bowl (1) Self-explanatory. (144)
 ***The Sugar Trail (1) Beet sugar industry as developed from the wild beet. (X)

(See also Groups 55-6, 77, 101)

GROUP 3

Wheat

- ***Our Daily Bread (1) Development of methods for harvesting, milling, and baking from primitive to modern times. (X)
 ***The Staff of Life (1) The growing of wheat, harvesting, threshing and milling, told logically and interestingly. (37, 42, 49, 151, 155)
 The Wheat Industry (¼) Production of wheat in the Red River Valley—ploughing, drilling, harvesting, threshing, etc. (XII)
 The Romance of a Grain of Wheat (1) Animation and photography showing wheat production. (XXX, 64)
 ***Wheat and Flour (1) Study of wheat raising from the time it is planted until the flour is ready for mixing. For sale only. (58)
 Wheat or Weeds? (1) Story of wheat cleaning and the operation of wheat cleaning machines at the thresher; what clean wheat means to the farmer. (144)

(See also Groups 12, 77, 101, 130)

GROUP 4

Fruits and Nuts

- ***The Kindly Fruits of the Earth (1) Survey of cultivation, picking, packing and shipment of some of the most important fruits. (XV)
 ** The Apple of New England (1) Cutting and grafting wild apple to produce present fine varieties; picking and packing; making apple pies in Waldorf restaurants. (102)
 ***The Land of Cherries (1) The largest cherry orchard in the world. Scenes show cultivation of the soil, picking the cherries and process of canning. (XXX, 72)

GROUP 4 (Continued)**CROPS****Fruits and Nuts**

- ** The Banana (1)** Detailed pictorial account of the methods employed in the raising and marketing of bananas. For sale only. (58)
 In *Banana Land* (1) Banana cultivation in Guatemala. (151)
- * Cantaloupe Industry in the West (1)** Harvesting and marketing in the Imperial Valley, California. (144)
 Citrus Fruit in Florida (2) Approved methods of grove management and handling the orange and grapefruit crops in Florida; how citrus fruits came to America; Scenes at piers and wholesale fruit exchanges in New York. (144)
- ** The Golden Gift (1)** Colored pictures of the orange industry. (30, 37A, 42)
- ***The Orange (1)** Pictorial history of the orange tree, irrigation of groves and harvesting the crop. In natural colors. (XX, IV)
 Oranges (1) Excellent material for domestic science classes. (37A)
 Oranges and Olives (1) Depicting modern methods of raising and harvesting oranges and olives in the United States. For sale only. (58)
 The Story of the Orange (1) From cultivation in the beautiful groves of California (partly in natural color) to their arrival in the market. (XXX, 71, 83)
- ***The Power Behind the Orange (1)** Modern power farming in the orange groves of Southern California. Story of orange cultivation and preparation for market. (XXX, 72)
- ***Sunshine Gatherers (1)** Southern California fruits in orchards near Monterey; processes of picking and canning which prepare them for market. Photographed in Prizma color. (IV)
- Profits from Cull Oranges and Lemons (1½) Former great loss to citrus fruit industry from waste cull fruit; research work to develop uses for culls, establishment of by-product plants. (144)
- ** The Romance of the Lemon (1)** Various processes of caring for citrus fruit, irrigation, picking operations, preparing for market. (30, 37A, 42, 71)
- Cranberries—and Why They Are Sometimes Bitter (1) Cranberry culture, with particular reference to methods of preventing the rot that makes berries bitter; the Puritans receive the new berry from the Indians. (144)
- ***Dates—America's New Fruit Crop (1)** Growing by irrigation in the Southwest. Insect control. (144)
- The Cultivation and Growth of Dates (1) Modern methods employed in the preparation of dates for the market. For sale only. (58)
- ** Picking Pineapples (1)** Growing and marketing of pineapples. (69, 156)
 Oahu (1) The pineapple industry of this Hawaiian island, in Prizma color. (IV, XX, 28)
- The Pecan (¼) How the nut is grown, gathered and marketed. (XX)
- The Ancient and Honorable Walnut (½) California ranch devoted to Walnut growing on large scale. (22)
- (See also Groups 55-6, 77, 101)

GROUP 5**Miscellaneous**

- ***America's Granary (1)** Methods of planting, harvesting, and threshing grain. Evolution of farm machinery and methods of handling. (XV)
- America—The Store House of the World (1) Our Land, the granary that assures the world against famine. (23, 69, 156)
- Uncle Sam, World Champion Farmer (1) Miscellaneous scenes of the crop, fruit, and live-stock industries of the United States. This film includes cotton, wheat, corn, potatoes, apples, dates, citrus fruit, poultry, dairy and beef cattle, hogs, horses, mules, and sheep. (144)
- Romance of Coffee (1) Growing and preparing the bean. How to prepare coffee. (102)
- The Treasure of the Tropics (2) From tree to cup. A complete story about coffee. (XXX)
- Cassina (1) Development by Government of "a new crop for Dixie"; how the cassina (yaupon) plant is grown and may be used in making a beverage. (144)
- ** The How and Why of Spuds (1)** Potato industry as practiced with modern farm machinery in Aroostook County, Maine. (144)
- * Potatoes, Early and Late (1)** Varieties, and their characteristics. (144)
- * Sweet Potatoes from Seed to Storage (1)** Self-explanatory. (144)
- * Sweet Potatoes from Store House to Market (1)** The title tells it. (144)
- Ear Corn Silage (2) Practical and scientific facts relative to this new thing in silage. How a successful farmer makes use of his experiment station. (69)

GROUP 5 (Continued)**CROPS****Miscellaneous**

Four Men and the Soy (2) Cultivation and utilization of soy beans. Four farmers attend "Soy Bean Day" at the State College of Agriculture and see soy beans in all stages. (144)

Weeds as Food ($\frac{1}{4}$) Pictorial History of the tomato and other "table weeds." (22)

Palms (1) The prolific plant that provides food, clothing, shelter and income in the tropics. (23, 69)

* Peanuts (1) Story of raising and cultivating. (144)

Peanuts (1) Showing cultivation, early and present uses as a food product. Partly in natural colors. Fine scenic views. (83)

Rice from "Paddy" to Bowl (1) Handling the rice crop, with special reference to methods that tend to minimize damage and waste. Scenes photographed in the lower Mississippi valley. (144)

** The Rice Industry (1) Irrigation, threshing, hulling and polishing. Interesting development of the American rice-growing industry, and a discussion of the food value of rice. (63)

*** The Story of Comet Rice (1) Oriental rice culture and cultivation of the grain in our Southern states. Preparing for market. (XXX)

The Story of Rubber (1) Self-explanatory. (59)

The Romance of Rubber (2) Scenes from world's largest rubber plantation, showing America's part in production of crude rubber. (XXX)

From Tree to Tire (1) New England's highways, and process of manufacturing rubber tires. (102)

Spice of Life (1) Story of our familiar spices, and how they are prepared for market. (102)

The History of Spice (1) Important part played by spices in development of trade routes, and discovery of new continents. Many scenes of foreign lands. (83)

Making Twine to Bind Uncle Sam's Harvests ($\frac{1}{4}$) Manila and Sesal hemp manufactured into binder twine. Various processes pictured. (22)

Handling and Storing Grain (2) Receiving various grains, storing and shipping, at the largest grain elevator in the world. (63)

(See also Groups 32, 35, 42, 53, 55-6, 58, 77, 80, 130)

GROUP 6**LIVESTOCK****Cattle**

The Cow Business (2) Beef-cattle industry in western United States, contrasting methods of the early cowman with present practice. (144)

The Green Barrier (2) Cattle grazing in the Piney Woods areas of the South, emphasizing the evils of firing the woods to "green up" the pasture and stressing importance of carpet grass and lespedesa as forage for the cattle and as fire barriers. (144)

Sir Loin of T-Bone Ranch (3) Western range-cattle industry, with special reference to methods that make for production of good beef. (144)

A Tale of Two Bulls (1) Animated cartoon, showing advantages of following practices of Better Sires movement. (144)

The Purple Ribbon (2) Life of a Grand Champion Steer, of the International Live Stock Show. (69)

A Texas Round-up (1) Many sides of the industry. (144)

(See also Groups 11, 76)

GROUP 7**Meat Products**

Behind the Breakfast Plate (2) The story of the great American live-stock industry, showing the ranges, feed lots, shipping and packing. (69, 144)

* The Honor of the Little Purple Stamp (1) Meat-inspection by Federal agents. (144)

* Killing and Dressing Mutton for Home Use (1) Proper methods demonstrated. (144)

Making of a Star Ham (1) Deals with humane methods used in slaughtering, sanitary conditions prevailing in packing plants and rigid inspection given each individual ham. (11, 127, 149)

*** Meat—from Hoof to Market (1) Raising of beef cattle and hogs for food; shipping and marketing. (XV)

Meat Packing (1) A complete story of the packing of meat from the time the animal leaves the plains till it has been prepared for the consumer. For sale only. (58)

The Meat We Eat (1) Raising cattle, sheep and swine. Meat packing industry which turns them into food. (151)

GROUP 7 (Continued)**LIVESTOCK****Meat Products**

The Texas Trail to Your Table (1 and 2) Raising cattle; transporting to Stock Yards and various methods used in preparing meat for the table. (XXX, 127, 149)

Guarding Livestock Health (1) Shows care of the animals in transit, in the stockyards, cleaning and fumigation of cars, etc. (144)

(See also Groups 11, 22, 77, 101, 130)

GROUP 8**Dairy Products**

Better Milk (1) Shows vast strides made in recent years by progressive farmers in the production of pure milk. (37, 49, 151)

Better Way of Milking (1) How improper milking methods prevent the cow from giving the maximum amount of milk. (14, 149)

Clean Milk (1) Some of the ways of meeting the problems of production of clean milk. (69)

The Might of Pure Milk (1) Precautions taken to deliver this most perfect food in its most perfect form. Food value of milk as compared with other foods. (103)

The Trump Card (1) The importance of pasteurization, and how effectively it insures the safety of public health. (103)

***Do You Remember? (1) Old-fashioned Baltimore, showing horse-cars, high-wheel bicycles and other old Baltimore scenes. Modern methods of milk production. (XXIII)

Great Dairy Sires and Their Daughters (1) Some of the greatest dairy sires in America and their high producing offspring. (37A)

Dairy Cattle—Types, Breeds and Characteristics (1) Holstein, Jersey, Guernsey, Ayrshire and Brown Swiss—the characteristics of these respective types, their origin and history of their introduction into the United States. (134)

Dairy Cattle and Their Selection (1) The film shows clearly that physical conformation is a vital factor in milk production and shows just how constitution, feeding capacity, formation of milking organs, etc., affect production. (134)

Dairy Management (2) Portrays the dairyman's life—feeding and milking cows; weighing milk; the milk station; the silo; the farm buildings; sanitary stables; water supply; machinery; importance of raising young stock. (134)

***Dairy Products (1) Sources, handling and shipping of milk. Manufacture and packing of cheese and butter in large factories. (XV)

Milk-Made Products (2) Laboratory and factory methods of making dairy products. (144)

* Swiss Cheese, Made in America (1) Self-explanatory. (144)

***Lone Asian Traveler (1) Accidental discovery of cheese. Processes of manufacture in a modern factory. (XXX, 14, 149)

Concerning Cheese (1) Manufacture of cheese. (IX)

American Roquefort Cheese (1) Methods developed by the Dairy Division of the Grove City (Pa.) creamery. (144)

Weighed in the Balance (3) An argument for cow-testing work, by showing evils of unsystematic dairy management and the improvement when better practices are adopted. (144)

(See also Groups 11, 22, 77, 101, 130)

GROUP 9**Poultry**

Four Hundred Million Chickens (1) A bird's-eye view of the poultry industry of the United States, showing commercial, farm, and backyard chicken plants. (144)

The Last Word in Chickens (1) Poultry raising. (IX)

Layers and Liars (1) Culling and other good poultry practices as explained by extension workers. (37A, 69)

Making Poultry Pay (1) The fundamentals of good poultry management; designed for the information of beginners in poultry keeping. (144)

Poultry Farming (1) Poultry farming on a large scale. (151)

Poultry Profits Made Plain (1) A scientific but practical handling of the poultry industry, including remarkable views of the living embryo in the egg at all stages. (14)

* Selecting a Laying Hen (1) Culling the flock. Physical characteristics by which the good egg producer can be recognized. (69, 144)

Story of an Incubator (1) The manufacture and use of incubators, including scenes of actual hatching. (149)

GROUP 9 (Continued)**LIVESTOCK****Poultry**

Unscrambling Eggs (2) Methods employed by an egg producers' association—gathering the eggs, packing in crates, shipping, checking and candling. (69)

Where Uncle Sam Raises Poultry (1) Methods of handling poultry at Department of Agriculture farm. (144)

(See also Groups 11, 22, 70, 94, 96)

GROUP 10**Miscellaneous**

Bees—How They Live and Work (1) How the bees gather nectar and transform it into a valuable food, honey; apiary and bottling methods; queen bee laying eggs; bees hatching; other operations in the lives of these interesting insects. (144)

Bee Culture (4) Shows every phase of the industry—the apiary; standard hive; handling and care of bees; use of smoker; distinguishing characteristics of queen, drone and worker; various types of brood cells; laying eggs; grub development; mature bee; how to raise a queen; introduction of queen into hive; gathering honey; marketing product; wintering bees. (134)

The Honey Bee (1) A detailed study by means of animation and pictures of the habits and industry of the honey bee. (58, 63)

*****Honey Makers** (1) Life story of bees and their work, entertainingly told. Remarkable closeups, and unusual views of the workers at their various tasks. (XV)

Keeping Bees at Work (1) Approved methods of bee management; how to control diseases of the brood. Intended primarily for showing before beekeepers. (144)

Sheep in Psalm and Sage (1) Significance of sheep to man, economically and spiritually; great flocks in the West, shown for their scenic worth, and to give a general idea of the industry. (144)

**** Fleeced for Gold** (1) Sheep raising industry on big ranch of the Northwest, told in story form. (XV)

The Golden Fleece (1) Lesson in clean handling of wool, grading and co-operative selling as factors in success. (144)

A Mountain Ranch (1) Sheep herding. (44)

Shed Lambing in the West (1) Portrays approved methods of handling the lamb crop under range conditions. (144)

The Wooly West (2) Advantages of approved methods in range sheep management. Made in northwestern Wyoming in the fine scenery of the Shoshone National Forest. (144)

Hog Breeds and Hog Management (1) Best breeds of swine. (144)

Health for Hogs (1) Advantages of portable houses and self-feeders. (144)

National Swine Show (1) Study of types of hogs. (69)

Farming for Fur (¼) Breeding foxes in Canada. (22)

Farming for Feathers (¼) Views on California ostrich ranch. (22)

**** 'Gators** (1) Alligators in their Florida "farms." Done in Prizma color. (XX, 28)

Goats to the Front (¼) Raising goats in New York State farm which supplies milk for hospital use and feeding of infants. (22)

*****Grazing in National Forests** (1) How Uncle Sam provides summer range for millions of head of cattle and sheep by opening the grazing lands of the national forests to the near-by ranchers. (69, 144)

(See also Groups 11, 22, 33, 45, 76-7, 94, 101, 130)

GROUP 11**PESTS AND DANGERS****to Animals**

Control of Hog Cholera (1) Causes of hog cholera, the use of serum, methods of application and results, and proper sanitation as remedy and preventive. (69, 144)

Livestock Losses (1) Improper and proper methods of handling livestock enroute to market; the evil effects of mishandling. (69)

Suppressing Foot-and-Mouth Diseases (2) Prevalence of disease in many foreign countries; outbreaks of the malady in this country in 1914 and 1924; the radical but effective American method of control, and necessity of public co-operation. (144)

Horn Flies, Pests of Cattle (1) How to prevent their breeding. (144)

*** Making the South Tick-Free** (1) How ticks are being eradicated. (144)

*****Mollie of Pine Grove Vat** (3) Tick eradication in the South, told in story form. Better times for the community as a result. (144)

Southern Cattle Yesterday and Today (1) The story of the gradual eradication of cattle fever tick from infested southern states. (144)

GROUP 11 (Continued) PESTS AND DANGERS to Animals

The Ox Warble—A Fifty-Million-Dollar Tune (1) Government "bug man" explains methods of controlling the ox warble, one of major pests attacking American dairy cattle (69, 144)

Clean Herds—And Hearts (4) Sequel to "Out of the Shadows"; Picturing a community campaign for the eradication of animal tuberculosis; its relation to human health; economic losses due to the disease. (69, 144)

Exit Ascaris (2) Methods of controlling roundworms in pigs; sanitation rules worked out by laboratory investigation. Of interest to hog raisers and scientific workers. (144)

(See also Groups 6-9)

GROUP 12 to Plants

Alfalfa Weevil Control (1) Importance of the alfalfa crop, spread of the alfalfa weevil in some of the Western States and methods of control. (144)

The Barbarous Barberry (1) An animated cartoon. Common barberry the cause of wheat rust. Science magnifies the rust germs and explains cause and effect. (144)

Beans or Beetles? (1) The importance of the bean crop; menace of the Mexican bean beetle; methods of controlling damage by this insect. (144)

Blister Rust—A Menace to Western Timber (2) Spread of white pine blister rust from Europe to eastern United States; its recent appearance in British Columbia; danger from the disease to the five-needled pines of the western United States. (144)

The Pines (2) Control of white pine blister rust, as applied to a particular farm in New England; how the pines were protected and were made a valuable crop (144)

Board Feet or Bored Timber (1) Story of the wormhole borer, pinhole borer and numerous other insects which attack green logs and cured lumber; their habits and methods of controlling them. (144)

Chinch Bugs (1) Life history and habits; methods of fighting the menace to crops. (69)

Corn and the Borer (1) A history of European Corn Borer infestation in the United States. Quarantine and inspection methods. Parasites imported to aid in control work. (69, 144)

The Corn Borer and What to do About It (2) The life history of the European Corn Borer and methods recommended for keeping this dangerous insect under control. (69, 144)

Cotton's Worst Enemy (1) Clean-up of infected land; sweeping of fields and burning of plants, fumigation of imported cotton. (144)

Fighting Insects from Airplanes (1) Result of successful tests made in co-operation with the Army Air Service in applying poison dust for control of cotton insects, particularly the boll weevil, and for the control of malarial mosquitoes. (144)

Dangerous Invaders (1) How the gypsy and brown-tail moths gained a foothold in New England; their damage to trees; fight to control them. (144)

Dust Explosions in Threshing Machines (1) Some of the causes, results and means of prevention. (144)

Explosive Dusts (1) Some of the causes, results, and means of preventing grain-dust explosions in mills and elevators. (144)

Fighting Western Pine Beetles (1) How beetles destroy timber; measures for their control. (144)

Holding the Japanese Beetle (1) Life history of the Japanese beetle; its introduction into New Jersey and rapid spread; means of control. (144)

Halting Foreign Plant Foes (1) Administration of the plant quarantine act by the Federal Horticultural Board, to keep out new plant pests and diseases. (144)

Hoppers (2) Approved methods of grasshopper control, featuring life history, and the poison bait method. (144)

Hidden Foes in Seed Potatoes (1) Wisdom of selecting seed potatoes; experiences on the potato tour, with close-ups of some degeneration diseases of potatoes. (144)

* **Leak Disease of Potatoes** (1) Cause and prevention; microscopic views of the disease. (144)

Seed Disinfection Increases Farming Profits (2) "Stop-motion" photography of growing seedlings (corn, tomatoes and cotton) shows effects of "dampening-off" and how to control it. (46)

* **Laying Lumbricus Low** (1) Methods of saving lawns from damage caused by worms. (144)

GROUP 12 (Continued)**PESTS AND DANGERS to Plants**

* **A Plant Disease and How It Spreads** (1) Study of rhubarb blight. (144)
Poison (1) Various insects and pests that attack plants and animals; how sprays, dusts, etc., are used to repel them; danger of using harmful preparations. (144)

Our Animal Friends and Foes (½) Advocates preservation of bird life as remedy for great annual loss in crops destroyed by animal and insect pests. (22)

Why Strawberries Grow Whiskers (1) Sets forth prime cause of loss of strawberries in transit and on the market, black mold, and suggests methods of handling to minimize loss. (144)

John Smith vs. Jack Frost (2) Orchard heating, with particular reference to frost protection in citrus groves. (144)

(See also Groups 1-5, 22, 71, 84)

RURAL LIFE AND FARM ENGINEERING**GROUP 13****Rural Life and Farm Engineering**

The Answer (3) The answer to the question, "What Does the Farm Bureau Mean to Me?" graphically told. (XXIII)

Back to the Land (1) The advent of the farmerette. (151)

Better Seed—Better Crops (1) The story of "Certified Seed" and how the crop improvement association strives to increase production by growing and distributing pedigreed seed. (144)

Bill Jones, Champion (1) Returns to Shady Valley from the interstate club champions' camp at Sioux City, Iowa, and tells his chum all about it. Recreational side of boys' and girls' club-champions' encampment. (144)

Birds of a Feather (1) Advantages of poultry standardization as exemplified by the experience of Jim Buck and his neighbors. (144)

Bob Farnum's Ton Litter (2) Bob Farnum joins the Ton-Litter Club and produces 2,000 pounds of hogs from one litter of pigs in six months; the obstacles, how they were met, and some of the essentials in the hog business. (144)

*****The Brown Mouse** (6) Herbert Quick's story on the screen, showing value of correct instruction and preparation for youth whose future is "down on the farm." (69)

Buddy Jackson's Day (1) Many lessons of soil, fruits, crops, livestock and dairying. Experimental work at State Colleges. (69)

Club College Farm and Home (1) Short course for farm boy and girl club members at Washington State College and University of Idaho. (144)

Co-operative Marketing in the United States (2) A general survey of co-operative marketing, designed to give an idea of extent of business done by different marketing organizations. (144)

Co-operative Marketing—Pacific Coast Eggs (2) Methods followed by co-operative associations among egg producers. (144)

Corn Belt Derby (1) The evolution of corn husking in the United States, including an interstate contest; slow motion analyzes the action of husking champions. (144)

A Crop Worth Saving (4) A boys' and girls' club picture showing process of the organization of Four-H clubs and their various activities. (144)

Dynamite—Concentrated Power (1) Farm uses of dynamite. The technique of using dynamite with precautions to be observed. (144)

Dynamite—The Modern Ditch Digger (1) Blasting ditches for drainage and sanitary purposes. (46)

Erecting a Fence on Wood and Steel Posts (1) Self-explanatory. (8)

The Family Goes to College (2) The annual farmer's encampment at Utah Agricultural College. July short course for farmers from all parts of the State. (144)

*****The Farm Electric** (1) What electricity can do in making farm labor less arduous. (153)

Farm Progress (3) Fordson methods of diversified agriculture in contrast to the old fashioned—dramatized. (58)

Forward Farm Bureau (2) Picturing successful farm bureau work, and state and national agricultural activities. (69)

From Forests to Farms (1) Clearing of cut-over areas in northwestern states. Use of dynamite for stumping and drainage work. (46)

From Ranch to Ranch in California (4) An automobile tour by California farm bureau leaders and county agents under auspices of University of California. Various farm and farm-home demonstration projects. (144)

The Go-Getter (4) Human drama of regeneration of antiquated farm through installation of electrical labor-saving devices. (XXX, 37A, 154)

GROUP 13 (Continued)**Rural Life and Farm Engineering**

The Happier Way (1) Shows how the women of Pleasant View got in touch with labor-saving devices for household use. (37A, 69, 144)

The High Road (3) Transformation of a little town to health and happiness. (XXXI)

Home (1) Typical American farm homes in various parts of the country. Shows contrast in types, and features certain homes of historic interest. (144)

* The Home Demonstration Agent (3) Her work and its effects. Demonstration of home conveniences. Story Form. (144)

Home Gardening (1) Proper methods for city and suburban vegetable gardens and some examples of successful ones. (144)

The Homestead (3) Better farm management. (69)

***The Horseless Farm (2) The J. F. Deems farm, West Burlington, Iowa. Shows how this farm is being operated with increased profit entirely without horses. (XXX, 72)

Husky Huskers (2) A picturization of the greatest farm sport—corn husking. Shows Illinois, Iowa and Nebraska State Contest of 1926 and World's Championship Contest held at Fremont, Neb. (69)

***In the Wake of the Storm (1) A picture story of how modern equipment brought first aid to a storm-swept area. (XXX, 72)

John Doe's Cotton and Yours (2) Emphasizing the desirability of planting selected cottonseed; how a local supply of pure seed may be obtained by community organization. (144)

Junior Livestock Show (1) Boys' and Girls' Clubs participate in annual show, touring several states. (61)

The Land of Promise (1) Showing McCormick-Deering farm machines doing general farm work in Canada. (72)

A Letter to Dad (1) William Jones, club champion, writes home to father from interstate club champions camp at Sioux City, Iowa, and tells him many things he has learned. (144)

Magic In It (1) Points out advantages of using a farm-accounting system that makes possible a yearly summary of the farm business. Motion-picture "magic" is used to emphasize lesson taught. (144)

Mother Takes a Vacation (2) Depicting activities of Farm Women's Vacation Camps conducted by State Extension Services in the West. (144)

Nature Lovers' Rambles (1) Every nature lover finds something to admire in every step of a stroll on the farm. (37, 49, 112)

Our Farm Bureau (1) Its value in rural life. (69)

Out of the Shadows (2) Appearance of animal tuberculosis on Henry Benton's farm and its communication to his daughter; the clean-up of the farm and restoration of the daughter's health. (144)

Poor (?) Mrs. Jones! (4) The vicissitudes of a farm woman who seeks a rest by visiting her sister in the city, who lives in a two-room-and-kitchenette flat. Lesson in appreciation of the advantages of country life. (144)

***The Power Farmer (1) Points out the innumerable ways in which modern power machinery saves labor for the farmer. (XXX, 72)

Red Wing Experimental Electric Line (3) Before and after the farmer uses electricity and how electricity can be used on the farm. (109)

The Short Course (1) Routine work of a number of boys' and girls' clubs in annual Short Course at Baton Rouge; activities of a thousand boys and girls from all parts of Louisiana. (144)

Should I Buy a Tractor? (1) The tractor question, pro and con, so presented as to enable the individual farmer to answer the question for himself. (144)

Times Do Change (3) Visualizes the distinct advantages of co-operative organizations in rural life. (XXIII)

Touring with the Grangers (2) Historic and scenic places observed by a Middle West farmer who joined an automobile tour organized under the auspices of the National Grange. Designed to show the possibilities of an organized vacation tour. (144)

Tractor Farming (1) Methods used by present-day farmer in working a modern farm. (49)

The Triumph of Tractor Power (1) General farm operations in which is featured the Farmall tractor. (72)

Turn on the Water! (1) The danger of impure water on the farm; good and bad water supply systems, with examples of both kinds; how to install inexpensive systems. (144)

Uncovering Earth's Riches (1) A spectacular picture-story of clearing virgin soil with McCormick-Deering tractors. (72)

GROUP 13 (Continued)**Rural Life and Farm Engineering**

***The Yoke of the Past (3) Pictorial record of a century of progress in agriculture. Implements of past contrasted with modern machinery. (X)

(See also Groups 1-12, 58, 66, 103, 125, 129)

FORESTRY AND FOREST CONSERVATION**GROUP 14****Forestry and Forest Conservation**

***The Cost of Carelessness (1) Lesson to campers. Prevent devastating forest fires. (28)

Deforestation and Reforestation (1) A forest fire burning off thousands of acres of timber calls attention to necessity for reforestation. Planting and cultivation of young trees for waste lands. (XXI)

Fire—The Prairie Demon ($\frac{1}{2}$) Common menace to the early settlers of the great "open spaces" of the West; scenes showing the attending damages and dangers. (144)

Forest and Everyday Things (1) Few realize how intimately forest products enter into everyday life and the existing need for maintaining a higher timber level. (49)

The Forest—and Waters (1) Designed to point out vital influence that the forest has on water supply. (144)

Forests Green or Forests Gray (1) Uses of national forests, particularly the recreational uses; how campers, trampers, and tourists can protect them from fire. (144)

Forestry the Sandhills (1) Transformation of the sandhills region of Nebraska into a thriving young forest; all the operations involved in bringing a "man-made forest" into being. (144)

The Forest Ranger's Job (1) What makes a day's work for the guardian of the forest. (144)

Forest Resources (1) One of the series—The United States, a Ten Talent Nation. (28)

Future Forest Giants (1) Reforestation on the National Forests. (144)

Good Turns for Our Forests (1) How the Boy Scouts of America are doing their bit for the cause of forest conservation through an organized campaign to assist in preventing forest fires. (144)

The Great Outdoors (1) Saving the Forests when you are touring (a composite reel on camping and camp accessories.) (XXX)

Harvesting Uncle Sam's Timber (2) Disposal of mature timber in the national forests—how the Forest Service supervises logging operations to insure perpetuation of the forest. (144)

Marking Timber (2) The fundamentals of timber marking, using western yellow pine in the Black Hills as an example. (144)

Pines for Profit (1) Reforestation in the Coastal Plain areas of the Southeastern States. What kind of lands to devote to tree growing, how to get seed, nursery practices and the planting of young trees. (144)

Pines—from Seed to Sawmill (2) The rapidly disappearing pine forests of the South, and the importance of reforestation of cut-over areas. (144)

Pines That Come Back (1) How timber will give a profitable return on farm lands not suitable for field crops; good forestry practices; and uses of timber. (144)

Red Enemy (2) The story of a tree which had stood the test of time, and was finally destroyed by Red Enemy, caused by a careless rancher; a camping party trapped in the burning forest and their escape; industries depending on our national forests. (144)

Trees of Righteousness (3) To be used in abating the evil of "woods burning" particularly in the Ozark region. Efforts of a mountain preacher to convince his flock that "woods burning" ruins pasture and eventually destroys the forest. (144)

Trees of To-Morrow (2) Problem of preventing an agricultural and industrial depression, due to an inevitable timber famine. (144)

What the Forest Means to You (2) Designed to set forth the dependence of mankind upon the forest and the evils that follow in the wake of total destruction of forest cover. (144)

** White Pine—A Paying Crop for Idle Lands (1) Reforestation of cut-over lands with white pine, field planting and nursery practice. (144)

(See also Groups 46-9, 51, 71, 78, 84)

SOILS AND SOIL CONSERVATION**GROUP 15***Soils and Soil Conservation*

America—Garden with a Protected Soil (1) The conservation of natural resources. (23, 69, 156)

America—The Storehouse of the World (1) Our land, the granary that assures the world against famine. (66A)

Ancestry and Classification of Soil (1) One of the series—The United States, a Ten Talent Nation. (23)

Anchored Acres (1) Soil erosion damage and approved modern engineering practices for overcoming this evil. Brush and soil saving dams, terracing, and crop rotation. (144)

Limestone for Ailing Clover (1) County agent gives soil the "acid" test, finds it "sour," and prescribes limestone; a practical demonstration of the use of limestone in the midwest. (144)

*****Pay Dirt** (2) An argument for judicious use of fertilizers in keeping fine soils up to their maximum yield. (73)

Soil Conservation (1) One of the series—The United States, a Ten Talent Nation. (23)

(See also Groups 48-9)

GROUP 16*Irrigation*

California Gold (4) From a wilderness to 60,000 acres of oats, wheat, barley, alfalfa, beets, potatoes, within a decade. (69, 156)

Irrigation (1) Utilization of natural reservoirs for distribution of waters to parched lands. (49)

Irrigation (1) A visual story of the results of irrigation on arid wastes for sale only. (58)

Irrigation in Montana (1) Self-explanatory. (61)

*****Making the Desert Blossom** (1) Describing operations of the Bureau of Reclamation in irrigating arid lands in the West. (49, 143)

*** Reclaiming Arid Land by Irrigation** (1) Need for irrigation in our arid West; the areas reclaimed by various private and public enterprises; the methods the farmer employs to irrigate his fields; some of the great dams and reservoirs. (134)

The Roosevelt Dam (1) Converting the arid desert to fertile farms. (XXX)

Through Shoshone Valley (1) Greatest irrigation plant in the world. (28)

(See also Groups 48-9)

THE HISTORICAL CHARTS OF THE LITERATURES

By NELSON L. GREENE, A. M. (Princeton)

One of the oldest "Visual Aids"—continuously in demand since their first appearance in 1912—pronounced invaluable by scores of libraries for bulletin-board reference, by hundreds of Schools and Colleges for class use, by thousands of general readers of literature for constant personal reference.

English

American

French

German

(Folded in cover 6x8½ inches, or unfolded for wall use)
50 cents each

Set of 4 charts, one of each, \$1.50

A New Manual for Teachers
"Fundamentals In Visual Instruction"

By

WILLIAM H. JOHNSON, Ph. D. (The University of Chicago)
Principal of Webster School, Chicago

This volume presents, for the first time, what has long been sought by thousands of educators; namely, a resume of visual education to date, in thoroughly readable form, that is at the same time

Concise Comprehensive Authoritative

Dr. Johnson covers the outstanding results of research on this field, the various types of visual aids available, the methods of using each, together with suggestions for visual aids in the teaching of specific subjects, and clear-cut exposition of what should and should not be attempted by visual methods. The book is a stimulus and a time-saver for the progressive but busy teacher.

Bound in Cloth—112 pages

\$2.00, .Postpaid (To subscribers, \$1.33)

ART, MUSIC AND ARCHITECTURE

GROUP 17

Art, Music and Architecture

***Beethoven's Moonlight Sonata (1) The story of the little blind girl and how Beethoven came to compose his sonata, told in picture form with Prizma color. (IV, XX, 37A, 56, 155)

The Blue Boy (2) The second Romance Production, photographed by Technicolor Process. Inspired by the painting of the same name by Sir Thomas Gainsborough. (VI, 42)

The Dawn of Art (1) The advancement of Art through the ages. The various types of people that made up the human race. (69)

The Etcher and His Art (¼) Complete demonstration of how etchings are made. (22)

Evolution of a Poster (¼) Art of lithography shown in various processes. (22)

Famous Melody Series (1 each) Charming screen stories based on songs of many lands. Produced in native settings and costumes: Songs of Ireland, Scotland, England, the Northern States, Central Europe, Spain, France, Italy. (XV)

Famous Music Masters Series (12 reels). Each reel an incident from the life of a great composer. (57)

In a Sculptor's Studio (¼) How a sculptor works from first sketch to finished marble. (22)

Koko Song Car-tune (1) Max Fleischer has succeeded in inducing community singing. Balls dance to notes of score and to proper words. Old-time songs constitute repertoire. (XIX)

Last Rose of Summer (1) Tom Moore's immortal masterpiece pictured. Music cue available. (37A)

The Life of Christ (1) A tabloid presentation in tinted colors of the master paintings of Christ. (XXI, 37A)

The Mona Lisa (2) The third Romance Production, photographed by Technicolor Process and inspired by Leonardo da Vinci's immortal painting. (VI)

Temples and Palaces of India (1) Tells the history of the people from India's architecture. (151)

The Vision (2) A dramatic subject inspired by Sir John Everett Millars' painting "Speak! Speak!" photographed by Technicolor Process. Received the Reisenfeld Gold Medal for 1926 awarded each year to the outstanding Short Feature of the year. First Romance production. (VI)

Windows of Art (¼) Development of stained-glass window. (22)

***With Pencil, Brush, and Chisel (1) Emil Fuchs as painter, sculptor, and etcher. Excellent art study, both entertaining and instructive. (IX)

(See also Groups 19, 28-9, 32, 34-5, 37, 40, 55, 60, 74, 83)

ASTRONOMY

GROUP 18

Astronomy

Charting the Skies (¼) Scenes at Aerological Station, U. S. Weather Bureau, Drexel, Nev., showing how big kites are used for ascertaining atmospheric conditions. (22)

Comets (¼) How they are formed and how they act. Course of Halley's comet indicated. (22, 112)

Communing with the Heavens (1) The work of Canada's astronomers, explaining in a non-technical way this little-known and understood science. (XXX)

Days and Nights (1) Causes of day and night clearly defined. (71)

Earth and Moon (1) Shows phenomena connected with earth and moon; different phases of moon and eclipse of sun and moon. (49)

The Earth and Worlds Beyond (1) Summary of the cycles of day and night and of the seasons. Views of the sun, stars, and planets, taken through the largest telescope in existence. (XXI, 49, 134)

Eclipse of the Sun (½) Picture of total solar eclipse combining animated drawings with actual photography. (22, 49)

The Eclipse of 1925 (1) Every phase of the total eclipse of the sun of 1925 is shown. Made under the supervision of *The Scientific American*. (XVI)

Evolution of the Solar System (1) The beginning of everything—the evolution of a solar system from nebula. (49)

Heavens Above (1) A scientific exposition of the movements of the earth and stars. (66A)

GROUP 18 (Continued)**ASTRONOMY****Astronomy**

Hello Mars (1) Illustration by animated technical drawings of the theories of Perrider, Peckering, Wood and Flammarion, of possible ways of signalling to Mars. (66A)

If We Lived on the Moon ($\frac{1}{2}$) Technical drawings and actual lunar photography show conditions as scientists believe them to be on surface of the moon. (22)

Milky Way (1) Showing universe and millions of stars beyond. (66A)

Romance of the Planets (1) Animated drawings and models demonstrate the nebular hypothesis. Ideas of astronomers for interplanetary communication. Planetary motion is explained. (22)

Romance of the Skies (1) A study of the course of comets, eclipses and other phenomena of the heavens. (22)

The Solar System (1) The comparative sizes of the planets in the solar system and their distances from the sun. Relation of the moon to the earth. (XXI, 71)

Tides and the Moon (1) Moon's effect on the sea, the influence on tides, etc. Technical drawings and actual photography. (22, 66A)

Zones (1) Reasons for establishment of the tropics of Cancer and Capricorn, and boundary lines of various zones indicated. (71)

(See also Group 57)

BIOGRAPHY**GROUP 19****Biography**

American Statesman Series (1 reel each) Produced by Urban.

(37, 37A, 49, 56, 112, 113, 151)

Biographical studies of:

***Benjamin Franklin (1) Following his story from boyhood to his life in the city of Philadelphia whose institutions he helped to establish. Well worth showing.

***Alexander Hamilton (1) Well-known incidents in the life of Hamilton, with particular attention to some of its most dramatic moments.

***Thomas Jefferson (1) Life of Thomas Jefferson, the leader of Democracy.

** Abraham Lincoln (1) Summarizing life and career of Lincoln.

** George Washington (1) Life of George Washington who sacrificed wealth, social position and home to become the leader of a great ideal.

** Daniel Webster (1) Life of America's greatest orator.

** Luther Burbank (1) A biographical sketch of this famous naturalist surrounded by his garden, and an experiment in crossing of plants.

(37A, 49, 58)

A Day with John Burroughs (1) The great naturalist shows two children the wonders of nature about his home in Ulster County, New York. Natural Color. (33)

In a Naturalist's Garden (1) John Burroughs in his garden at Riverby. (56, 113)

Over the Hills to Plymouth (1) President Coolidge. (XXX)

The Benefactor (3) Life of Edison, told in interesting episodes from age of five to present. (X)

Thomas A. Edison (1) His visit to General Electric Laboratory. Methods of making the incandescent lamp. (X)

Heart of a Hero (6) An impressive visualization of the life of Nathan Hale. (49)

Deliverance (7) Biographic study of Helen Keller. (77)

***Abraham Lincoln (12) Finest delineation of the real Lincoln that stage or screen has produced. Utterly sincere in representing the private and public life of our great statesman. Realistic scenes of Civil War action. George Billings in part of Lincoln. (III)

Abraham Lincoln (2) Frank McGlynn in episodes from Lincoln's life. (18, 56)

Life of Lincoln (2) His boyhood struggles, taking up the profession of law, his political career, in the White House, and his death. (69, 156)

The Son of Democracy (10 chapters, 2 reels each) Written, directed and produced by Benjamin Chapin, who enacts the Lincoln role:

My Mother (2) The gentle influence, the loving companionship of Nancy Hanks Lincoln. (23, 37A, 56, 66A, 69, 113)

My Father (2) Shows the vital importance of an education. (23, 37A, 56, 66A, 69, 113)

GROUP 19 (Continued)**BIOGRAPHY****Biography**

**** The Call to Arms (2)** The chapter shows the Lincoln family in the White House. Significant treatment of Lincoln's problem when confronted with cry of war. (23, 37A, 56, 66A, 69, 113)

My First Jury (2) The defense of a little colored boy accused of chicken stealing. (23, 37A, 56, 66A, 69, 113)

Tender Memories (2) Seeing a soldier's grave brings tender memories of his beloved mother's grave. (23, 37A, 56, 66A, 69, 113)

A President's Answer (2) The father heart of Lincoln is revealed as he constantly grants pardons. (23, 37A, 56, 66A, 69, 113)

Native State (2) Story of President Lincoln and Daniel Boone's grandson. (23, 37A, 56, 66A, 69, 113)

*****Under the Stars (2)** Lincoln's love for his native state, which finally decided the wavering legislature; brings before us the great Emancipator, his nature and destiny. (23, 37A, 56, 66A, 69, 113)

The Slave Auction (2) The incident of the auction block and Lincoln's vow. Its fulfillment. (37A, 56, 66A, 113)

Down the River (2) Contest with slave-stealing gang on the Mississippi. (37A, 56, 66A, 113)

The Land of Opportunity (2) A moving incident in the life of Lincoln. Ralph Ince is seen as "Honest Abe" running for Congress. (23, 37A, 56, 69, 113, 156)

**** Pasteur (2)** Authentic film record of life of this great bacteriologist and benefactor of humanity. (23, 49, 56, 66A, 69, 113)

The Real Roosevelt (2) Scenes from his life. Roosevelt in action. (XXX, 18, 56)

In Roosevelt Land (2) Brief film biography. (112)

Memorializing Roosevelt (2) Title tells it. (XXX)

*****T. R. Himself (1)** Life of Roosevelt—delivery of inaugural address, with Peace Delegates at Portsmouth, receiving Nobel Peace Prize at Christiana and other incidents. (XXX)

Our Heritage of Faith (5) Thrilling story of the heroic life of the great American Missionary, Marcus Whitman. (XVI)

Cradle of Washington (3) Shows the birthplace and ancestral homes of Washington's forefathers in England. American pictures include views of Mt. Vernon. Also shows the ancestral homes of the Benjamin Franklin family. (XVII)

William Shakespeare in Memoriam (1) Interesting scenes that are associated with the five important facts known about Shakespeare. (23)

William Tell (1) Story of his life. (112)

Life of Richard Wagner (1) Self-explanatory. (112)

The Spirit of Lafayette (6) The life history of the Marquis de Lafayette and his struggle to help America during the Revolutionary War. (42)

(See also Groups 17, 21, 47, 59, 60, 83, 135, 136)

CHEMISTRY**GROUP 20****Chemistry**

*****Beyond the Microscope (1)** Decomposition of water into its two gases; how the gases burn and assist combustion. How the molecules act in heat and cold. (X)

Chemical Inspirations (1/4) Photomicroscopy of chemicals and animated drawings produce novel effects. (22)

The Chemistry of Combustion (1) Numerous experiments in combustion. (151)

Crystals and Their Beauties (1) Microscopic formations of various crystals by chemical and electrical means. (XXI)

Experiments with Sulphur (1) Experiment showing its uses chemically and commercially. (151)

Oxygen the Wonder Worker (2) How liquid air is made; why oxygen can be extracted from air; how acetylene is made; how both gases are used in modern industry. (XXX, 1, 142)

*****The Story of the Lucifer Match (1)** The history of fire lighters and modern process of making matches. (37, 49, 151)

(See also Groups 73, 80, 95, 133)

CIVICS AND PATRIOTISM

GROUP 21

Civics and Patriotism

Civics (13) Series of 13 one-reel lessons: Twentieth Century Pilgrims (Part 1 and Part 2), American Ideals, Service, Obedience, Thrift, Physical and Mental Fitness, School Beautiful, School Discipline, School Industries, Serving the Community (Part 1 and Part 2), Working with Civic Organizations. (105A)

America Junior (2) Story-picture. It is beautifully photographed and sufficiently dramatic to hold undivided attention. (134)

Betsy Ross (5) The sprightly Quakeress who at Washington's personal request made the first American flag. (66A)

British Strike (2) First general strike in history disclosed. Statistical facts. Causes and results. (IX)

*A Citizen and His Government (2) A splendid introduction to the study of Civics. In story form. The film visualizes the many services our government performs for every citizen. A subtle lesson in Americanism. (42, 134)

Civics and Education (1) The relationship of the fundamentals of education to citizenship. (37A)

Father Knickerbocker's Children (1) Lives of children in New York City, from every race and land. (134)

***Glorifying Old Glory (2) Shows authentic manner of displaying the flag. Brief history of the flag and illustrations of flag code. (42)

** Growth of Cities and Their Problems (1) Common problems attending the growth of communities from small towns to thriving cities, and solutions. (134)

***"Hats Off!" A Story of the Flag (1) Review of the past history of the flag. A lesson in flag etiquette. (42, 49, 134)

Hearts of Men (5) George Beban in the story of an Italian immigrant's struggle for success in this country. (56)

***How to Beautify Your Community (2) Transformation of "Slidertown" to South Park in Dayton, Ohio. Other parts of the city follow up the good work. Practical steps for any community. (99)

Immigration (1) The people who come to the United States; how they enter, what they do and the kind of citizens they make. (XXI)

* Immigration to the United States (1) The important "waves" of immigration and the causes back of each. European background of the immigrant. Contributions immigrants have made to the foundation and development of U. S. (134)

The Making of an American (1) Educating our foreign born population in the spirit of American institutions. (28)

***Old Glory (1) The "story of the starry banner of our country" done in dignified and beautiful fashion. Scenes in Prizma color, supplemented by pastel paintings. (IV, XX, 56, 156)

Peter Points the Way (6) Americanization film. (XXX)

***The Story of the Star Spangled Banner (1) Shows history and circumstances under which Francis Scott Key wrote the song. (XVI)

Yanks (1) A human study in Americanization. (23)

(See also Groups 19, 59, 60, 83, 103, 123)

DOMESTIC SCIENCE

GROUP 22

Domestic Science

Familiar Foods from Foreign Lands (1) Interesting "Life History" of everyday foods that come to us from the far ends of the earth. (23, 56, 69, 113, 156)

The A. B. C. of Fish Cookery (1) Self-explanatory. (XXX)

***A Lesson in Cooking—How to Make an Omelet (1) Use of the chafing dish. Now being used in city schools of New York and Los Angeles. (XII)

Oranges—How to Use Them (1) Preparation and service of several orange and lemon dishes; shows California orange grove and packing scenes. (30, 42, 113)

Hints to Housewives (7 $\frac{1}{4}$ -reel subjects)

Butter Substitutes ($\frac{1}{4}$) How fat drippings may be clarified and utilized in cooking. (22)

Egg Preservation ($\frac{1}{4}$) Shows how solution of waterglass will preserve eggs for six months. (22)

Fireless Cooker ($\frac{1}{4}$) Demonstration of principles and how to make simple one at home. (22)

GROUP 22 (Continued)**Domestic Science**

- The Food Value of Milk ($\frac{1}{4}$) Preparation of dishes having milk as their basis. (22)
- Iceless Refrigerator ($\frac{1}{4}$) Demonstration of how refrigeration can be accomplished without ice. (22)
- Meatless Meat Loaf ($\frac{1}{4}$) How to make a nourishing and appetizing substitute for meat. (22)
- Soap Making ($\frac{1}{4}$) How fat drippings may be utilized. (22)
- Flour from Potatoes ($\frac{1}{4}$) Home method of making potato flour. (22)
- Baking Better Bread (1) Educating young girls and housewives to better bread baking. (127, 149)
- The Staff of Life (1) History of bread baking: by primitive methods in colonial kitchen; process in modern bakery. (102)
- The Talk of the Town (1) Advertising Town Talk Bread and showing processes of bread-making employed in a modern bakery. (139)
- ***The Leavener of Life (1) Baking powder, and how it is manufactured. Of special interest to school classes, women's clubs and community groups. (127)
- The Modern Conservation of Fruits and Vegetables (1) Dehydration of fruits and vegetables. (151)
- The Magic Jar (1) The discovery and history of canning with demonstrations made in co-operation with the Farm Bureau. (XXX, 14, 149)
- General Germ's Waterloo (1) A comedy describing how germs attacking preserves were defeated by good rubbers. (37A)
- Lessons in Carving (4 $\frac{1}{4}$ -reel subjects) Chef demonstrates each operation in the art of carving. (22)
- The Duck ($\frac{1}{4}$) The Ham ($\frac{1}{4}$) The Roast of Beef ($\frac{1}{4}$) The Turkey ($\frac{1}{4}$) Fashions of New England (1) Evolution of style from days of the spinning wheel and hand loom to the present. (102)
- A Matter of Form (1) Home demonstration agent helps women of Pleasant View Community to do their own sewing; the making of dress forms. (144)
- Clothes and the Girl (1) How the sewing machine solves this problem. (XXX)
- ***Laundering Fine Fabrics (2) The art of washing fine fabrics. Useful for domestic science classes and women's clubs. (XXX)
- The Consolation Club (1) Outgrown household appliances from former days now superseded by modern electrical appliances. (XXIX)
- Don't Cheat Yourself ($\frac{1}{4}$) Department of Weights and Measures gives practical demonstration for housewife of methods employed by unscrupulous merchants. (22)
- Mrs. Brown Versus the High Cost of Living (1) How one woman made her household budget cover every day's requirements. Suggestions regarding food selection and preparation. (37A, 134)
- Street and Table Manners (1) Proper behavior on the street and at the table. (151)
- Social and Ballroom Etiquette (1) The proper behavior in a public ballroom. (151)

(See also Groups 2-5, 20, 77, 80, 101)

ECONOMICS**GROUP 23****Economics**

- All in the Day's Work (2) The normal activities of a business day in great manufacturing company's most important distributing house. (XXX)
- Banking in New England (1) Machinery of a modern bank. (102)
- Checkmated (2) Protection of money from early coins to present day, including bank checks. Consists largely of animated cartoon. Closes with cartoon on Thrift. (21)
- The Federal Reserve System (1) Animated drawings and motion pictures, partly colored, illustrate functions and operations of the Federal Reserve Banks. (XXX)
- ***Men and Management (3) The principles of visual instruction as applied to the elimination of waste in industry. (99)
- ***Modern Banking (1) Daily routine of bank business. Good for class study of the subject. (37, 37A, 49, 66A, 151)
- Money Talks (1) Tells the story of a mortgage and of Prudence "mortgage bonds." (120)

GROUP 23 (Continued)**ECONOMICS****Economics**

Putting the "Win" in Windows (1) Lessons in handling crepe paper for decorations particularly as applied to window display backgrounds. (XXX)

Story of the Savings Bankbook (1) Lesson of thrift in romance of two young people who found security in a bank account. (102)

A Trip to Wall Street (2) A day's work in the world's greatest financial market. The New York Stock Exchange. (23, 56, 113)

***Under the Spreading Buttonwood Tree (1) Historical sketch of the New York Stock Exchange, and description of its workings. (153)

Waste Can't Win (4) The things that hold back production in a factory and how to eliminate them. (99)

(See also Groups 50, 123-6, 130)

EDUCATIONAL ACTIVITIES**GROUP 24****Educational Activities**

Chalk Marks (7) Romance showing what the American school teacher has contributed to the making of the Nation. (19)

China Goes to Borneo (1) New methods in Chinese schools, the influence of the Occident on their educational methods. The march of civilization. (66A)

Democracy in Education (1) A story of the foundation upon which our national government is based—educating its future citizens. For sale only. (58)

Dawn in Lonesome Hollow (1) Struggle of two youths of the foothill district of Kentucky for an education at Berea College; their return to their rural district to improve conditions. (134)

Eyes of the Blind (1) Industrial and educational work among the blind at the Ming Sam School, Canton, China. (37A)

From Jacques to Johnnie (1) Letter from French child to the school children of America. Describes the home and school life of French children, agricultural methods, equipment and some of the customs of the people of France. (134)

The Gates of Opportunity (3) Appeal to non-English speaking foreign-born. Explains simple and accessible ways of learning English. Shows resulting opportunities. (37A)

Golden Schooldays (2) A rural story, concerning a boy who found little to interest him in the antiquated, one-room, country school; awakened interest as a pupil of the new consolidated school. (69)

Henry Ford Trade School (4) Shows the activities of the school—how the boys earn a livelihood, receive an education and learn a practical trade. (58)

A Machine that Thinks (½) Graphic history of bookkeeping, particularly a demonstration of modern adding machine. (22)

Origin and Development of Handwriting (1) Self-explanatory. (XXX)

***School Days (1) How the consolidated school and the motor bus have made it possible for the child in the rural sections to enjoy every educational advantage of the city youth. (XXX, 72)

School Police System (1) Emphasizing safety for school children. Very fine for any school to run. (121, 128)

Schooling the Senses (1) New method of school instruction. (151)

A Trip to Musicland (2) The efficacy of the Dunning method of teaching music. (XXX)

Twenty Centuries of Shorthand (1) From the days of picture writing to its use in modern business. Some famous Americans who used shorthand and champion speed writers at work. (XXX)

* The University of the Night (2) Presents in animated cartoon the need for and value of home-study and shows scope and influence of the work of the greatest of correspondence schools. (21)

Vocational Training for Blind Soldiers (1) Teaching trades to the sightless at "Evergreen," Baltimore, Md. Red Cross film. (134)

Vocational Guidance (9) Series of 9 one-reel lessons in: The Farmer, The Machine Operator, The Automobile Mechanic, Architect and Engineer, The Doctor, The Salesman, The Stenographer, The Musician, The Department Store Manager. (105A)

(See also Groups 105, 110, 123-6, 133, 136)

GEOGRAPHY

Geography (9) Series of 9 one-reel lessons in: People Who Live in the Arctic, People Who Live on the Equator, People Who Live on the Mountains, People Who Live by the Sea, People Who Live on the Plains, People Who Live in a Great Valley, People Who Live on Plateaus, People Who Live in the Desert, People Who Live through Industries. (105A)

GROUP 25**AFRICA****Northern Africa**

*****Algeria, the Ancient (1)** Arabs of the Sahara living as they did centuries ago. Oases and village life. Making sun-dried brick. All in Prizma color. (IV, XX, 33)

Algerian Contrasts (1) The new and old cities of Algiers. (151)

Ancient Rome in Africa (1) Glimpses of the ruined cities: Timgad, El Digem and Carthage. (151)

Children of the Sahara (1) Scenes of camel trains: herding of caravans; evening prayer in the Garden of Allah. (134)

Danse du Ventre (1) Dancing girls of famous tribe in Algeria, 1000 miles into the Sahara. Prizma color photography. (XX)

*****Desert of Sahara (3)** Extensive and careful study of the region by Capt. Angus Buchanan. Well adapted for teaching purposes. (49)

Life in the Sahara (1) Arab's mode of living in the Desert, including the date harvest and Arab Fantasia. (151)

The Moor (6) One Thousand and One Nights in this mysterious country. (151)

Morocco, the Mysterious (1) Astounding revelation of the customs and occupations of the people of Fez. (151)

Mosques and Minarets (1) Scenes of interest in Constantine and Tunis. (151)

*****Oases of the Sahara (1)** Scenic gem, devoted to the desert and its people. Caravans, oases, market day in an Arab city and the primitive method of drawing water from desert wells. Prizma color. Admirable for classroom use. (XX)

*****The Sacred City of the Desert (1)** Oasis vegetation and various views in and around a desert city, said to have been built centuries ago by a tribe which found refuge there. Prizma color. (XX)

Wandering Tribes of the Sahara (1) A unique annual occasion among the Israelites of the Desert. (151)

(See also Groups 26, 72)

GROUP 26**Egypt**

Calling on the Sphinx (1) The Great Pyramid of Cheops; the Second Pyramid; surprising aspects of the Sphinx. (69)

Cosmopolitan Cairo (1) Where modern progress mingles with the past. (151)

The Delta of the Nile (1) River life on the Nile. (151)

The River Nile (1) Self-explanatory. (IX)

(See also Groups 25, 72)

GROUP 27**Central and South Africa**

African Expedition Pictures (6) Series of single reel subjects photographed in unexplored Central and Southern Africa. Prizma color. (56)

*****The Cape of Good Hope (1)** Record of events and landmarks dealing with the life of Cecil Rhodes; Capetown and Table Mountain. All in Prizma color. (IV, XX, 33)

** **The Impi (1)** Native warriors of the Swazi in combat and at drill. Prizma color. (XX)

Life in Africa (1) In Kouroussa, a Black village, the town of Casablanca. (66A)

On the Trek (1) South Africa and its natives. Prizma color. (XX)

Royal Family of Swaziland (1) Life in the lone surviving royal family of South Africa. Prizma color. (XX)

Tip of the Dark Continent (1) Cape Colony, Africa—scenes and people. (37)

Wilds of British South Africa (1) Wild animal life of the jungles taken at their water holes. (XXI)

(See also Group 117)

GROUP 28**ASIA****China**

**** China (1)** A "natural color" tour along some of China's rivers and crowded city streets. Views of the famous Summer Palace and the Temple of the Sun. (IV, XX, 28, 156)

China Today—Seeing China by the Y. W. C. A. (4) Travelogue, showing most beautiful parts of Orient. Manners and customs of the country. (XXXI)

A City That Never Sleeps (1) Complete account of life, manners and customs in and about Canton. (22)

Birds and Alligators of Louisiana (1) Federal Bird Refuge on Avery Island in the lower Mississippi. (37)

The History of Mississippi (1) Picture story of the state. (63)

In the Old South (1) Industries—cotton, maple sugar, broom corn, peanuts, etc.; native life and types. (XXI)

On the Trail of the Lonesome Pine (1) Trip into the Blue Ridge Mountains of Georgia. (151)

Our Southern Mountaineers (¼) Domestic industries, with old methods, pursued by country peoples of Cumberland and Blue Ridge Mountains. (22)

(See also Groups 50, 52, 58, 123, 131)

GROUP 46 Northwest

Across the Great Northwest (1) Short scenic of outstanding scenes through the Northwest. (61)

Motoring in Oregon (1) Motor trip through wooded and mountainous sections of Oregon. (151)

* Oregon's Earthly Paradise (1) Scenes on Columbia Highway, built by people of Multnomah County, Oregon. (22)

Roof of America (1) Northern Montana watershed, its lakes, mountains and valleys. Blackfeet Indians. Prizma color. (XX, 28, 33, 37)

***A Saddle Journey to the Clouds (1) Horseback expedition among peaks of High Sierras. Scenically beautiful. (V, XXX, 30, 37A, 42)

Sentinels of the Sunset (1) Mt. Lowe and Mt. Wilson. (144)

The Trail Calls (1) Exploring two of nature's wondrous spectacles—Crater Lake and the glacier of Mt. Hood in Oregon. (151)

Above the Clouds (1) Climbing Mt. Rainier. (37A)

Washington, the Evergreen State (2) A journey over the state, pointing out its resources. (61)

(See also Groups 50, 57, 111)

GROUP 47 Central West

Cliff Dwellings in Colorado (1) Ruins of Indian cliff dwellings built in 1300 A. D. (151)

Elkland (1) In the Shoshone valley of Wyoming. Prizma color. (XX)

Garden of the Gods (1) View of Colorado's natural wonders. (151)

Killdeer Rodeo (3) Annual Roundup at Killdeer Mountains, N. D. Scenery in the Bad Lands. (XII)

Pike's Peak (¼) Picturization of the mountain scenery atop the Continental Divide. (XX, 28)

Through the Roosevelt Country (2) Bad Lands of South Dakota and surrounding country in development of which Roosevelt played an important part. (XXI)

The Towering Wonders of Utah (1) Strange scenic phenomena in mountains of Utah and Nevada. (37, 37A, 49)

(See also Groups 50, 116, 132)

GROUP 48 Southwest

The Apache Trail (1) Old trail used by Spanish explorers, including scenes in color of Roosevelt Dam; Apache Indian at home and ruins of cliff dwellings. Prizma color. (IV, XX, 28)

** Trailing the Apache Trail of Arizona (1) Scenes along highway through the southwest; views of Roosevelt Dam and ruins of ancient cliff dwellings. (30, 37A, 42, 112)

Grand Canyon (1) Prizma color reproductions of scenic wonders of the famous canyon of the Colorado. (IV, XX, 28, 56, 71, 113, 156, 158A)

***The Grand Canyon of the Colorado (1) Color film showing canyon from various vantage points on the rim; trails that lead down to the river; suspension bridge and camps in the canyon. (30, 42)

GROUP 48 (Continued)**UNITED STATES****Southwest**

- Grand Canyon of Arizona (1) In natural color. (37A)
 Petrified Forests (1) Wonders of Arizona's petrified forests and the Painted Desert in Prizma color. (XX, 28)
 California (6) Detailed study showing agricultural activities and industries; also beauty spots. (XXI)
 The Romance of California (1) Picturing the development of the state. (30)
 Seeing Northern California (1) The Redwood district of California. (151)
 Prolific California (1) Showing some of California's natural resources. (151)
 Big Trees of California (1) Study of these wonderful giants of California. For sale only. (58)
 Old Missions of California (1) Spanish missions along the California coast. (151)
 The King's Highway (1) Trip along El Camino Real beginning at San Juan Capistrano, visiting a number of missions. (XXI)
 The Valley of the Seven Moons (1) Where the last missions were built; scenic beauties and historic events of early California. (XXI)
 Mt. Whitney (1) Highest mountain in U. S.—rugged trail and high peaks. (IV)
 From Sea to Sierra (1) A trip from the Pacific to the Sierra Mountains of California. (V, XXX, 37A, 42)
 Carriso Gorge (1) California's newest scenic marvel, traversed by San Diego and Arizona Railway. (XXX)
 * Hitting the High Spots (1) Pack saddle journey in Sierra Nevada mountains, picturing California's big trees, geysers, petrified forest and other natural wonders. (V, XXX, 30, 37, 37A)
 Where All Nature is Akin (1) The wild life of the High Sierras. (IV)
 .(See also Groups 50, 52, 57, 124)

GROUP 49**General**

- America—The Storehouse of the World (1) Our land, the granary that assures the world against famine. (56, 113)
 America—The Mouthpiece of Freedom (1) Genius of people that have become custodian of the freedom possible only in a Christian civilization. (56, 113)
 America—Enduring Power for Service (1) The United States, the giant among nations. (56, 113)
 America—The Garden with a Protected Soil (1) The conservation of natural resources, careful development. (56, 113)
 America—The Land of Many Waters (1) Made useful in building the nation. (56, 113)
 The United States—A Ten Talent Nation Series of 13 one-reel Geography pictures of unusual pedagogical value. (23, 56, 69, 113)
 North America, the Center of the World Neighborhood
 Location, Climate and Boundaries Agricultural Resources
 Size and Topography Animal Resources
 Topographic Formation Forest Resources
 Rivers as Agents in Shaping the Surface of the Earth Water Resources
 The Life History of a Stream Mineral Resources
 The Ancestry and Classification of Soil
 * Pacific Mountains and Lowlands (1) Lumbering and fishing industries; agricultural areas; commercial and industrial life; great seaports; views of famous scenic features. (134)
 Roads to Wonderland (1) Scenic spots reached by roads built by Federal, State, and County governments; Mt. Hood; Crater Lake; Yosemite National Park. (144)
 * Rocky Mountains (1) Visualizes rich resources of minerals; forests; fertile valley farm lands and fruit orchards. Scenic wonders. (112, 134)
 Rocky Mountains (1) Geographical survey of the Rocky Mountains. For sale only. (58)
 The Wanderluster (1) On the Great Divide. (XXX)
 * Western Plateaus (1) Physiography and climate of Colorado Plateau, Great Basin and Columbia Plateau; the life and industries of the people. (134)
 .(See also Groups 15-16, 50, 57, 129)

Pick the right film—then use it skilfully.

GROUP 50**UNITED STATES****Cities**

- Atlanta—Scenes in Capital of Georgia (1) Business, residential and official life. (151)
- Baltimore—City of Firsts (1) A semi-industrial film showing most of the "firsts" for which Baltimore is internationally known. Scenes in first automatic ice-cream plant in the country. (XXIII)
- Boston (1) Replete with scenes of modern and historic interest. (151)
- Sylvan Boston (1) Depicting the arboreal attractions of "The Hub." (151)
- Chicago, the Colossus (1) Points of interest and notable buildings. (151)
- The City of Brotherly Love (1) Points of History and important buildings in Philadelphia. (151)
- Sixty Minutes from Broadway (1) Scenic of country in and around Los Angeles. (37A)
- A Man-Made Eden (1) Scenic—the city of Los Angeles. (V, 37A, 42)
- On the Trail of the Beautiful (1) Points of interest near Los Angeles. (V, 37A, 42)
- Mobile (¼) Camera visit to spots of interest in this old Southern city. (XX)
- New Orleans (1) Simple activities of this Southern city. (58)
- The Crescent City (1) Glimpses of New Orleans. (151)
- New York—America's Gateway (1) Noteworthy places and buildings of New York. (151)
- Manhattan Life (1) Life as it is lived by our immigrant settlers in New York. (42, 151)
- Old New York (1) Comparative views of early and modern landmarks in the metropolis. (37, 49)
- New York City (1) A study of New York City's sky-scrapers, bridges, etc. (V, 58)
- The Two Fathers (1) Why New York City has grown so tremendously; shows property values of past and indicates probable growth in future. (120)
- The Real Charleston (1) Views of the city. (23)
- Romantic Richmond (1) Impressions of Virginia's capital with its many war-time memories. (151)
- Down in Old Richmond (1) Cotton scenes and southern homes. (28)
- San Francisco, City of Hills and Romance (1) A tour of America's most picturesque and cosmopolitan city, showing the Golden Gate, Chinatown, etc. (XXX, 37A)
- San Francisco in Romance and Story (1) Interesting trip through the city with a bit of early history. (37)
- The City by the Golden Gate (1) Life in San Francisco. (151)
- St. Louis (1) Self-explanatory. (112)
- ***Washington, D. C. (1) General survey of the Nation's Capital. For sale only. (58)
- Seeing Washington (1) Boys' and girls' club champions, from all parts are given trip to National Capitol. (144)
- Washington, D. C. (1) View of city from Washington Monument—Capitol, White House, Congressional Library, etc. (63, 112)
- Touring California's Ports (1) San Diego, Los Angeles and San Francisco (V, 37A)

(See also Groups 23-4, 45-6)

GROUP 51**National Parks and Forests**

- Cloud-Busting (1) Adventures of automobile touring party in the White Mountain National Forest, N. H. (144)
- Under the Great Stone Face (1) Tramping to points of interest in White Mountain National Forest, including the famous "Old man of the mountain." (144)
- ***The Story of Our National Parks (2) A motor bus tour of Yellowstone, Yosemite, Grand Canyon and Rocky Mountain National Parks. (XXX, 142)
- Algonquin Park (1) Self-explanatory. (XXX)
- Where It's Always Vacation Time (1) Algonquin Park in winter and summer. (XXX)
- The Romance of Crater Lake (¼) Fine scenic pictures photographed from surrounding mountains and from boat on lake. (22)
- Glacier National Park (1) Scenic trip through America's beautiful park. (V, 61, 121)
- Glacier Park (1) Packing over Piegan Pass; trail to Iceberg Lake and other scenic spots. In Prizma color. (XXX, 28)
- Camping Out in Glacier National Park (1) A camping trip into beautiful park scenery. (61)

GROUP 51 (Continued) UNITED STATES National Parks and Forests

- Two Medicine Lake Country (1) The title tells it. (61)
 Triple Divide to Red Eagle Lake (1) The peak with watershed to three directions—the lake where big fish are caught. (61)
 St. Mary's Lake Portal to Going-to-the-Sun (1) Covers this section of Glacier National Park. (61)
 Swiftcurrent Pass to Granite Park (1) Interesting journey through and over the pass. (61)
 Siyen Pass and Piegan Trail (1) Adequately picturing this section. (61)
 St. Mary's Lake (1) The highway to this picturesque spot amid the grandeur of the Park. (61)
 Many Glacier and Cracker Lake (1) Along the road to these spots in Glacier National Park. (61)
 Gunsight Pass (1) Includes a storm on Gunsight and scenes on the trail. (61)
 Garden Wall Trail (2) Over the trail amid the glories of Glacier National Park. (61)
 Rainier National Park (1) Self-explanatory. (37A)
 New Roads in Rainier (1) Shows cooperation between Bureau of Public Roads and National Park Service in construction of modern roads. (144)
 Mount Rainier (1) Study of the glaciers and snowfields of Mt. Rainier. For sale only. (58)
 Above the Clouds in Rainier National Park (1) Self-explanatory. (XXX)
 Rocky Mountain National Park (3) Title tells it. (36, 121)
 ***Yellowstone National Park (1) Study of the phenomena and natural wonders. (V, 58)
 ** Yellowstone National Park (1) Title tells it. (XXX)
 ** Where Rails End (2) By stage through the Teton Mountain route to Yellowstone. (14)
 ***Sagebrushing Through Yellowstone Park (1) A 200 mile ramble on foot to view the natural beauties of the park; animal life of the popular playground. Good instructional material. (37, 37A, 49, 151)
 * Old Faithful (1) Beauties of the famous geyser and the terraces. Natural color. (IV, XX, 28, 156)
 Yosemite (1) A beautiful story of Yosemite. (IV)
 The Yosemite Valley (1) A general survey. (V, 63, 112)
 Wonders of Yosemite (1) Scenery in the beautiful Yosemite Valley. (151)
 ***When Winter Comes in the Yosemite (1) Snow and ice-coverings enhance natural beauty. (IV, 30)
 Heart of the Sky Mountains (1) Yosemite Park's wonders. Prizma color. (XX, 28)
 Roads in Our National Parks (1) Construction of new modern roads in our National Parks in the West. Scenic. (144)
 A Road out of Rock (1) Another modern road in our National Parks. (144)
 (See also Groups 14, 48-9, 94, 111)

GROUP 52**Indians**

- Aboriginal Inhabitants (1) The many tribes of Indians that inhabited North America before the white man came. (49)
 American Indian Series (1 each) Princess Mona Darkfeather and all Indian cast in stories of Indians in early Pioneer Days. (56, 113)
 America's Oldest Inhabitants ($\frac{3}{4}$) The Taos Indians of Northern New Mexico. (22)
 Before the White Man Came (6) Story of pre-historic America, showing life and customs of the Indians. (56)
 Cliff Dwellings (1) Interesting ruins of Indian cliff dwellings built in 1500 A. D. (151)
 Hiawatha (1) American Indian legend. 111B)
 ** Indian Frontier Series (2 reels each) Old Indians tell of experiences that they and other members of their tribes had when the "pale-faces" first came into their country. Six in series: (XV)
 The Man Who Would not Die The Mandan's Oath
 The Man Who Smiled The Dirty Little Half-breed

***The Sky Tribe (1) Pueblo Indians and their dwelling places in the Painted Desert of the Southwest. (IX)

The Vanishing Race (1) A study of the slowly dwindling Indian on the reservations. (151)

With the Hopis and Navajos (1) Principal Indians of New Mexico; their dances and crafts. silver work, basket weaving, pottery making, and common customs. (XXI, 28)

With the Hopi Indians of New Mexico (1) Manners and customs. (37)

(See also Groups 41-2, 44, 46-8, 51, 53-4, 135)

CENTRAL AMERICA AND MEXICO**GROUP 53****Central America and Mexico**

***Guatemala (1) In land of Aztecs and Mayas; ancient temples and gigantic monoliths showing civilization centuries old. (IV, XX, 28)

Guatemalan Glimpses (1) Beauties and perils of the earthquake region. (151)

Guatemala Indians (1) Life among the Maya and Zutuhil Indians. (151)

Coffee Grounds (1) Native life on the coffee plantations of Guatemala. (151)

Ruins of Old Antigua (1) Native life and ruins in the first capital of Guatemala. (151)

Marimba Lamb (1) Manners and customs of descendants of Aztecs and Toltecs in Guatemala. Prizma color. (XX, 28)

Mexico, Historic and Architectural (1) Unusual subject showing relics of civilization antedating the Aztecs. Famous ruins and more modern architectural beauties. (XX)

All Aboard for Sombrero Land (1) Visit to Old Mexico, Xochimilco, Guadalupe, pyramids of San Juan Teotihuacan. (XXI)

Mexico (2) Relation to U. S. Geographical animation border lines—natural and artificial. Topography. Aztec and Maya civilizations. Current history. (IX)

Picturesque Industries of Mexico (1) Catching flies for fish and bird food; gathering fly-eggs; sandal making; brick moulding, and feather work. (XX)

Rejuvenated Mexico (1) Recent glimpses of city and town life. (151)

Mexico City (1) Historical study of Mexico City. For sale only. (58)

Panama (1) The old city of Panama and trip through the canal by stop motion photography. (151)

Panama Canal (1) The story of the great waterway. (X)

** Panama Canal (2) Complete and scientific study of this mighty achievement. (X, 63)

Panama Canal (½) Bird's-eye view of canal and drawings showing operation of locks. Ship passing through canal. (22)

Panama Canal (1) The story of Panama. (42)

** Panama Canal (1) The story of the Panama Canal visually presented by maps, diagrams, and selected views. For sale only. (58)

* Panama Canal and Its Historical Significance (1) Pictorial survey of whole work, from ground and from air. (42, 63, 134)

Are you looking for reference material on visual instruction? See the list of publications issued by The Educational Screen, inside front cover of this volume.

GROUP 54**SOUTH AMERICA***South America*

- South America (1) Survey of the continent.
- Native Life in Venezuela (1) Primitive customs and industries of the people. (XXI)
- On the Amazon (1) Trip up the world's mightiest river, touching at Para and Manaos, Brazil. (151)
- Up the Amazon (1) Starting at Para and continuing through the jungles to the heart of Brazil. Study of vicious South American ant and its enemy, the ant eater. (XXI)
- Outing in Brazil (1) Visiting Port Carbenella, Parahyba and Escobar village. (151)
- * Rio de Janeiro (1) A picturesque scenic of the City of Palms. (151)
- Ascending Corovada and Sugar Loaf Mountains (1) Viewing Rio de Janeiro from a height of over 3,000 feet. (151)
- Rambles Round Rio (1) Visit to the fascinating suburbs of this city. (151)
- Over the Andes (1) Noteworthy impressions of the country and people of Peru. (151)
- Land of the Incas (1) Land and people of Peru. (37)
- ***From the Land of the Incas (1) Relics from Incas burial grounds in Peru reveal much concerning their ancient civilization. Invaluable for any study of their occupations and their arts. Prizma color. (XX)
- A City of Kings ($\frac{1}{2}$) Journey through Lima, Peru; city and harbor views. (22)
- (See also Group 132)

GROUP 55**ISLANDS—ATLANTIC***Islands—Atlantic*

- Coral and Onions (2) Journey through beautiful Bermuda. (37)
- ** Canary Islands (1) Natural beauty of the islands. Making of Madeira embroidery, growing of bananas, and harbor of Santa Cruz. (IX)
- Canary Villages ($\frac{1}{4}$) Camera visit to people of these islands; native types, architecture, etc. (XX)
- The Island of Cuba (1) Different phases of life in Havana, a great commercial center. (151)
- Golden Days in Pirate Ports (1) Scenes of Cuba. (37A)
- ** Cuba Steps Out (1) Miscellaneous views, followed by an excellent presentation of the tobacco and sugar industries. (IX)
- Rambles in Porto Rico (1) A land of scenic beauty. (151)
- Sunny Porto Rico (1) Impressions of life in Porto Rico, the isle of enchantment. (151)
- Beautiful Jamaica (1) Scenes in the "Jewel of the Caribbean." (151)
- Rambles in Jamaica (1) A trip through this island. (151)
- St. Thomas (1) A tour of our latest possession in the West Indies. (23)
- Our Newest Possessions (3) Each reel a unit, may be used separately: (22)
- Harbor; marine barracks, American soldier life.
- Crum Bay; barracks; native types.
- Island of St. John; ruins of estates and palaces of old Dutch planters.
- Barbados—British West Indies (1) Statue of Admiral Nelson, Trafalgar Square, Bridgetown's shopping district, house where George Washington stayed when American Consul. (69)
- Georgetown—British Guiana (1) Scenes of Interest—canals in streets, botanical gardens of world-wide fame and government buildings. (69)

(See also Groups 57, 81, 122, 133)

GROUP 56**ISLANDS—PACIFIC***Islands—Pacific*

- ***Catalina (1) "Pearl of the Pacific"—its underwater life, as well as the pelican, seal and other odd dwellers in the island. (IV, XX, 28)
- Hawaii (5) Complete view of the island. (112)
- Aloha Land (1) Hawaiian scenes. (37A)
- Hawaii (1) Scenic features of the islands; sugar cane plantations; native dances. (XX, 28)
- Idea of the Pacific (1) Hawaii and its environs in Prizma color; night-blooming Cereus; Honolulu and the rice fields. (IV, XX, 28, 156)
- The Hawaiian Islands (1) Pictorial story of the activities of the Hawaiian Islands. For sale only. (58)
- A Trip to the Hawaiian Islands (1) Self-explanatory. (30)

GROUP 56 (Continued) ISLANDS—PACIFIC Islands—Pacific

Honolulu and Oahu (1) Life in Honolulu; work on pineapple plantations and in rice fields. (28)

***High Spots of Hawaii (1) Beauties of waterfalls and lava forests; glimpses of coffee and sugar. (69)

Hawaiian Glimpses (1) Native grass huts, net mending, hat weaving, etc. (28)

A Day in Honolulu ($\frac{1}{2}$) Harbor and street scenes; studies of manners and customs. (22)

Back Country of the Philippines (1) Descendants of the head hunters—how and where they live; floating rafts of cocoanuts covered with lotus blossoms. (XXI)

The Philippines (4) Scenes, industries and customs. (112)

Venice of the Orient (1) Manila—native and foreign life. (22)

From the Floating Cities of China to Samoa (1) Native life and industries on rivers and seas. (151)

***Moana (6) Robert Flaherty's companion picture to his "Nanook of the North," recording the customs of the Samoans. A screen classic on panchromatic film. (VII)

***Bali the Unknown (5) Natural color photography of this island near Java—an isolated race with peculiar customs and industries. Exceptionally beautiful. (IV, XX, 112)

A Borneo Venice (1) Town of Bandjermasin where streets are water lanes and traffic is in gondolas. (IV)

In Batik Land (1) Intimate glimpses of life, customs and industries of the people of Java where the art of waxing and dyeing Batiks originated. (69)

Fiji Islands (1) Glimpses of life and customs. (112)

Fiji Does Its Bit (1) Rubber and banana industry. (69)

House of the Sun—Sandwich Islands (1) Work on a sugar plantation; cattle range; trip to peak known as the "House of the Sun." (28)

In Gulfs Enchanted (1) Cruise through romantic south seas with stops at historic ports and towns. (XVII)

(See also Groups 24, 57, 76, 122, 133)

GEOLOGY, PHYSIOGRAPHY AND METEOROLOGY**GROUP 57 Geology, Physiography and Meteorology**

***The Cosmic Drama (3) Reading the earth's story by means of erosion and fossils—origin of the solar system, appearance of life, effects of glacial action, adaptation as a function of life, types of mankind. An instructive picture. (113, 151)

Time (1) Sun time and how reckoned; lunar time; long and short days and nights. (49)

The Eclipse of 1925 (1) Made under the supervision of the Scientific American, showing every phase of the phenomenon. (XVI)

Science at Home—Story of the Atmosphere (1) Self-explanatory. (151)

The Science of Weather Prediction (1) How observer makes his prediction sheet; measures amount of rainfall and completes records for his entire district. (22, 49)

Mysteries of Snow (1) Different kinds of snow crystals and what causes them. (49)

Our Climate (2) Shows how earth is unevenly heated; different zones and causes of different climates. (IX)

Clouds (1) Important types of clouds and significance of some of them. (144)

Marvels of the Universe—Dewfall ($\frac{1}{4}$) Experiments to show causes of dewfall, specimens of dew condensations and frost formations under microscope. (22)

The Birth of a Tornado ($\frac{1}{4}$) Causes and effects of tornadoes; animated drawings and photography. (22)

When Hurricanes Strike America (2) Florida hurricane as background for lesson on hurricanes. Their cause and hurricane zones shown in animation. (IX)

The Power of the Clouds (1) Clouds gathering sufficient moisture return it in form of rain which feeds the torrents and streams. (37, 37A, 49)

***The Work of Rivers (1) "Chalk Talk" illustrating the evolution of river valleys through youth, maturity and old age. (42, 134)

GROUP 57 (Continued)**Geology, Physiography and Meteorology**

*****Rambles of a Raindrop** (1) Experiences of a raindrop in geyser, cloud, waterfall, lake, river and ocean. Good teaching material. (IX)

*****A Study of Niagara** (2) Geography and scenery of the region; geologic history of the Falls and Gorge. (42, 134)

*****Grand Canyon of the Colorado** (1) Story of the origin of this marvelous canyon; visual study in formation and erosion of earth's crust. For sale only. (58)

*****Wonderful Water** (1) Combining excellent features of the best scenic with scholarly treatment of subject matter; the effect of running water and wave action upon the land. Rich in educational material, and titled with simplicity and directness. (IV, XX, 56)

*****The Why of a Volcano** (1) Here is shown a composite cycle of origin and decay through which every volcano must pass. (49)

What Causes Earthquakes (1) The nature, source and action of earthquakes. Phenomena of tidal wave. Japanese earthquake, 1923. (22)

Our Volcanic Neighbors (1) Shows how mountain peaks were transformed into the Caribbean Islands. (23, 69, 156)

Vesuvius (1) Yawning crater of the world's greatest volcano. (IV)

*****Kilauea's Volcano** (1) Splendid picturization of the famous lakes of fire and views of the seething crater. Prizma color. (IV, V, XX, 28)

Kilauea, the House of Everlasting Fire (¼) Four-mile trip across crater to rim of fire cup. Photographs of boiling lava and river of fire. (22, 28)

* **Formation of Volcanoes and Geysers** (1) Diagrams and photography of volcano eruptions and of geysers. (134)

The Romance of Crater Lake (½) Picturization of extraordinary phenomenon, a lake in a volcanic crater. (22)

*****Study of a Mountain Glacier** (1) "Chalk Talk" by Atwood. Diagrams show stages in glacier formation. Supplemented by numerous scenic views of actual glaciers. (134)

Glacier National Park (1) Showing in animation how faults are caused, how glaciers are formed, with scenes of Park included. (61, 121)

Climbing a Glacier and a Volcano (1) Visiting the snow-clad Sierras and the fiery volcano—Kilauea in Hawaii. (151)

*****The Crystal Ascension** (2) Mt. Hood and its glaciers, as discovered by a mountain-climbing party who explore the snowfields. Excellent for close views of mountain glacier and strange ice formations. (XV)

The Yosemite Valley (1) Study in glacial erosion by means of diagrams, animation, and selected views. For sale only. (58)

* **Study of Shore Features—Low Shore** (1) How wave-action gradually changes a shore of bays and indentations to one of comparatively smooth lines. Atwood "Chalk Talk" and photography of actual localities. (134)

* **Study of Shore Features—Bold Shore** (1) Rocky shore lines are given greater and more magnificent indentations. "Chalk Talk." (134)

* **The Story of Coral Growth** (1) What coral is, where it grows, and the kind of land it helps to make, are shown by Dr. Atwood in a "Chalk Talk." (154)

* **Formation of Caves in Limestone** (1) Water seeping through earth's crust wears away the softer parts of rock below the surface. (134)

*****Digging up the Past** (1) Locating and obtaining skeletons of prehistoric animals in Badlands of Red Deer Valley, Canada. (XXX)

The Origin of Coal (¼) Animated drawings explaining how coal mines of today were provided by forests of centuries ago. (22)

(See also Groups 18, 37, 39, 41-4, 46-9, 51, 57-8, 95, 122)

GOVERNMENT ACTIVITIES

GROUP 58

Government Activities

Government of the United States (2) How Congress is composed, where it meets, duties and age limits of members. Operation of American government. Good for Civics and History. (IX)

Checking the Imports (1) Activities of U. S. Collector of Customs. (151)

Exploring the Upper Air (1) Flights by Weather Bureau meteorologists to study upper air conditions for weather forecasting. (144)

Helping Negroes to Become Better Farmers and Homemakers (2) Agricultural extension system among negro farmers of the South; benefits it gives. (144)

The Coast Guard (1) Its work in life-saving. (XXX)

Guardians of the Deep ($\frac{1}{4}$) How Government lightships, buoys and light-houses are maintained. (22)

Making a Mint of Money ($\frac{1}{4}$) U. S. Mint in operation. (22)

Money, Old and New ($\frac{1}{4}$) Work inside the N. Y. Sub-Treasury. (22)

Money-Making Industry (1) How Canada mints its coinage. (XXX)

Pan and Ceres in the Movies (1) Scope and diversity of the motion picture work of the Department of Agriculture. (144)

Production's Pulse (2) How government crop reports are made by 215,000 reporters. (144)

** Romance of a Republic (10) Series of ten subjects of one reel each.

Department of State (49) Department of the Navy (49)

Department of the Treasury (49) Department of the Interior (49, 66A)

War Department (37A, 49, 66A) Department of Agriculture (49)

Department of Justice (49, 66A) Department of Commerce (49, 66A)

Post Office Department (49) Department of Labor (37A, 49, 66A)

Some of Uncle Sam's Workshops (1) A detailed story of the workings of the U. S. Postal Service. For sale only. (58)

Speeding Up the Mail ($\frac{1}{4}$) Scenes in N. Y. Postoffice. (22)

Uncle Sam's Stamp Factory ($\frac{1}{4}$) Section of the Bureau of Engraving and Printing, showing how stamps are made. (22)

Watching the Weather Above (2) Aerial activity, including the Army, the Navy, and Air Mail Service; forest fire airplane patrols and airplanes in insect control; importance of weather forecasting to successful aviation. (144)

(See also Groups 50, 57, 131, 133)

HISTORY

GROUP 59

History

***Ancient Rome (1) A scenic but with definite value for study of early Roman history. Rome's relics of architectural beauty excellently reproduced. Titling scholarly, distinctly suitable for the classroom. (IX)

America's Greatest Disaster (2) A complete history of the 1927 flood, animated maps showing inundated areas, and rescue work. (63)

The Birth of Czecho-Slovakia ($\frac{1}{4}$) Map showing location. Pictures of events connected with establishment of separate nationality. (22)

* Across the Rockies to the Pacific (1) Final step in the coast-to-coast progress of the United States' sovereignty. (134)

* Breaking Through the Appalachians (1) Settlers from the old colonies started the "westward movement." (134)

Canals in U. S. History (1) Maps and charts tell of canals built, their location and influence upon the population. (49)

The Chronicles of America (Series of 33 pictures, 3 and 4 reels each) Authoritative, scholarly series, made by Yale University Press, to depict the important episodes and outstanding personalities of American history from Columbus to Appomattox.

***Columbus (4) Story of the great discoverer's struggles and discouragements, and his ultimate success which resulted in the discovery of a New World. (159)

***Jamestown (4) Life in Jamestown, the first permanent settlement of English people in America. Marriage of Pocahontas and John Rolfe and its effect upon the colony. (159)

***Vincennes (5) Thrilling story of George Rogers Clark's expedition into the Northwest during the Revolutionary War, and its far-reaching results. (159)

***Daniel Boone (3) Story of the early days in Kentucky and the bravery, intrepidity and leadership of the great frontiersman. (159)

***The Frontier Woman (3) Revolutionary times in Tennessee, showing the fortitude, courage and vision of the frontier women. (159)

GROUP 59 (Continued)**HISTORY****History**

- ***Peter Stuyvesant (3) Old New York and the transfer of Manhattan from the Dutch to the English. (159)
- ***Wolfe and Montcalm (3) The great battle on the heights of Quebec. (159)
- ***Gateway to the West (3) Washington at the head of a valiant little band attempting to dislodge the French from Fort Duquesne. (159)
- ***The Pilgrims (3) Their hardships during the first winter on New England shores. (159)
- ***Declaration of Independence (3) Story of the events preceding the Declaration and characterizations of the great men of the day. (159)
- ***Yorktown (3) The surrender of Cornwallis to the united French and American forces. (159)
- ***The Puritans (3) The establishment of the colony, and their defense of their rights under leadership of John Winthrop. (159)
- ***Alexander Hamilton (3) Highlights of his life. (159)
- ***Dixie (3) Vivid portrayal of sacrifices made by southern women during Civil War. Meeting of Grant and Lee at Appomattox. (159)
- ***Eve of the Revolution (3) Events leading up to Revolutionary War; Boston Tea Party; Boston Massacre; ride of Paul Revere and battles of Lexington and Concord. (159)
- Colonial Period of New England (1) The part played by New England states in Colonial Days is graphically presented. (56, 113)
- * English Settlements in North America (1) First English, Dutch and Swedish settlements; contrast between colonizing of English and mere exploration of French. (134)
- * French Explorations in North America (1) Main routes of French explorers, traders and missionaries; Scenics visualize country traversed. (134)
- ***Flashes of the Past (3) Pictorial record of some of the outstanding events of the period between 1910 and 1925. Unique in its educational value. (XV)
- Funeral of King Edward and Coronation of King George (1) Self-explanatory. (151)
- General Lee's Home (1/4) Picturing beautiful manor house of Confederate leader at Arlington. (XX)
- Historical Marietta (1) City founded after close of Revolutionary War. Particularly interesting to students of early American history. (149)
- Historic New England (1) A series of reels showing the outstanding features of New England in History, Geography and Economics. (56, 113)
- Historical Expedition to the Columbia River (2) Happenings on this expedition made along the Great Northern Railway in 1925. (61)
- Japan's New Ruler Rules a New Japan (2) Description of Japan's progress under Hirohito. Location in relation to Philippines and U. S. Ancient and modern civilization. (IX)
- * Louisiana Purchase and Lewis and Clark Expedition (1) Causes and immediate results of the purchase of Louisiana in 1803. (134)
- Making Over the British Empire (2) Explains new relationship between Great Britain and British Empire. Good for Current History classes. (IX)
- Mussolini, The Iron Man of Italy (2) His life from boyhood to date. Animated map study. Used in Current History. (IX)
- New England and the Revolution (1) The part played by New England states in the Revolution is graphically set forth. (56, 113)
- Permanent Peace—Washington Conference (1) Historical episodes which led to the Washington Disarmament Conference. (151)
- Pilgrims at Plymouth (1) The story of Pilgrims landing in the New World. (56, 113)
- Plymouth Rock (1/4) The Pilgrims' landing place as it is. (XX)
- Railroads in U. S. History (1) Pictures the principal facts of growth of our great railway systems and their economic significance. (49)
- * Settling the Ohio Valley (1) Problems which the pioneers faced. Types of early houses, mills, and stores. (134)
- Shrines of American History (1) Independence Hall, Valley Forge, Lexington and other cradles of American Liberty. (23, 69, 56, 113, 156)
- Steamboats in U. S. History (1) Shows types of early and modern steamers and indicates their influence upon settlement of the country. (49)
- * Struggle of French and English for North America (1) Main campaign movements in French and Indian War. (134)
- Ten Years Ago (2) Complete review of World War. Animation showing geographical changes. (IX)
- * Trans-Mississippi Trails (1) Occupation of trans-Mississippi region and immigration to the Central Plains. (134)
- * War of the American Revolution (1) The great movements of the war are traced. (134)

GROUP 59 (Continued)

HISTORY

History

Where the Spirit That Won Was Born (1) Philadelphia and Valley Forge. (56)

(See also Groups 21, 25-6, 34-5, 37, 40, 42, 52-3, 60, 123, 130-3)

GROUP 60

Historical Fiction

** America (10) Griffith production. Some memorable incidents well treated—action at Lexington and Concord and dramatic ride of Paul Revere. (XXIV)

*** Barbara Frietchie (8) From Clyde Fitch's play. Florence Vidor. Presents excellent picture of South in Civil War times. (XVIII, 19)

Betsy Ross (6) A story of Revolution Days with Alice Brady, John Bowers. (37A, 56, 112, 113, 156)

*** Birth of a Nation (12) The great screen classic. Available only in certain territories. (XXIV)

Bolshevism on Trial (6) Thomas Dixon's novel *Comrades* shows vividly value of American form of Representative Government. (56, 113)

California in '49 (6) How the west was won. (19)

*** The Covered Wagon (13) Unqualified praise for this epic of western migration which led bands of American pioneers from Mississippi Valley to the little-known lands beyond the Rockies. History vivified on the screen. (VII)

The Coward (5) Charles Ray and Frank Keenan in a dramatic story of the Civil War. (18, 37A, 56, 113)

The Crisis (8) From the well-known story of the Civil War by Winston Churchill. (112)

The Fighting Blade (8) Romance of the days of Oliver Cromwell. Acted by Richard Barthelmess. (19)

The Heart of Lincoln (5) Romance of Civil War days founded on an incident typical of Lincoln's self-sacrifice and big-heartedness. (XVI)

The Higher Mercy (2) A new Abraham Lincoln story. (112)

The Highest Law (4) Ralph Ince as Lincoln in a dramatic episode of Civil War Days. (23, 37A, 56, 69, 113, 155, 156)

** The Iron Horse (11) Dramatic story of the building of the first transcontinental railway. (IX)

*** Janice Meridith (12) Much incidental material of historic value—the Boston Tea Party, the ride of Paul Revere, and scenes on Lexington Commons. (XIII)

Joan of Arc (3) Historic reproduction of life of Maid of Orleans, played by Geraldine Farrar. (XXI)

* Julius Caesar (6) Life story of Caesar, his career until he becomes dictator; picturing the conspiracy against him and his subsequent overthrow. Correct in historical detail. (77)

The Littlest Rebel (5) E. K. Lincoln in Civil War story. Especially valuable from historical standpoint. (18)

The Lost Romance (1) Romances of the missions of California with excerpts from Mission Play. Authentic history of first California missions. (XXI)

** Messalina (8) Political intrigue, giving insight into under-world of Roman life not altogether pleasant. Chariot race. Not for immature students. (VIII)

** Napoleon and Josephine (7) History of the great emperor and devotion of his empress. Side-lights on the figures of the time. (VIII)

** North of '36 (8) Blazing of first Texas trail north of '36. Historic background setting for romance. (VII)

** Peter the Great (6) True and vivid picture of Peter the Great and his times. Pre-view for school use. (VII)

*** Robin Hood (9) Splendid rendition of this mediaeval story of chivalry and romance. Photographed in remarkable settings. Douglas Fairbanks, Enid Bennett and Wallace Beery. (XXIV)

** The Spirit of Lafayette (6) Typical story of American soldier in World War. (95)

Warrens of Virginia (7) Civil War story. (IX)

*** When Knighthood Was in Flower (11) Charles Major's romantic story of time of Henry VIII. True historical background and accurate characterization. Marion Davies. (VII)

William Tell (10) Describing the story of "William Tell," and the birth of the first modern republic—Switzerland. Produced on exact locations of the narrative. (136)

Winning a Continent (6) Produced in Africa; shows how the Boers established their country. (19)

(See also Groups 17, 19, 59, 83, 135)

INDUSTRY AND ENGINEERING**GROUP 61****ELECTRICITY****Cables**

Laying the World's Fastest Ocean Cable (2) Interesting incidents filmed during work of connecting England and America with new permalloy submarine telegraph. (XXX)

Laying of Electrical Cable across San Francisco Bay (1) Self-explanatory (8)

Land Cable Service (2) The title tells it. (XXX)

Linking the Three Americas (1) How ocean cables connect the continents. (XXX)

Marine Cable Laying (2) Self-explanatory. (XXX)

Repairing a Sub-sea Cable ($\frac{1}{4}$) Raising of a trans-Atlantic cable for examination and repair. (22)

***Speeding Up Our Deep Sea Cables (2) Camera record of laying of permalloy cable between New York and the Azores—the world's fastest ocean telegraph. (XXX, 154)

(See also Group 65)

GROUP 62**Radio**

The Audion (2) Action of vacuum tubes which have revolutionized the art of communication. (154)

Radio (1) The title tells it. (112)

The Mystery Box (1) An analysis in motion picture photography and animated drawings of basic principles of radio. (22)

The Re-Awakening of Rip Van Winkle (2) Wherein the "Slumbering Dutchman" awakens and is initiated into mysteries of modern broadcasting station. (XXX)

Safety at Sea (2) Comprehensive story of marine radio; an indispensable institution protecting life and property on the high seas. (XXX)

Trans-Oceanic Radio (2) Pictorial digest of world's largest and most remarkable trans-oceanic radio communication system. (XXX)

Wireless Telephony ($\frac{1}{2}$) How sound waves are carried by electric waves, transmitted through space and reconverted into sound waves thousands of miles from their source. (22)

***The Wizardry of Wireless (2) Brief history of communication; animated drawings explaining from a technical standpoint the principles involved in wireless. (X)

(See also Group 80)

GROUP 63**Telephone and Telegraph**

Behind the Scenes (1) In a telephone office. (XXX)

Concerning Crossarms (1) Fir trees and their use in electrical pole and conduit equipment. (XXX, 154)

Crossroads of Conversation (1) A review of central office work with particular emphasis on the many types of switchboards. (XXX)

***The Electrical Transmission of Speech (1) Presentation in animated drawing of fundamentals involved in transmission and reception of voice over wire circuits. (XXX, 154)

Getting Out the Goods (1) How the production of a great telephone manufactory is distributed. (154)

Helping the Telephone to Talk (1) Showing how porcelain and other ceramic products do their bit in the nation's telephone service. (XXX)

***Making Telephone History (1) The story of the evolution of the telephone. (XXX)

Neighbors of the Wire (1) What happens to a telephone call. (102)

Putting a Telephone Together (1) The title tells it. (154)

Short Cuts to Quantity (1) A few examples of achievements of mass production of telephones without sacrifice of quality. (XXX)

Some Folks and the Telephone (1) A simple story of everyday folk and their reactions when deprived of service for a short time by a storm. (XXX)

Something About Switchboards (1) Showing the unusual processes in fabricating and installing equipment for a telephone exchange. (XXX, 154)

The Spirit of Service (1) Telephone linemen and their unselfish service to mankind. (XXX)

The Telephone—A Modern Marvel (2) Development and manufacture of telephone equipment. (154)

A Telephone Call (1) Following the voice through various pieces of apparatus and electrical current carriers. (XXX, 154)

GROUP 63 (Continued) ELECTRICITY Telephone and Telegraph

Telephone Inventors of Today (3) Inside one of America's best equipped and most expertly manned centers for scientific experiment and operation. (154)

That Little Big Fellow (1) Shows by double exposure and animated photography the functions of electric current in a telephone call. (XXX)

Time Savers in Modern Business (1) Magazine type of picture showing efficiency machines used in the telephone business. (XXX)

Training for Service (1) How operators are trained. (XXX)

Voice Highways in the Making (1) Lead-covered cable which carries most of the world's telephone messages. What happens inside one of the big cable-sheathing presses. (XXX, 154)

The World's Telephone Workshop (1) Photographic side-lights of unusual manufacturing processes. (XXX, 154)

Your Telephone Address (1) An exposition of work of compiling, printing and delivering telephone directories and supplemental work of "Information." (XXX)

(See also Groups 62, 64-5, 71, 95, 113)

GROUP 64**General**

** The Amber Soul (1) Manufacture of storage batteries. (14, 149)

***Back of the Button (1) Visualizing the tremendous power at work behind the little electric button. (127)

***Behind the Signs on Broadway ($\frac{1}{2}$) Shows how the largest electric sign in the world is operated. (22)

Big Deeds (1) Pouring largest casting ever made in G. E. foundry; constructing largest armored cable in world supplying electric power to Shanghai; making of enormous porcelain insulator; largest one-man shovel on earth; melting steel with water. Spectacular. (X)

***Bringers of Light (1) Manufacture of Mazda lamps. (14)

** The Conductor (1) Making of lamp cord from copper, cotton, rubber and silk. (X)

***The Death Ray (2) H. Grindell Mathews' invention; some of the machinery he uses to cast the powerful beam said to be capable of destruction at great distance. (XV)

Electricity (4) How it is generated and controlled; its application to our varied daily needs. (28)

***Light of a Race (1) Principal steps in development of artificial illumination from earliest beginnings to the incandescent lamp. (X)

Making Mazda Lamps (1) The development of artificial lighting, and steps in manufacture. (X)

The Manufacture of Electric Blasting Caps (1) The process of making electric blasting caps in the factory of the Hercules Powder Co. at Port Ewen, N. Y. (XXX, 66, 142)

Portable Electricity (2) Shows the theory, manufacture, and applications of the Edison Nickel-Iron Alkaline Storage Battery. (XXX, 83)

The Story of the Detonator (1) The various steps in the manufacture of blasting caps and electric blasting caps. (XXX)

The Story of an Electric Meter (3) Title tells it. (142)

Story of a Storage Battery (2) Its various uses, and how it is manufactured. (142)

Westinghouse Works (2) A trip through the various factories. Electrical products are shown in process of manufacture. (XXIX)

***Yours to Command (1) Visualizing services of electricity—power and light as used by industries, commerce and in the home. (127)

(See also Groups 67, 69, 78, 81, 95, 130)

ENGINEERING ACHIEVEMENTS**GROUP 65****Engineering Achievements**

Famous Inventions of New England (1) Many examples of the inventive genius of New England, and the manufacture of the safety razor. (XXX, 102)

Letting Dynamite Do it (1) Many uses of dynamite—in various parts of the country. Its use in construction of Stone Mountain Confederate Memorial. (XXX, 46)

The Explosive Engineer—Forerunner of Progress (2) Modern application of explosives in the industrial world. (XXX, 66, 142)

Building New York's Newest Subway (1) Shows building of Eighth Avenue system and problems which were encountered in its construction. Prepared for engineers. (46)

A symbol of service

GENERAL ELECTRIC EDUCATIONAL FILMS

are now available in both Standard 35 mm. and 16 mm. sizes. They are described and illustrated in Catalog GEB-7. Write for catalog or films to any of the following offices:

General Electric Co.,
Visual Instruction Section,
1 River Road,
Schenectady, N. Y.

General Electric Co.,
1321 Walnut Street,
Philadelphia, Pa.

General Electric Co.,
230 South Clark St.,
Chicago, Ill.

Salt Lake City, Utah

General Electric Co.,
329 Alder St.,
Portland, Oregon

General Electric Co.,
123 Spring St.,
Atlanta, Ga.

95-239

GENERAL ELECTRIC

GROUP 65 (Continued)**Engineering Achievements**

- National Parks and East River Tunnels (1) Contrast between works of nature and mechanical achievements of today. (23, 69, 156)
- Construction of Subway Tubes ($\frac{1}{4}$) New York's subway tubes beneath Harlem River. (22)
- How Brooklyn Bridge was Built ($\frac{1}{2}$) Various stages followed by means of animated drawings and photography. (22)
- The Bridges of New York (1) Self-explanatory. (151)
- Swapping Foundations under Skyscrapers ($\frac{1}{4}$) Underpinning operations necessitated by building of the Seventh Avenue Subway, New York City. (22)
- Building a Skyscraper (2) The remarkable growth of a 32-story skyscraper, giving details of construction. (XXX)
- A Concrete Example (2) Featuring American leadership in construction of big buildings. (XXX)
- This is the Age of Riveted Steel (2) The various uses of riveted steel in engineering construction. (127)
- A Miracle in Modern City Building (2) Showing the growth of the well-planned city of Longview, Wash. (XXX, 85)
- From Swamps to Workshops (2) Story of building of Western Electric's new cable and switchboard manufacturing works at Kearny, N. J. (154)
- From Caves to Skyscrapers (2) The development of man's habitations and places of worship. (XVI)
- The Conquest of a Wilderness (3) Showing scenes before and after the construction of the big steel plant and city (Gary, Ind.) by the United States Steel Corporation. (148)
- ***Spending Six Hundred Million a Day (1) The source and the uses of the New York water supply. (37, 49, 151)
- Water by Wire (1) Old and new methods of supplying water. (XXX)
- A Big City's Water Supply ($\frac{1}{4}$) Ashokan Dam in Catskills, part of New York City's water supply system, and how it operates. (22)
- Nature's Frozen Credits (3) Building of a great water plant in the Sierra Nevada mountains of California. (XVII, XXX)
- The Water Supply of a Great City (1) Showing how few of our great cities are supplied with pure water as compared with ancient, unsanitary methods. For sale only. (58)
- Water Works Wonders (2) Novelty special. (18)
- Roosevelt Dam (1) Picturing the dam and surroundings. (156)
- Short Cuts to Quantity (1) Examples of outstanding success in achievement of mass production without sacrifice of quality. Particularly for technical schools and industrial training classes. (154)
- Salvaging Torpedoed Millions ($\frac{1}{2}$) Technical drawings demonstrating invention to raise sunken ships. (22)
- Putting Volcanoes to Work ($\frac{1}{4}$) How heat and steam of volcanic origin might be utilized for industrial purposes. (22)

(See also Groups 61-4, 129-130)

MACHINERY AND MECHANICAL DEVICES**GROUP 66****Electrical**

- The Burning Question—Ignition (2) The title tells it. (XXX)
- The Electric Heart (1) A complete picture of manufacture of storage batteries for auto. (18)
- ***Electricity in the Motor Car (1) Generator, starting motor, combined starter and generator. Animation demonstrates how the gas is exploded by the electrical current and how the cylinders work. (XXX)
- Headlights (2) A safety film showing necessity for good headlights. (XXX)
- How the Generator Works and Why the Starting Motor Starts (2) Self-explanatory. (XXX)
- ***Jupiter's Thunderbolts (1) Development of electricity; manufacture of storage batteries. (149)
- ***One for Two—The Starter Generator (1) The title tells it. (XXX)
- The Carburetor (2) Animations depict what takes place inside a carburetor. (58)
- ***Story of a Spark Plug (2) Manufacture of spark plugs, including mining of sullivanite; the important part spark plugs play. (14, 142)

(See also Groups 13, 63-4, 67, 69, 80)

A Projector in Every School, Church and Community Center.

MACHINERY AND MECHANICAL DEVICES**GROUP 67****Automotive Machinery**

***Story of a Gasoline Motor (5) Animation shows entire function of automobile motor, visualizing lubrication and operation of each moving part in comprehensive manner. (127, 142, 149)

Elements of the Automobile (12) A series visualizing by animated drawings the inside workings of a motor car. (22)

(1 & 2) The Running Gear and Differential (7 & 8) Ignition

(3 & 4) The engine (9) The Cooling System and the Clutch

(5) The Carburetor (10 & 11) The Transmission

(6) The Fuel System and Ignition (12) The Brakes

Automobile Ignition (2) The title tells it. (XXX)

Starting and Lighting (1) Explanation of principles involved. (XXX)

***A Horseless Carriage to a Horseless Age (1) Story of manufacture of Studebaker car. (135A)

Building for Quality (1) A condensed story of the manufacture of the Ford Car. (58)

***Proved (2 & 4) Views of the world's first and greatest Proving Ground for automotive products. (127)

America and Automobiles (1) Manufacture of the Lincoln car. (58)

The Story of a Motor Truck (3) Its manufacture and what it means to America. (XXX, 142)

***A Day with the Tractor Builders (2) Analyzes metals in chemical laboratory; pouring molten iron into molds; assembling various parts of a tractor. (XXX, 72)

The Power Thought Built (3) Evolution of the Fordson Tractor. (58)

A Powerful Friend (1) The Fordson Tractor in industrial activities. (58)

The Fordson Analyzed (3) A thorough analysis of the complete Tractor. (58)

Ford Age (2) A visual story of the Ford industries. (58)

Getting the Work to the Workmen (1) Demonstrating saving of time and labor through use of lift truck. (40)

(See also Groups 13, 80, 128)

GROUP 68**Miscellaneous**

Forward Step in Stoker Performance (2) Operation and construction of Rileys Super Stoker. (123)

A Closeup of Stoker Combustion (2) Operation of an underfed stoker. Technical. (125)

The Engine Lathe and Its Operation (7) Complete assembly of lathe parts, construction and operation. (134)

For the Good of the Commonwealth (4) Manufacture of large cast steel devices for locomotives and cars. (XXX)

Our Mechanical Servant—the Elevator (½) Principle of hydraulic elevator. (22)

The Modern Goliath (4) Varied uses of heavy excavating machinery. (142)

Multiplying Man Power (2) Efficiency of conveyor system in movement of goods. (78)

The Riveter (½) Operation of pneumatic riveter. Bridges and other structures of New York built with its assistance. (22)

The Universal Milling Machine and Its Operation (8) Parts and construction; manifold operation. (134)

** The Walworth Craftsman (1) Story of iron and steel, made into working parts that insure man's comfort and safety on earth, in air and under the sea. (102)

(See also Groups 13, 24, 66)

POWER, MECHANICAL AND ELECTRICAL**GROUP 69****Power, Mechanical and Electrical**

The Age of Speed (4) Spectacular, historical and educational story of quickening progress. The gift of grinding to civilization. (XXX)

Along the St. Maurice (1) Hydro-developments and electro-chemical industries at Shawinigan Falls and the pulp and paper industries of Grand'Mere. (XXX)

Building a Power Giant (1) Big steam power plant and what goes into it. (109)

The Busy Body (1) Personifying the 175 parts comprising the smallest motor produced. Entertaining and instructive. (X)

The Electrical Giant (1) Manufacture of a 50,000 H. P. steam turbine generator, largest single power producing unit in world. (X)

GROUP 69 (Continued)**Power, Mechanical and Electrical**

Industrial Power (1) Various operations of tractors with special equipment in municipal and industrial use. (72)

Mexican Powerhouse (1) Huge dam and powerhouse supplying interior Mexico. Uses to which power is put. (XX)

The Modern Goliath; or The Story of Heavy Excavating Machinery (4) Self-explanatory. (142)

Power Transformers (2) Their development and manufacture. (X)

Power (3) Development of power from the earliest uses of steam to the great power stations of today. (XXX)

***The Progress of Power (1) Mechanical power serving America's industries and municipalities. (XXX, 72)

Story of Power (3) Shows early development of the steam engine, modern uses of electricity, and by animated photography, the working of a steam turbine. (142)

Squeaks (1) Story showing importance of lubrication from earliest days to the present. Early days treated in cartoon form. (14, 149)

The Story of Rock Drilling (2) The title tells it. (142)

Story of Water Power (2) Primitive methods of utilizing energy of falling water; animated photography shows how tremendous power of Niagara is changed into electrical energy. Many modern uses of electricity in industry and in homes. (142)

***Super Power Generation (1) Latest methods and most modern power plant equipment. (153)

Harnessing the Waves ($\frac{1}{4}$) Utilizing backward sweep of ocean waves to provide power to operate dynamo for charging storage batteries. (22)

** Volta's Discovery (1) Interesting information on evolution of electrical current. (14, 149)

White Coal (2) Story of electricity as developed from the snowflake. Animated drawings show how it is generated at Niagara Falls. (XXIX)

Why a Magneto (2) Physical and mechanical principles. (XXX)

(See also Groups 67-8)

Wholesome Films Service, Inc.

**Specialists in Selected Film Service for
Church, School, Club, Y. M. C. A., Home
and Community Center.**

We have the most complete library in New England on safety non-inflammable stock being the exclusive distributors for the SPIRO FILM CORP. (Urban Subjects) BURTON HOLMES TRAVELOGUES, and the GENERAL VISION LIBRARY including a series of 26 reels on the HOLY BIBLE.

We prepare and outline programs for each individual group need and correlate with Standard Text Courses in Geography, History, Literature, General Science, Biology, Civics, and Americanization.

**MOTION PICTURE PROJECTORS AND EQUIPMENT
for sale or rent.**

**NEW ENGLAND'S PIONEER IN THE
NON-THEATRICAL FIELD**

42 Melrose Street

Boston, Mass.

NATURAL PRODUCTS AND PROCESSES

GROUP 70

Fishing Industry

- Harvest of the Sea (1) Deep sea fishing. (XXX)
 "She Blows" (1) Whale hunting in the Pacific. (56)
 ** The Romance of Oil (1) Shooting whale and towing back to port. Oil gushers in Texas. (22)
 Abalone Pearl Fishing ($\frac{1}{4}$) How pearl divers secure and deliver their "finds." (22)
 Hawaiian Fishing (1) Grotesque fish under water, and views of tropical seas. (28)
 Sponge Fishers ($\frac{1}{4}$) How sponges are obtained and marketed. (XX)
 Out of the Sea (1) Sponge industry along Florida keys; glimpses of many interesting water forms of the region. (28)
 Salmon Fishing (1) Life of the salmon from spawn till it is caught for canning; complete process of preparing canned salmon for marketing. For sale only. (58)
 ** On the Skeena River (1) Salmon industry of British Columbia; catching and handling at the cannery. (XXX)
 Story of a Can of Salmon (1) Self-explanatory. (XXX)
 The Miracle on Your Table (2) Complete operations of the great Alaska salmon industry. (XXX)
 ***Maintaining the Salmon Supply (1) Propagation of the fish in hatchery. (XXX)
 ***How Salmon Are Caught (1) Showing various methods of fishing for British Columbia salmon. Canadian Government film. (XXX)
 Oyster Industry (1) Where and how oysters are prepared for market (Chesapeake Bay). (28)
 Farming the Oyster (1) Self-explanatory. (XXX)
 Oyster and Shrimp Fishing (1) Self-explanatory. For sale only. (58)
 Shrimp Industry (1) Complete story of the industry, including underwater photography of live shrimp. (63)
 ** Harvesters of the Deep (1) Gloucester fisherman on New England banks; fishing for cod; preparation of cod-fish cakes. (102)
 ***Fresh From the Deep (1) Catching and packing of halibut at Prince Rupert. (XXX)
 Hauling in the Haddock (1) Fishing off the Massachusetts coast. (151)
 From Catch to Can (1) The Sardine industry. (XXX)
 Trapping Tuna (1) A comparatively new industry on the east coast of Canada. (XXX)
 Scientific Fish Farming ($\frac{1}{2}$) State Fish hatchery at Hackettstown, N. J., where fish are bred for stocking public streams and lakes. (22)
 ***Fish and Fowls (1) Conservation of fish in inland waters; industry that supplies markets with deep water fish. Raising of poultry. (XV)
 (See also Groups 22, 30, 35, 43, 46, 93, 119, 135)

GROUP 71

Lumbering and Forest Products

- Cedar Camps in Cloudland (1) A scenic survey of the pole-making industry. (XXX, 154)
 ***Conquest of the Forest (1) Felling trees and manufacturing lumber in Oregon and Washington. (X)
 ***The Doings of Turp and Tine (2) Animated comedy showing production of gum and Hercules steam-distilled wood turpentine. (XXX, 66)
 Dual-Purpose Trees (1) Naval stores industry of the South, including wood practices, distillation and marketing; plea for reforestation as one means of saving this great industry for America. (144)
 Dynamite, The Master Lumberjack (1) Blasting materials in lumber production. (46)
 Far Western Cedar Trails (1) Exposition of the cedar pole industry. (XXX, 154)
 ** Felling Forest Giants (1) Resume of lumbering in Carolinas and the Northwest; various methods of handling. (XV)
 From Tree to Trade ($2\frac{1}{2}$) Modern manufacture of lumber from standing timber to finished product. (85)
 The Land of the White Cedar (1) Making poles; life among the cedar-cutters of the Canadian border of Minnesota. (XXX, 154)
 Logging Eastern White Pine (1) Methods of lumbering as practiced in Pennsylvania; portable sawmills in New England; old-fashioned water-power mill of colonial days. (144)
 Logging in the South, Ancient and Modern (1) Ancient oxen and logging wagons; methods now used. (63)

NATURAL PRODUCTS AND PROCESSES

GROUP 71 (Continued)

Lumbering and Forest Products

***Lumbering in the North Woods (1) Steps taken in changing a standing tree into finished lumber. (37A, 58, 155)

Lumbering in the Pacific Northwest (4) Douglas Fir lumber manufacture; world's largest and newest electrically operated lumber manufacturing plants. (85)

Manufacture of Arkansas Soft Pine (2) From felling trees to completed product, showing each operation through the mill. (63)

***Pillars of the Sky (1) Gathering and milling the raw product for cross-arms and conduits. (XXX, 154)

Pole-Pushers of Puget Sound (1) Land and water views of northwestern cedar industry. Thrilling and amusing incidents in daily lives of husky pole-pushers. (XXX, 154)

**The Price of Progress (2) Splendid views of the lumber industry as a setting for a story. (XV)

Romance of Hardwoods (2) Great hardwoods of the south; felling the trees; transforming the logs into lumber and veneer. (149)

Scotia—Home of the Redwood (4) Lumbering. (XXX)

***The Story of a Stick (1) Manufacture of yellow pine from tree to finished product, told by an old man to his grandson. (XXX, 85)

Story of White Pine (1) Eastern white pine from virgin forest to finished products; second growth; nursery planting; white pine blister rust. (144)

*White Pine, Beautiful and Useful (1) Many uses of New England white pine. (144)

White Pine, the Wood of Woods (1) Eastern white pine from log to lumber, illustrating its wide range of usefulness. (144)

Winter Logging in White Mountains (1) Utilization of timber; how lumberjacks live and work. (144)

(See Also Groups 14, 30, 48, 51, 78-79)

GROUP 72

Mining—Coal, Oil and Gas

***The Story of Coal (3) Complete treatment of mining processes; also one of the world's largest coal washeries, a drift mine, and loading coal onto a river barge. (142)

Origin of Coal (¼) Animated drawings explaining how coal mines of today were provided by forests of centuries ago. (22)

Coal Mining (½) Process of sub-surface mining. (22, 37A)

Black Sunlight (1) The story of coal—its formation a million years ago until today, in animation. Actual photography of anthracite mining. (22)

Anthracite (1) Early mining of coal, and various methods employed today in shaft, slope and draft mining. (X)

Anthracite Coal Mining (1) Modern methods practiced in the production of anthracite coal—from mine to consumer. For sale only. (58)

***The Burning Question (2) Anthracite mining, preparation and transportation. (XXX)

A Modern Blast (1) Use of explosions in Pennsylvania surface anthracite coal stripping. (XXX, 66)

Bituminous (1) Principal operations in mining and preparation of bituminous coal. Primitive and modern methods contrasted. (X)

Ford Way of Coal Mining (2) Industrial and social conditions of a Ford mine. (58)

Coal Handling at Duluth Docks (2) Huge coal docks and giant cranes handle the coal from ship to railroad car, untouched by hands. (110)

Saving Coal at Home (1) Conservation of heat. (XXX, 142)

Fuel (1) How three forms of fuel are drawn from the bosom of the earth—peat, coal and petroleum. (151)

Endurance (1) Showing the oil fields of Louisiana. (XXX)

The Story of Penn-O-Lene (2) From oil well to consumer, this film shows how Pennsylvania oil is handled. How oil is prepared for export. (134B)

Story of Gasoline (3) Drilling, transportation and refining. (127, 142, 149)

***The World's Struggle for Oil (5) Story of oil from Bible times to the present. (XV)

Have you sent in your subscription to *The Educational Screen*?

\$1.50 a year. \$2.00 for 2 years.

NATURAL PRODUCTS AND PROCESSES

GROUP 72 (Continued)

Mining—Coal Oil and Gas

***Through Oil Lands of Europe and Africa (Series of 2, 3 & 4 reels) Beautiful and picturesque views of the countries are shown; study in oil and delightful travelogue. (142)

Group 1 shows the oil supply of Italy, Hungary, the Danube and Roumania; Group 2, Poland, Greece and Egypt; Group 3, Germany, France, Spain, Morocco and Algeria; Oil supply of these countries and (as in the case of Morocco) how oil is imported from America.

* The Story of Petroleum (4) Full account of the oil industries. (142)

Mexico and Its Oil (4) Complete survey. (142)

***Liquid Gold of Texas (1) Story of oil production, transportation and refining. Film deals excellently with drilling process, pumping oil to surface and dehydrating. Good classroom material. (151)

The Story of Oil (1) Oil drilling and transportation methods explained. (42)

The Age of Oil (1) Oil wells and oil production. (IX)

Story of a Rotary Drilled Oil Well (2) Building of a derrick and details of drilling a well and "bringing in" the oil. (142)

Modern Oil Refining (1) Petroleum story from drilling the well to the finished product. For sale only. (58)

***The Story of Natural Gas (4) From preliminary hauling of drilling equipment to derrick construction, drilling, and laying pipe lines, compressing stations and trunk lines carrying gas to consumer cities. (142)

(See also Groups 70, 106)

GROUP 73

Mining—Miscellaneous

The Story of Rock Drilling (2) Use of drills in mining, in granite quarries, at work on the 10-mile power canal of the Hydro-Electric Power Commission of Ontario. (142)

Gold Mining in Alaska (¼) How ground is thawed by steam and how mine is operated in Juneau. (22)

Diamond Mines in South Africa (1) Self-explanatory. (22, 112)

"Magic Gems" (1) A study of minerals and precious stones. Prizma color. (56)

Quicksilver and Its Properties (1) From mine to its many uses. (151)

Mining with the Llamas in Peru (1) Vanadium and copper mining. Sure-footed llamas carry the ore from the mines. (XXI)

The Story of Sulphur (1) From its source to its ultimate uses. (151)

The Story of Sulphur (2) How it is melted 1,000 feet below the earth's surface by superheated water and forced by compressed air to surface and stored in huge vats; huge pipe lines to sulphur fields. Building of vats, blasting of hardened sulphur, and loading into box cars and ships. (142)

***Salt of the Earth (1) Salt mining in New York state; preparation for shipment. Excellent for school use. (IX)

Salt Mining (1) How salt is secured for the market. (112)

** Pillars of Salt (1) How salt is mined and refined. Many scenes filmed far underground. (X)

** Taken with a Grain of Salt (1) Drilling and dynamiting in solid walls of tunnel. Filling sacks and boxes. (58)

The Story of Asbestos (3) Self-explanatory. (142)

Copper Mining and Smelting (1) Self-explanatory. (XXX)

A Visit to the Nitrate Fields of Chile (1) Shows nitrate fields in South America and how nitrate is prepared for shipment. (46)

(See also Groups 20, 30, 32, 36, 49, 78, 80, 106, 132)

GROUP 74 NATURAL PRODUCTS AND PROCESSES Quarrying

Modern Quarry Blasting (1) Scientific methods of laying out holes, drilling and blasting at several large quarries. (XXX)

Dynamite in Quarry Work (1) Self-explanatory. (46)

Granite Block Paving (1) From quarry to pavement. (144)

Marble Fields of Carrara ($\frac{1}{4}$) Mining in one of the famous marble quarries of Italy. (22)

The Marble Industry (1) New Hampshire quarries. All processes shown. Scenery of surrounding country. (28)

Vermont Marble ($\frac{1}{4}$) Methods of obtaining the stone and its shipment. (XX)

***A Sculptor's Paradise (1) Quarrying Carrara marble and noted buildings constructed from it in Rome, Venice, Pisa, Versailles and the Hague. (IX)

Quarrying and Shaping Slate (2) Self-explanatory. (XXX)

Mineral Aggregates (1) Handling of sand and gravel from pit to finished product. (131)

(See also Group 80)

MANUFACTURED PRODUCTS AND PROCESSES**GROUP 75 Building Materials**

All the Way with Wallpaper (1) The title tells it. (XXX)

The Background (1) Manufacture and application of wall covering. (XXX)

** The New England Home (1) Manufacture of fire-proof shingles. (102)

Brick—From Clay to Pavement (1) Self-explanatory. (144)

The Manufacture and Use of Face Brick (2) The title tells it. (XXX)

White Magic (2) The story of Dutch Boy White Lead. (XXX)

When White Paint is White (1) The preparation of zinc oxide from the mine to save the surface. (XXX)

The Day of the Modern Way (1) Modern, improved methods of painting buildings and large stationary surfaces; varnishing or finishing manufactured articles. (XXX)

***The Story of Portland Cement (1) How it is manufactured. Advantages of cement construction as in the Panama Canal. (XXX, 83, 142)

Cementing the Centuries (2) The story of Alpha cement. (XXX)

A Concrete Example (2) Featuring big building construction, as exemplified in largest concrete structure on Manhattan Island. (154)

Hollow Building Tile (1) Its uses, qualities and methods of manufacturing. (XXX)

Terra Cotta (1) Processes in its manufacture; the erection of a skyscraper. (XXX)

***From Mine to Wall (2) How permanent fire-proof walls are built from mineral, showing mining, manufacturing and use of gypsum. (XXX)

(See also Groups 80, 129)

GROUP 76 Clothing, Textiles and Leather

***Civilization's Fabric (2) Cotton, from field to mill; spinning and weaving. (39)

Fluff to Stuff (1) The cotton industries from field to loom. (151)

Thirsty Cotton (2) Scientific analysis of the effect of humid air on the manufacture of cotton. (111)

Lace (1) Views of unusual laces; some historic pieces. (XX)

Threads of Romance (1) An exceptionally interesting picturization of the manufacture of lace. (127, 149)

Lace Making in France ($\frac{1}{2}$) In the world's lace-making center, Le Puy. (23)

** Romance of Cloth (1) Picking, ginning and shipping cotton; weaving process of cotton; making of wool into cloth. (102)

***A Woolen Yarn (1) Shearing, carding, spinning and weaving. (X)

Wool (1) From fleece to finished cloth. (151)

From Cocoon to Spool (1) Life history of the silk worm; processes involved in manufacture of silk into thread. (XXX)

Silk Manufacturing (1) From the cocoon to ribbon. (37)

From Mill to Millions (1) Shows how silk is used for making stockings; the raising of silkworms in Japan. (127, 149)

Full-Fashioned Knitting Machine in Action (2) Operation of knitting machine making full-fashioned hosiery. Slow motion and mechanographs give details of knitting process. (21)

Irish Cloth ($\frac{1}{4}$) How the famous linen and other Irish cloth is made; scenes about the mills. (XX)

MANUFACTURED PRODUCTS AND PROCESSES

GROUP 76 (Continued)

Clothing, Textiles and Leather

- Changing Hides into Leather (1) Steps in putting a raw hide through a modern tannery. For sale only. (58)
- Solely a Matter of Soles (1) Leather. (XXX)
- Romance of the Shoe (1) Development of human footwear and the machinery that makes modern shoe manufacturing possible. (102)
- ***Health's Foundation (2) Story of leather completely and entertainingly told. Includes also the sources of tannic acid and processes involved in tanning. Exceptionally good instructional material. (127, 149)
- ***From Calves to Kiddies (1) Shoe manufacturing. (XVII, XXX)
- ***The Leather Tread (1) Self-explanatory. (XXX)
- The Birth of a Hat (1) Early models of headgear; manufacture of a hat. (XXX)
- Your Hat and Mine (1) How they are made. (102)
- Making of Felt (3) History of felt and kinds. Shows complete process of manufacturing. (69)
- The Story of Chase Velmo (3) Mohair from Angora goat to lustrous velvet. (XXX)
- ***The Making of Twine (1) Processes in making of a ball of twine, with some scenes taken in Yucatan. (XXX, 72)
- ***Carpeting a Century (2) Shows steps in the process of factory weaving. (XXX)
- (See also Groups 1, 10)

GROUP 77

Food Products

- ***Filling the World's Cereal Bowl (2) How Kellogg cornflakes and All Bran are prepared. (127)
- Heart o' the Wheat (2) The story of macaroni. (XXX)
- Alice in Cookieland (1) Story of manufacturing cookies. (62)
- Crackers (1) Modern biscuit making introduced by short historic recital of relation of grains to human diet. (85)
- Story of Grade "A" Milk (1) Health-building qualities of good milk. How milk is safe-guarded on way to consumer. (102)
- ** Milk (1) Various processes which transform pure cow's milk into Carnation products. (XXX, 27)
- The Pantry Cow (1) Crystallized milk, a convenient and highly nutritive household product. (XVII)
- Million Dollar Food Product (1) Ice-cream. (XXX)
- Fruits of the World (1) The story of ice-cream. (XXX)
- The Winning Way (1) Entertaining story of ice-cream industry. (37A)
- From the Gardens of the World to the Tables of the World (1) Few of the "57 Varieties" from seed to table. (65)
- Adventures of Mazola (1) Facts regarding Mazola. (XXX)
- The Fountain of Youth (1) Manufacture of ginger ale. (102)
- Making of a Pale Dry Ginger Ale (1) The title tells it. (XXX)
- (See also Groups 2-3, 50, 101)

GROUP 78

Metal Manufacturing

- The Manufacture of Armco Ingot Iron (2 or 4) Every manufacturing process used in making of iron and steel sheets. (5)
- Fifteen Minutes with Armco Ingot Iron in Household and Industry (1) Practical application of sheet iron and steel for household and industrial uses. (5)
- The Story of Ingot Iron (3) Shows complete process, from pig iron to shipment. (142)
- The Story of Steel (2) The basic processes of making steel. (XXX)
- ***Iron and Steel (1) The evolution of iron and steel from mine to finished product. (V, 37A, 58, 155)
- The Story of Steel (4) From mining of ore to finished products, such as woven wire fences, steel fence posts, nails, barbed wire, etc. (8)
- ***The Story of Steel (6) Reels 1 & 2 show basic processes of steel-making from ore to ingot. Mining, transportation, furnace operations; reel 3, manufacturing of rails, plate and other hot-rolled products; reel 4, manufacture of wire products; reel 5, manufacture of lap-weld pipe; reel 6, manufacture of steel sheets and tin plate. (142, 148)
- Story of Heat Treatment of Steel (2) Laboratory experiments with various heat-treating methods; effects; application to motor car manufacture. (142)
- Story of Alloy Steel (4) Its complete manufacture told in complete form. (XXX, 142)

De Vry 16 mm. Projector

THE new DeVry 16 mm. projector is a distinct advance in home movie equipment. The pictures it shows are sharp, brilliant, flickerless to a degree that sets a new standard of perfection for moderately priced small film projectors.

The new DeVry is designed and built by the

world's largest producers of standard portable motion picture projectors. Two years of effort were devoted to its development. None other is so simply built, so light in weight or so compact. Illumination equalling that of the new DeVry is found only in projectors of twice its cost.

Camera dealers have the new DeVry 16 mm. projector. The price is only \$85.00. Write for free descriptive literature.

The DeVry Automatic 35 mm. Movie Camera holds 100 feet of standard film, -- is entirely automatic, requiring neither tripod nor cranking -- has three view finders, and a

De Vry Movie Camera

professional F 3.5 motion picture camera lens.

Enables amateurs to make their own movies, and doubles the value of your projector -- either 35 or 16 mm.

In less than a year has outsold any other 35 mm. camera made -- professional or amateur.

Used and highly praised by Hollywood's most famous cameramen, the DeVry combines all the features so necessary to professional quality, personal movie making. The best 16 mm. prints are made from standard 35 mm. negative. The list price is only \$150.00

PATHÉ

Library of 16 mm.

By special arrangement The DeVry Corporation has the 16 mm. releases of outstanding organizations of the world of comedies, dramas (in stars), travelogues, science fiction will come in 100 ft. length for feature photoplays.

MANUFACTURED PRODUCTS AND PROCESSES

GROUP 78 (Continued)

Metal Manufacturing

***The Making of Steel (2) Various processes through which ore passes in being made into steel. (XXX, 72)

***Steel—From Ore to Rail (1) Showing the processes by which iron ore is converted into steel products. (151)

Rolling Steel by Electricity (1) Intricacies in production of steel. (XXIX)

The Manufacture of High Finish Sheets (2) Depicts cold rolling and other processes in making. (5)

The Manufacture of Steel Sheets and Tin Plate (1) Self-explanatory. (XXX)

Arteries of Industry (4) Manufacture of wrought steel pipe from mining ore to shipment of finished product. (XXX)

The Manufacture of Lap-Weld Pipe (1) The title tells it. (XXX)

The Manufacture of Wire Products (1) The drawing of wire and manufacture of products—nails, fence, barbed wire and rope. (XXX)

Hot-Rolled Products (1) Rails, structural steel and heavy plates. (XXX)

Making of American Wire Rope and Its Uses (4) The title tells it. (8)

Blue Center (2) A story of wire rope manufacturing. (XXX)

Long Drawn Out (1) A little picture journey through copper wire mill. (XXX)

Story of Lead Smelting (2) Self-explanatory. (142)

Story of Lead Mining and Milling (3) Drilling, blasting and loading of lead ore; operations at mill. (142)

Refining and Manufacturing Copper (2) Self-explanatory. (XXX)

The Story of Abrasives (4) Carborundum industry. (142)

Industrious Diamonds (1) Showing the part they play in making copper wire. (XXX)

The Jewels of Industry (2) Story of making of modern abrasives and their use. (XXX)

The Silversmith (1) How silverware is produced—from the ore to things of beauty and utility for the home. (23, 69, 156)

** Beaten Gold (1) Its manufacture. (IX)

Fine Arts in Metals (2) Making sterling silver in the Gorham plant at Providence, R. I. (XXX)

(See also Groups 73, 106, 123)

GROUP 79

Paper and Publications

***The World of Paper (2) Epoch-making advances in art of writing, printing and papermaking from ancient to modern times. (X)

White Paper (1) Manufacture of paper. (IX)

Newsprint Paper (1) From standing forest to finished product. (37, 37A, 49, 113, 151)

The Voice of Business (3) The making of paper from raw material to finished product. (XXX)

Paper Making (1) Detailed study of the paper-making industry, both wood pulp and rag. For sale only. (58)

The Daily Paper (1) Extensive and complicated business of publishing a newspaper. (151)

***The Making of a Great Newspaper (3) Complete process. Made with the co-operation of the New York Times. Gathering the news, transferring the copy from paper to metal and back, etc. (XVII)

From Trees to Tribunes (3) Depicting every phase of the making of Chicago Tribunes from timberlands to delivery of complete papers. (XXX)

** The Romance of the News (2) The story of one of the great news-gathering agencies of the world—the Associated Press, and how news is gathered. (XV)

The Art of Monoprinting (1/4) Demonstrated by Sicilian painter. (22)

** The Making of a Book (3) The various processes through which a book must go from linotype machine to bindery, with latest improved machinery and up-to-date equipment. (19, 45)

Your Book (2) Evolution of the book; how books are made today at the Athenaeum Press. (XVII)

Making a Sales Book (1) From the making of the electrotype to the finished book. (99)

The Romance of Making a Modern Magazine (2) The "Dearborn Independent" from raw stock to finished product. (58)

The Record Makers of Business (1 & 2) The manufacture of carbon papers and inked ribbons. (XXX, 29, 149)

The Absorbing Story of Thirsty Fibre (1) Paper making from felling of trees to the packing of the completed product; manufacture of absorbent paper towels. (XXX)

(See also Groups 14, 71, 82)

Miscellaneous Manufacture

- Story of Fireclay Refractories (4) Self-explanatory. (142)
- ** The Romance of Glass (1) Discovery of glass by the Phoenicians; manufacture of glass jars; comparing hand-blowing with modern machine methods; cold pack canning. (XXX, 37A)
- American Bottles Old and New (2) Depicting modern glass practice and Owens Automatic Bottle Blowing Machines—mechanical marvels of the age. (XXX)
- The Story of Bakelite (2) Manufacture and use of one of the most remarkable materials of the present age. (XXX, 16, 127)
- The Story of the Tire (1) Self-explanatory. (59)
- *** Making a Rubber Tire (1) From the gathering of the rubber gum to the finished product. For sale only. (58)
- The Making and Installation of Culverts (3) Comprehensive picture of this new field of industry (metal culverts). (5)
- The Story of Compressed Air (2) Self-explanatory. (XXX)
- Story of Dynamite (2) Manufacture of dynamite from raw materials to finished product. Work of explosives in mining and construction work. (XXX, 46, 142)
- Dynamite, A Basic Material of Modern Civilization (6) Processes of manufacture, and methods of use. (46)
- The Serpent's Tooth (1) The story of the manufacture of hand saws. (XXX, 149)
- ** The Meteor (2) The birth and development of the cross cut saw. (XXX, 149)
- The Making of a Good Shovel (1) Manufacture of hand shovels from raw materials to finished product. (21)
- Glimpses of the Remington Factory (1) A visualization of all the important processes in manufacture of Remington typewriter. (XXX)
- The Crossroads (2) Manufacture of the Corona typewriter. (XXX)
- World's Records (1 & 2) Story your ink bottle tells—on manufacture of Carter's inks and adhesives. (29)
- Story of Writing (1) History of recording thought, and story of ink manufacture. (102)
- Man's Greatest Heritage (1) Shows ways and means of recording thought from ancient time to present day and includes development of the alphabet. (XXX, 29, 37A, 149)
- Pencils (1) Making pencils in a modern factory. (42)
- How A Dixon Lead Pencil is Made (1 or 2) From the graphite mines located near the historic Fort Ticonderoga, to the finished product. (44, 83)
- Suds (1) Washing through the ages, featuring the manufacturing of modern washing machines. (149)
- Spanish Moss ($\frac{1}{4}$) Gathering of this moss of the Everglades; its manufacture into mattresses. (XX)
- For the Feet of a Nation (2) Composition and manufacture of linoleum. (21)
- Our National Bread Box (1) History of development of the paper carton with authentic details. (126)
- American Matchmaking ($\frac{1}{4}$) Making matches in large American factory. (22)
- T. C. (Your Sixth Sense) (1) Effect of temperature on human beings, the origin of the thermometer, and the method of calibration. (XVII)
- A Trip Through the N. C. R. Factory (2) The National Cash Register Co. (99)
- Making National Cash Registers (1) In the factory at Dayton, Ohio; the machining operations of making parts. (99)
- *** A Movie Trip Through Filmland (2) Cinema tour of Kodak Park, and interesting views of manufacturing film stock from raw cotton and bars of silver to finished strip ready for the camera. (21)
- Prizma (1) The story of making colored motion pictures. (56, 71, 113, 158A)
- Story of a Watch (2) Whole process, by modern methods. (XXX, 142)
- The Guardian of Time (2) Showing the manufacture of alarm clocks. (XXX, 127)
- *** Time (1) A color masterpiece giving the history of man's efforts to measure time, as recorded in the timepieces of all ages. (IV, XX, 56, 156)
- Music Factories (1) Showing the manufacture of mechanical musical instruments. (151)
- *** Fine Art of Making Musical Instruments (1) Making the first saxophone by Sax in his old French workshop; manufacture of modern musical instruments. (XXX, 14, 83, 149)

MANUFACTURED PRODUCTS AND PROCESSES**GROUP 80 (Continued)****Miscellaneous Manufacture**

- The Making of a Piano, Pipe Organ and Harp (2) Title tells it. (8)
 What do You Know about the Piano? (1) Shows history and development of the piano, made by one of greatest authorities on old keyboard instruments. (16B)
 Immortalized (1) Musical artists and how their work is preserved for posterity. (XXX)
 The Violin Speaks (1) Structure and manufacture. (IX)
 Aids to Cupid (1) Making perfumes in Southern France. Prizma color. (28, 56, 113)
 ** My Lady's Perfume (1) Picking flowers and converting them into perfumes. Factories on the Riviera. (IX)
 Happiness (1) How good furniture is made. (XXX)
 (See also Groups 20, 106, 108, 128, 132, 135)
 (For welfare work in industrial plants, see Group 123)

GROUP 81**INDUSTRIAL ARTS****Pottery**

- Pottery (1) Art of pottery traced down through the ages; trip through a modern pottery plant. For sale only. (58)
 In a China Shop (1) Casting in molds and decorating the porcelain. (IX)
 *** Magic Clay (1) Describes the method of making Rookwood pottery in the workshops near Cincinnati. Beautifully photographed in Prizma color. (IV, 28)
 Lenox Pottery (2) Production of fine pottery by modern methods. (42, 83)
 The Most Ancient Art in History (½) Growth of pottery industry in U. S. Scenes made at oldest American pottery, Flemington, N. J. (22)
 ** The Potter's Wheel (1) Porcelain for electrical uses. (X)
 Girl Pottery Makers of the Caribbean (½) The art of native potters. (22)
 Sevres Porcelain (1) Showing the interesting stages of porcelain-making. (151)
 Porcelain Industry in Czecho-Slovakia (1) Shows process from common clay to finished hand-painted lustrous china. (134)
 *** Story of the Willow Plate (1) Unique and artistic presentation of story back of Chinese design; the platter first appears with the figures static, then drama is enacted with stationary border of the plate. (77)
 Uncommon Clay (1) Manufacture of pottery. (IX)
 (See also Group 52)

GROUP 82**Miscellaneous**

- How Museum Groups are Made (½) Stages in preparation of group of caribou for Brooklyn Museum of Arts and Sciences. (22)
 A Modern Miracle Worker (½) Artist of American Museum of Natural History works on artificial magnolia group. (22)
 (See also Groups 52, 55-6)

LITERATURE AND DRAMA**GROUP 83****Literature and Drama**

- American Author Series (Series of 12) The films visualize a brief sketch of each author's life and then proceed to dramatize one or more of his best-known and beloved works. (113, 151)
 ** William Cullen Bryant (1) Scenes selected to interpret lines from *Thanatopsis* and *The Crowded Street*.
 ** James Fenimore Cooper (1) Chiefly scenes of country which formed settings for *Leatherstocking Tales*.
 ** Ralph Waldo Emerson (1) Scenes connected with his life and interpreting his poems.
 *** Nathaniel Hawthorne (1) Dramatization is from *The House of Seven Gables*.
 ** Oliver Wendell Holmes (1) Pictorial biography; dramatization of *The Height of the Ridiculous*.
 ** Washington Irving (1) Views of the author's home and characteristic scenes from *Rip Van Winkle* and *The Legend of Sleepy Hollow*.
 ** Henry Wadsworth Longfellow (1) Sketch of his life; scenes from *The Village Blacksmith*.
 ** James Russell Lowell (1) Brief biography, followed by scenes of *The Courtin'* from the *Bigelow Papers*.
 ** Edgar Allen Poe (1) With the acting out of *Annabel Lee*.

GROUP 83 (Continued)

Literature and Drama

** Mark Twain (1) With scenes made famous by his writings, and a dramatization of *The Jumping Frog*.

** Walt Whitman (1) An effort to put the philosophy of the author in film form.

** John Greenleaf Whittier (1) Illustrating Whittier by lines from *The Barefoot Boy* and *Maud Muller*.

English Author Series (Series of 10, one reel each) The films visualize a brief sketch of the following authors: The Brownings, Robert Burns, Charles Dickens, George Eliot, Oliver Goldsmith, Sir Walter Scott, William Shakespeare, Percy B. Shelley, Robert Louis Stevenson, Alfred Lord Tennyson.

** Alice in Wonderland (4) Lewis Carroll's child classic produced exactly as the book was written for children and grown-ups alike.

(23, 49, 56, 66A, 69, 112, 113, 156)

*** Alice Through the Looking Glass (5) A sequel to *Alice in Wonderland*.

(23, 37, 112)

American Literature (1) Dramatic situations from Poe's *The Goldbug* and from Hawthorne's *The Scarlet Letter*.

(113, 151)

* The Ancient Mariner (6) The Coleridge story, with a "modern" beginning and ending.

(IX)

Annabel Lee (5) Exquisite production based on Edgar Allen Poe's famous poem.

(23, 49, 56, 69, 113)

Antony and Cleopatra (6) The classic story.

(77)

*** As No Man Has Loved (8) Excellent screen version of "The Man Without a Country."

(IX)

The Atabaska Trail (1) Picturization of poem by Sir Arthur Conan Doyle.

(XXX)

Aunt Tabitha (1) Comedy, comparing present-day girl with her aunt. Poem by O. W. Holmes.

(XII, 112)

The Barefoot Boy (6) Based upon Whittier's immortal poem. Cast includes John Bowers, Marjorie Daw, Tully Marshall, Raymond Hatton.

(32)

** Beloved Vagabond (5) Picturization of famous Locke novel.

(VIII)

*** Bill (3) A gem of screen acting. Motion picture version of Anatole France's *Crainquebille*.

(XIX)

Bluebird (5) From Maeterlinck's delightful story.

(128A)

* The Bond Boy (6) George Washington Ogden's novel. Acted by Richard Barthelmess and Mary Alden.

(19)

The Brook (1) Picturization of Tennyson's poem.

(XXI)

The Call of the Wild (7) Picturization of Jack London's book, admirably done.

(XV)

The Child of M'sieu' (5) Baby Marie Osborne in a story suggested by Browning's *Pippa Passes*.

(37, 56, 112)

A Christmas Carol (1) Taken from Charles Dickens' story.

(33, 49)

Corsican Brothers (6) From the famous novel by Alexandre Dumas, enacted by Dustin Farnum.

(66A)

The Courtship of Myles Standish (5 or 6) Dramatization of Longfellow's poem, geographically and historically correct. Not the version with Charles Ray.

(18, 28, 49, 56, 71, 113, 158A)

*** The Courtship of Myles Standish (9) Longfellow's poem furnishes the incident of John Alden and Priscilla amplified by Charles Ray to include the story of the Pilgrims and the voyage of the Mayflower. Valuable for school as a study of the Pilgrims and their experiences.

(XV, 18)

The Cricket on the Hearth (7) Charles Dickens' best known story featuring Josef Swickard as Caleb Plummer.

(23, 37A, 56, 66A, 69, 112, 113, 156)

The Deemster (5) Adapted from Hall Caine's novel.

(XXI)

* The Deerslayer (5) James Fenimore Cooper's famous classic produced especially for educational use.

(23, 56, 69, 113, 156)

Dombey and Son (6) Charles Dickens' classic filmed in original English locations.

(18, 56, 112, 113)

*** The Enchanted Cottage (8) Pinero's play acted by Richard Barthelmess and May McAvoy. A screen classic.

(19)

Enoch Arden (3) Version of the classic.

(112)

Hamlet (7) Shakespeare's masterpiece beautifully presented.

(23)

Hansel and Gretel (3) The well-known story.

(49)

The Headless Horseman (6) Adapted from Washington Irving's *Legend of Sleepy Hollow*, with Will Rogers as Ichabod Crane.

(23)

*** Heidi of the Alps (3) Filmed in Switzerland—in natural colors.

(XX, XXI, 112)

Home Sweet Home (1) After the poem by John Howard Payne.

(49)

GROUP 83 (Continued)

Literature and Drama

- A Hoosier Romance (5) From the Riley story, with Colleen Moore. (37A, 112)
- The Hoosier Schoolmaster (5) Max Figman in the famous Edward Eggleston story of pioneer Indiana. (19, 23, 42, 49, 56, 69, 113, 156)
- ** Hunting Ground of Hiawatha (1) Exquisite picture poem following Longfellow's text of Hiawatha. (37, 49, 56, 113, 151)
- Ivanhoe (4) Picturization of the story by Scott. (112)
- The Jack Knife Man (7) Florence Vidor in a King Vidor production of Ellis Parker Butler's Mississippi River story. (37A, 56, 66A, 69, 113)
- Jane Eyre (4) From the novel of Charlotte Bronte. (38, 112)
- Just Folks (2) Adapted from the poem by Edgar A. Guest. (37A)
- Keeper of the Bees (7) Gene Stratton Porter's last work. Well done. (VIII)
- Kidnapped (5) R. L. Stevenson's story. (77)
- Kipling's Mandalay (4) From Mandalay to Rangoon down to Irrawaddy—a colorful pageant of India. (23, 49, 56, 66A, 69, 113, 156)
- Lady Windermere's Fan (5) Oscar Wilde's world famous play. Not the recent film. (56)
- Last Days of Pompeii (6) The classic story. (77)
- *** The Little Match Girl (1) Hans Andersen's tale of the ragged child of the city streets, done by Madge Evans, with a happy ending. Prizma color. (XX, 19)
- Little Orphant Annie (5) James Whitcomb Riley's classic featuring Colleen Moore. (37A, 49, 56, 113)
- Lorna Doone (5) Richard B. Blackmore's famous story. (113)
- Macbeth (4) From the famous play by Shakespeare. (112)
- The Man Without a Country (8) Edward Everett Hale's story, featuring Arnold Daly. (112, 128A)
- Men Without a Country (6) A film of historical interest, picturing men who played leading parts in the early history of our country. (66A)
- ** Maud Muller (2) Idealized version of Whittier's poem. Rich girl reads poem to her lover who is poor and afraid to ask her hand in marriage. (XV)
- The Merchant of Venice (1) Highlights from Shakespeare's play. (37A)
- The Mill on the Floss (5) Picturization of the famous story. (112)
- My Own United States (6) From the well-known story by Edward Everett Hale of *The Man Without a Country*. (V, 49)
- Old Scrooge (4) A wonderful characterization of the miser in Dickens' *Christmas Carol*. (XVI)
- The Only Way (7) An able rendering of Dickens' *Tale of Two Cities*. (XXIV)
- Paul Revere's Ride (1) Portraying the famous ride made famous by Longfellow. (49)
- Peck's Bad Boy (5) Delightful picturization of the famous story by the late Governor George Peck. (23, 49, 56, 69, 112, 113, 128A)
- *** Peter Pan (10) Barrie's story done as only the movies could do it. (VII)
- Prince and Peasant (5) Dramatic story founded on the opera *The Dumb Girl of Portigia*. (XVI)
- Rip Van Winkle (5) Washington Irving's tale of the beloved vagabond. (49)
- Scrooge (1) After the story by Charles Dickens. (49, 155)
- Sherlock Holmes (Series of 4) (IV)
- The Man with the Twisted Lip (2) The Resident Patient (2)
- The Beryl Coronet (2) The Devil's Foot (2)
- Silas Marner (7) Frederick Warde in George Eliot's classic. (18, 56, 112, 113)
- The Sky Pilot (7) Colleen Moore with John Bowers and David Butler in Ralph Connor's classic. (23, 37A, 56, 66A, 69, 113, 156)
- ** Sonny (6) George V. Hobart's play acted by Richard Barthelmess. (19)
- Spartacus (6) The classic story. (77)
- Tale of Two Cities (7) From the novel by Charles Dickens. (112)
- The Three Musketeers (5) Alexander Dumas' historical novel. (23, 66A, 112, 128A)
- ** Timothy's Quest (7) Kate Douglas Wiggin's simple homespun story. (23, 37A, 49, 56, 69, 113, 156)
- Treasure Island (3) Robert Louis Stevenson's epic of adventure. (112)
- Vanity Fair (6) Thackeray's story. (77)
- The Vicar of Wakefield (6) A screen version of Goldsmith's classic with careful attempt at pictorial realization of the famous character. (23, 37, 56, 66A, 69, 71, 113, 156, 158A)

GROUP 83 (Continued)**Literature and Drama**

- The Village Blacksmith (1) From Longfellow's poem. (49)
 ***The White Sister (12) Marion Crawford's novel acted by Lillian Gish. (19)
 Directed by Henry King and produced in Italy. (19)
 ** William Tell (7) Based upon the drama by Schiller. Bears the endorsement of the Government of Switzerland. (66A)

(See also Groups 19, 42, 59, 60, 83, 134-6)

NATURAL SCIENCE**GROUP 84****PLANT LIFE****Plant Life**

- Carnivorous Plants ($\frac{1}{4}$) How insect-eating plants obtain their prey. (22)
 A Cottage Garden (1) Growth of flowers with stop-motion photography. Prizma color. (156)
 ***Do You Know Beans? (1) Germination and growth of the bean from time of planting until plant is on road to maturity. (49)
 An Enchanted Garden ($\frac{1}{4}$) Analyzed motion pictures of growth and blossoming of dogwood poppies, etc. (22, 37A)
 Eternal Nature ($\frac{1}{2}$) Cycle of life in growing plant, from pollenization to maturity. (22)
 Field and Wayside (1) How milkweed blossoms hold captive many an insect guest; tragic end of snowy tree cricket; haunts of the common "tick"; where the lady bug comes from; some common spiders and their lairs; how the goldenrod, despite gall flies, bravely attempts to put forth blossoms. (134)
 ***I Know a Garden (1) Prizma photography of famous gardens in New Jersey. (XX)
 Nature's Garlands (1) Beautiful flowers of many varieties in natural colors. (156)
 Plant Life and Habits (1) Germination of seeds; plants with animal intelligence such as the Venus fly trap and the Mimosa. (XXI)
 ***Seeds and Seed Dispersal (1) One of the most remarkable subjects of the kind ever produced on how plants and flowers renew life; exceptional micro-photography; processes of flower and seed development shown in their entirety by timed camera exposures. (37, 37A, 49, 113, 151)
 Spring (1) How life begins in the early Spring. Leaves and flowers sprouting. Campers answering call of spring. (22)
 A Springtime Miracle (1) Wild flowers of the Yosemite photographed by stop-motion as they are in the process of blossoming. (22, 49)
 Watching Flowers Grow (1) Development of blossoms shown by slow motion photography. (37)
 * Where Plants Live (1) Conditions which account for main plant "associations." (134)
 Wood Wisdom (1) Structure of various kinds of wood; different qualities of "hardwood" and "softwood"; cell building in growing trees; development of decay through growth of fungi. (144)

(See also Groups 12, 94)

GROUP 85**ANIMAL LIFE****Domestic Animals**

- ***Animal Celebrities (1) Grantland Rice Sportlight. Feats performed by trained horse and various dogs. (XV)
 Cats (1) The Cat family in general including lions, tigers, mountain lions, bob cats; habits and pranks of the domestic cat. (XXI)
 Kittens (1) Our playful feline friends give us opportunity of studying their interesting traits. (49)
 Friends of Man (1) Dogs of all breeds. (151)
 Dog as a Friend of Man (1) Striking illustrations of association which may exist between man and his canine companions. (49)
 Dog, Man's Faithful Friend (1) In many countries dog is indispensable co-operator in man's work. (49)
 Doggies and Pussies (1) Amusing scenes and titles of several family pets. (49)
 ** Our Dog Friends (1) Dogs the only actors and many intelligent "stunts" demonstrated. (22)
 ***Monty Works the Wires (4) A bright wholesome comedy of the life of a sky-terrier as he tells it to his puppy son. (XVI)
 The Horse (1) Some of his ancestors; Indian and his pony; wild horses of the plains; development of some of best breeds of today. (XXI)
 The Horse in Motion (1) A study of various gaits of horses, at normal speed and then analyzed by means of slow-motion photography. (144)

GROUP 85 (Continued) ANIMAL LIFE Domestic Animals

The Horse and Man (1) Shows horse's part in conquest of the New World and in modern American life. Various kinds of horses. (144)

Kentucky Thoroughbreds (1) The care and training of horses. (113, 151)

* The Maverick (1) Autobiography of a horse. (37, 37A, 49, 56, 112, 113, 151)

Our Four-Footed Pals (1) An intimate study that appeals to all animal lovers, young and old. (23, 69, 156)

***Our Four-Footed Helpers (1) One of the Screen Studies. Description of ruminants on which man chiefly depends for food and clothing. (XV)

Our Farmyard Friends (1) Domestic animals of the farm are portrayed as probably most interesting phase of farm life. (49)

Peculiar Pets (1) Strange associates of man. (42)

When do We eat (1) A clever canine mother foraging for her children. (42)

(See also Groups 10-11, 41, 94, 118, 134-5)

GROUP 86 Wild Animals

American Bears (1) Various bears of the North American continent, photographed by Raymond Ditmars. (XX)

Animal Appetites (1) Showing what some of the boarders at the zoo prefer in the way of food. (37, 37A, 49)

Animals of the Far North (1) Here is shown an excellent group of animals from Polar regions. (49)

At Home with the Polar Bear (1) Polar bears in their native haunts; capture of two cubs and bit of their life in the zoo. (XXI)

Babies of the Wild Animals (1) Their nature and habits. For sale only. (58)

Babies in the Zoo (1) Wide range of animals covered. (XXI)

Bare Facts Concerning Bears (1) Close range studies of conspicuous types of bruins who are the pampered guests of the zoo. (37, 37A, 49, 112)

***Beasts of Prey (1) Animal subjects in the zoo, photographed with remarkable naturalness at close range; titles good informational material. (37, 37A, 49, 112, 113, 151)

Capturing a Great Anteater (1) The capture of this animal in South American jungle wilds. (XVI)

Elephants in Training (1) School for circus stunts. (37)

Hunting Great Grizzlies on the Alaskan Peninsula (1) Harold McCracken, famous Alaskan hunter, has brought back for "Field and Stream" perhaps the greatest motion pictures of Kodiak bear ever shown. (XXX)

Jungle Adventures (5) Martin Johnson's jungle adventures. A fascinating chronicle. (23)

The Last of the Bison (1) Self-explanatory. (XXX)

Monarchs of the Plains (1) The Buffalo, yak, elk and other wild animals. (XXX)

Nature's Armour (1) How animals are protected by heavy skins—elephants, hippopotamus, rhinoceros, and crocodile. (22)

Nearest to Man (½) Studies of gorilla, chimpanzee and orang-outang. (22)

Our Native Bears (1) In their natural and captive state. (XXI)

Quaint Denizens of the Bronx Zoo (1) Rare animals in the Bronx Zoo. (151)

Quaint Animals (1) Rare specimens from Australia, the Himalayas and other far-off places. (37, 49)

Rare Animals (1) The flying opossum, the koalo, the panda, the Australian monitor, etc. (37A)

Uncommon Guests (1) Rare animals in New York Zoo. (151)

When Elk Come Down (2) Elks in the national forests of Montana—their protection. (144)

Where the Moose Run Loose (1) Extraordinary pictures of moose, both on land and water. (XXX)

***Wild Beasts of Borneo (2) Wild animal story. (42)

With Our Fur Bearing Animals (1) Fox-farming, seal industry, smaller animals including the raccoon, skunk and otter. (XXI)

***Zoo's Zoo (1) Two bear cubs and their playful habits. For nature study in primary grades. (23, 37A, 69, 156)

(See also Groups 42, 44, 47, 94, 114, 117, 134-5)

If you believe in visual instruction in schools, churches and community centers, you need *The Educational Screen*.

GROUP 87**ANIMAL LIFE****Smaller Animals**

An Animal Engineer ($\frac{1}{2}$) The beaver at work—cutting and transporting logs, building house and dam. (22)

The Beaver (1) Cutting logs, taking them to home-site, building house of brush and mud and dam to insure protection. (49)

***Br'er Rabbit and His Pals (1) The rabbit as an example of rodents in general—his structure and modes of living. One of the Screen Studies. (XV)

Chumming with Chipmunks ($\frac{1}{2}$) Characteristics of little striped chipmunk. (22)

A Frogland Frolic ($\frac{1}{2}$) Interesting and amusing study of different kinds of frogs and their habits. (22)

Life Function of Animals—the Frog (1) Life of frog from egg to pollywog and metamorphosis to full-grown frog. (49, 113, 151)

The Jungle Sluggard (1) Slowest creature on earth—the three-toed sloth. Filmed by Dr. Wm Beebe. (XVI)

***The Life History of Frogs and Toads (1) Traced step by step with necessary contrasts drawn. Excellent for school use. Scientifically prepared. (113, 151)

Lizard Lore (1) Scientifically accurate exposition of habits and characteristics of lizards, the ancestors of the snake. (49)

Nature's Rogues ($\frac{1}{2}$) Habits and life of skunks and weasels. (22)

Pigmy Circus (1) Turtle, lizard, chameleon, Ceylonese, walking leaf, tree toad, mice. Photographed by Raymond Ditmars. (XX)

Some Cold-Blooded Mexicans ($\frac{1}{2}$) Closeups of Mexican lizards, horned toads, desert tortoises and other curious creatures. (22)

* Toads (1) Complete life-cycle of the common garden toad and tree toad. (134)

Turtles and Tortoises of All Lands (1) An intimate study by Raymond Ditmars of this strange family of animals. (XXI)

(See also Groups 12, 54, 94, 134)

GROUP 88**Insects and Bugs**

** The Ant (1) Underground passages below the ant hill; the physical structure of the ants themselves, and life history of the tiny animal. (VI)

***The Ant Lion (1) Life history of the "Doodle Bug," given in an interesting manner. (VI)

***Ants, Nature's Craftsmen (1) Life cycle; structure of ant dwellings, and remarkable way in which the ant "workers" care for the young as they are hatching. (XV)

Battle of the Ants (1) How colonies of ants live and propagate. (22)

Beetle Studies (1) Battle for existence with other insects. (151)

The Black-and-Orange Garden Spider (1) Complete metamorphosis of this familiar spider. (134)

The Butterfly (1) Various stages of metamorphosis from egg to full-grown butterfly. (XXI)

***The Butterfly (1) Life history from egg to caterpillar, cocoon and butterfly. Excellent close-ups. (VI)

Bumble Bee (1) Community life and habits. (28)

Buzz (1) A microscopic study of the mosquito by Louis Tolhurst. (56, 113)

Comma Butterfly (1) Life of this insect from laying of the fluted eggs to beautiful comma butterfly. (22)

The Death-Head Moth (1) Caterpillar, chrysalis and moth in different stages of growth. (37)

Despoilers of Jungle Gardens (1) Life and habits of attas, or leaf-cutting ants. Filmed by Dr. Wm. Beebe. (XVI)

Dexterity and Mimicry of Insects (1) Study of flies and other insects. (113, 151)

***Eccentricities of the Wasp and Bee (1) Their habitations and modes of living. (113, 151)

** The Fly (1) From Tolhurst's "Secrets of Life" series. Excellent microscopic study. (VI)

Giants of Industry (1) Study of fly and ant life. (113, 151)

The Greenbottle Fly (1) Work of this insect, one of nature's scavengers, is traced in this reel. (134)

The Honey Bee (1) Scientific methods of handling bees; close-up of queen, drones and worker bees. (37A, 49)

Th House Fly (1) Life history, habits, manner of propagating and method of transporting disease germs. (37A)

GROUP 88 (Continued)**ANIMAL LIFE****Insects and Bugs**

- The Hunting Spiders (1) The trap-door spider, wolf spider, water spider, nursery spider. (37)
- Inhabitants of a Hedgerow (1) Peculiarities of many kinds of insects (151)
- Insects that Mimic (1) Giant weevil, cone-headed locust, walking stick and walking leaf. (37)
- Insects that Sing (1) The field cricket, dwarf field cricket, house cricket, katydid. (37)
- The Labyrinth Spider (1) Life history. (22)
- Lace-Wing Fly (1) Interesting study of life history of aphid-lion and lace-wing fly. (134)
- Lair of the Spider (1) How female spider lives, how it kills other spiders, flies and insects. (22)
- Life Function of Animals—The Grasshopper (1) Biological study of grasshopper. (151)
- Life of a Butterfly (1) Life history. (37)
- * Life History of the Monarch Butterfly (1) Every stage of the metamorphosis from caterpillar to butterfly. (134)
- The Life of a Moth (1) Story of the moth, as revealed by Raymond Ditmars. (XX)
- Marvels of the Insect World (1) Hercules beetle, rhinoceros beetle, Trinidad roach and scorpion. (37)
- Mimicry of Insects (1) Life cycle and habits of insects. (42)
- Monstrosities of Pondland (1) Unusual insect breeding and development in a pond. (151)
- ***The Mosquito (1) Details of every stage in the life history of the mosquito, and methods for his control. Excellent for classroom use. (38, 42, 49, 112, 134)
- ***Nature's Handiwork (1) Collection of remarkable views showing various phases in life story of caterpillars, moths and butterflies. Particular emphasis on peacock caterpillar. (37, 49, 151)
- Nature's Tent Builders ($\frac{1}{2}$) Tent caterpillar—life cycle. (22)
- Orb Weavers ($\frac{1}{2}$) This particular spider building its intricate web, trapping prey and storing it away for future consumption. (22)
- Outwitting the Ant ($\frac{1}{2}$) How ant-lion traps and destroys hard-working ant. (22)
- * Pond and Stream Life (2) Close range study of dragon-fly, pond-snails. (134)
- Preparedness Among Ants ($\frac{1}{2}$) Community life; industrial activities; engineering ability and military talents. (22)
- ***Samia Cecropia (1) Life story of the "giant American silkworm," made admirably for school use. (134)
- The Scale of Mother Love ($\frac{1}{2}$) Spiders and the preparation of their egg cases. (22)
- * The Seventeen Year Locust (1) Periodical cicada which appears after 17 years underground for short period of aerial life. (144)
- Silk Worm (1) History, life and habits with beautiful pictures of the various moths. (18, 37)
- Singing and Stinging (1) Fine microscopic presentation of life of mosquito and its destruction. (XVI)
- Skilled Insect Artisans (1) How caterpillar weaves its cocoon and develops into a moth. Atlantus silk moth; red admiral caterpillar. (22)
- The Spider ($\frac{1}{4}$) Close-up photography of spider, web, etc. (XX)
- ** The Spider (1) Remarkable views of the tiny subject, and method of spinning. One of the "Secrets of Life Series." (VI)
- Spiders and Their Victims (1) The spider's battle for existence. (151)
- ** Wasps (1) The life cycle of a wasp, with particular attention to nest-building, and stocking with spider food. (134)
- ***Wild Creatures that Mimic ($\frac{1}{2}$) Closeup studies of leaf-winged insect, Malayan "walking leaf," Sumatran stick insect and American "walking stick," showing how they mimic plants on which they live, how they locomote and feed. (22)

(See also Groups 11-12, 54, 94, 103)

A Screen, a Projector, 1000 and One and The Educational Screen—a Necessary Combination for Any Church, School or Club.

GROUP 89**MICROSCOPIC LIFE***Microscopic Life*

From Protoplasm to Human Organism (1) Microscopic study of one-celled life, life-processes in the cell, leading to study of cell structure of human body. (28)

* Getting Acquainted with Bacteria (1) Essential facts about bacteria; three typical shapes; how they are grown and handled in the laboratory. (134)

***How Life Begins (4) Microscopic biological study showing method by which new plants and animals come into existence. Film made by George E. Stone. (28, 37, 112)

Part I How life begins in protozoan, yeast plant, geraniums, sweet peas.

Part II How life begins in sea-urchin; life story of swallow-tail butterfly.

Part III Life story of frog.

Part IV Life story of a chick and white rat.

***In a Drop of Water (1) Examples of life in deep and shallow pond waters. "Secrets of Life" series by Tolhurst. (VI)

Infusoria ($\frac{1}{2}$) Drop of pond water filmed through high-power microscope; animal and vegetable organisms. (22)

***Life Functions of Animals, No. 1 (1) Biological study of amoeba. Ideal for classroom use. (151)

Life Functions of Animals, No. 2 (1) Biological study of the hydra. (151)

Little Under Water Wonders (1) A realistic film revealing microscopic pond life. (103)

The Living World (4) Microscopic biological study. (A sequel to How Life Begins). (28)

Part I Composition of protoplasm; difference between living and non-living matter.

Part II Characteristic activities of living things.

Part III Adaption of protoplasm to its environment.

Part IV Cycles of life and meaning of heredity.

Nature's Sex Problems (1) Biological study of microscopic animals. (151)

** Seeing the Unseen (1) Study of minute organisms by means of greatly enlarged models. Photographed under direction of American Museum of Natural History. (IV, 56)

An Unseen World (1) Microscopic life found in water; cell-division, method of feeding and navigation. (XXI)

Some Monsters of the Farm ($\frac{1}{2}$) Microscopic studies in motion of gorgeous eyes of frog, grasshopper, spider and katy-did. (22)

Studies in Micro-Biology (1) Highly absorbing phases of life invisible to the naked eye. (151)

(See also Groups 20, 94, 103)

GROUP 90**BIRDS***Large Birds*

***Anne's Aligrette (1) How the egrets have been almost exterminated by plume hunters; egrets in a Federal bird refuge, a great cypress swamp in Arkansas. (144)

Birds of Prey (1) Sparrows, hawks, condor, eagle. One of the "Screen Studies." (XV)

The Buzzard (1) How it lives and rears its young; how strong kill off the weaker nestlings. (22)

Feathered Aviators (1) The Whooper-swan, the spur-winged geese of South America, the eagle, etc. (37, 37A)

The Menace and Its Destroyer ($\frac{1}{2}$) Strange-looking African secretary-bird. (22)

The Ostrich (1) Study of this bird from hatching to full-grown adult; their habits and use of feathers. (XXI)

Owls ($\frac{1}{2}$) Different varieties. (XX)

** Peter the Raven (1) Hatched in cliff nest, but is bagged and sold; becomes sufficiently domestic to enjoy playing tricks. (22)

Pirates of the Air (1) Chief among the aerial hunters are owls, eagles and vultures. (37, 37A, 49, 112)

The Sparrow Hawk (1) Life history and habits. (22)

Water Birds of the Gulf States (1) Filmed off the Florida Keys. Terns, gulls, pelicans; splendid study of the heron. (XXI)

The White Owl (1) History and habits of these strange birds, photographed at night; nesting habits, methods of hunting and manner of living. (22)

(See also Groups 92, 94, 118)

The Educational Screen for 1 year, including 1000 and One
(Sixth Edition)—All for \$1.50. (See page 9.)

GROUP 91**BIRDS****Small Birds**

***Baby Songbirds at Mealtime (1) Nesting and feeding habits of birds belonging chiefly to the finch and sparrow families; nest of long-tailed tomtit. Well adapted to nature study. (XV)

***Cuckoo's Secret (1) Life history of cuckoo; how it lays eggs in other birds' nests; how young are raised by foster parents; how cuckoo wrecks home of its parents. (22)

The Hummingbird (1) Beautiful picture of tiny and exquisite mother bird with two diminutive eggs; two downy fledglings; her care and protection of the wee ones. (49)

The Rook (1) How rook builds its nest; rears young; how it kills off obnoxious pests which feed on farmers crops. (22)

Song Birds as Citizens (1) Familiar song birds at close range, with suggestions for their preservation and encouragement in the neighborhood. (22)

Tree-Top Concert Singers (1) Swallow, robin, titmouse, kingfisher in natural surroundings. (22)

(See also Groups 92, 94, 118)

GROUP 92**General**

Bird Life of Louisiana (1) Closeups of nests, eggs, fledglings. (63)

***Birds of Passage (3) Beautiful record of the annual migration of birds of northern Europe down the Nile to Abyssinia. Made by Bengt Berg, famous Swedish ornithologist. (XV)

Birds of the Air (1) Swallows, sparrows, red-shouldered hawks, nightingales, chewinks, redwinged blackbirds. In tinted colors. (XXI)

Birds of the Farallones (1) Wild birds of the Pacific coast in their natural environment. (28)

Children of Nature (1) How young birds are brought up; methods of escape by running, flying, swimming, etc. (22)

Feathers (1) Beauties of bird plumage. In natural colors. Arranged by American Museum of Natural History. (56, 118)

Infant Welfare in Birdland (1) Comparison of birds near sea and away from the sea; kittiwakes, herring gulls, guillemots, shearwaters and black-backed gulls, woodpeckers and their young. (22)

A Little Love Nest (1) Unusual bird pictures. (56)

* National Bird Refuges (1) Trip on Government patrol boat to Federal bird refuges on Islands in the Gulf of Mexico, off coast of Louisiana; brown pelicans, royal terns, laughing gulls, black skimmers and others. (144)

Native Birds (1) Birds of the United States. (49)

Nature's Gliders (1) Study of flight of Birds; gulls, gannets, wild swans, cranes and other birds flying. (22)

Our Common Birds (1) Study of our native birds in their natural haunts. For sale only. (58)

Our First Flyers (½) Evolution of feathered creatures of today from pterodactyl of prehistoric times. (22)

Paradise for Birds (1) Malheur Lake Reservation in Oregon, set aside as refuge for wild fowl and birds of the northwestern states. (22)

Rookeries and Squawkeries (1) Extraordinary bird life on the Guano Islands in Chile. (66A)

***Roosevelt, Friend of the Birds (1) Conserving bird life, featuring rare semi-tropical birds, the snowy egret, royal tern, gull pelicans, and others in their native haunts. (XXX)

(See also Groups 94, 118)

GROUP 93**FISH AND SEA LIFE****Fish and Sea Life**

The Crab Family (1) Interesting facts about hermit, spider, fiddler crab and other members of that family. (XXI)

***The Crayfish and the Stickleback (1) Splendid study of the crayfish and interesting views of "the fish that builds a nest." (XV)

Cuttle Fish (1) Study of this deep-sea fish and its unique defense. (XX, 37)

Depths of the Sea (4, can be used singly) Undersea life; monsters and midgits of the deep. (XX)

The Diver (1) A picture of the land below the sea—crabs, whelk, sole, ray and other sea mauraunders. (22)

***Dwellers of the Deep (1) The New York Aquarium offers most interesting sights. (37, 49, 112)

Fathoms Deep (1) Miracle and tragedy of sea life are shown; shows octopus, conger eel, sea anemone, star fish, rosy feather star fish, pipefish, gurnard and other forms of undersea life. (22)

GROUP 93 (Continued) FISH AND SEA LIFE *Fish, and Sea Life*

Fish and Fishing for Everybody (1) Fish incubation—excellent for biology classes. (XXX)

Hydra (1) Comprehensive study of the structure and life functions of this fresh-water polyp. (49)

Jellyfish (1) Several interesting species. (37)

Life History of a Pearl (1) Self-explanatory. (112)

***Marauders of the High Seas (1) Ferocious sea-dwellers and their deadly methods of attacking their victims. (22)

Marine Parade (1) Life and methods of travel of undersea creatures. (22)

***Molluscs (1) From the Pathe Screen Studies. (XV)

***Neptune's Neighbors (1) Tropical fish taken under ocean by sub-sea camera. Prizma color. (XX, 49, 56, 113, 156)

* The Royal Chinook (2) Life history of the salmon. (XV)

The Sea (1) Birds and undersea life dependent upon sea; also analyzes wave motion and its erosive effect upon sea coast. (22)

Sea Shore (1) Pictures of seashore taken after tide recedes; shows sea anemones; crabs, snails and other sea animals—sea urchins, star fish, brittle star, hermit crab and others. (22)

Scales and Tails (1) Pictures taken in New York's Aquarium. (XXX)

***The Silvery Salmon (1) Life and adventures of the gamest fish in the great northwest. (37, 37A, 49, 56, 112, 113)

Strange Sea-water Creatures (1) The sea-urchin, star-fish, the scallop, cuttle fish and other species. (37)

Tragedy of the Sea (1) Views of spider crabs fighting for food; how smaller crabs feed on dead crabs. (22)

***Trout (1) Artificial propagation of the fish and restocking of streams; good views of work at hatchery. (IV, XX, 28, 156)

Unselfish Shell (1) Beautiful sea-shells and articles made from them. Prizma color. (56, 156)

Water Babies (1) Creatures that take to the water. (42, 113, 151)

(See also Groups 55-6, 70, 94, 119)

GROUP 94 *NATURAL SCIENCE* *Miscellaneous*

Film Lessons in Nature Study (1) Series of 18 one-reel lessons in: Sky and Clouds, Worlds too Small to See, Laws of the Animal World, Our Seaside Friends and Their Country Cousins, Down at our Pond, Butterflies and Moths, Ants, Bees and Spiders, Fish, Baby Song Birds, Birds of Prey, Bird Travels, Br'er Rabbit and His Pals, Four-Footed Helpers, Preparing the Garden (Part 1 and 2), Growing Things, Fruits and Flowers. (105A)

Adaptation (1) Of various life forms to their surroundings. (18)

***Animal Camouflage (1) Study of some of nature's most interesting adaptations for protection. (XV)

Animal Intelligence (1) Study of trained animals, showing results of kindness and care. (XXI)

***The Animal World (Series of 4, may be used separately) (XX)

1. Prehistoric Animals, 2. Large Animals of Sea and Jungle, 3. Birds,

4. Mountain Animals and Those of Cold Regions

Bird and Animal Life of Yellowstone Park (1) Self-explanatory. (XXX)

Birds and Flowers (1) Tropical birds and opening flowers. Prizma color. (156)

Cinema Science (1) Interesting collection of unusual scenes demonstrating the value of motion pictures in science education. (113, 151)

Circus Animals (1) Trained animals put through their tricks; how wild animals are unloaded from the ship. (XXI)

***The Cosmic Drama (3) A reserved seat at the formation of the universe, and the evolution of the species. Directed by Mr. Raymond Ditmars. (113, 151)

Familiar Friends (1) Animal studies. (151)

***The Four Seasons (4) One of the most remarkable nature study pictures ever filmed. Response of animal life to a different environment from one season to next. Beautifully photographed, and titled with real artistry. (37A, 49, 69, 113, 151)

Frocks and Frills (1) How caterpillars, birds, fish and others camouflage their bodies to match their surroundings. (22)

Hatching and Transformation (1) Development of the chick from incubation to hatching; salmon and halibut in their steps of hatching and growth; metamorphosis of dragon fly and butterfly. (XXI)

Hands vs. Feet (1) Comparison of use of hands and feet by man and animals; monkey, lions, bear, kangaroo, sea lion and others. (22)

GROUP 94 (Continued) NATURAL SCIENCE**Miscellaneous**

- Heralds of the Spring (1) Shows the thrush, crow, wren, chicks, etc. (22)
- Living Natural History (Series of 42 reels) Covering the whole range of life forms, from simple to complex. Available in 35 mm. and 16 mm. widths. (43)
- Low Down (1) Deals with the reptile world—the tortoise, alligator, lizard, horned toads, poisonous gila monster, rattler. (22)
- ***Main Street in Nature's Wonderland (1) Life among prairie dogs, bees and ant lion; how they live, breed and prey on others. (22)
- Motherhood in Nature (1) The shepherd instinct in nature. (23, 56, 112, 113)
- Nature's Armour (1) How animals are protected by heavy skin. Scenes of elephants, hippopotamus, rhinoceros and crocodiles. (22)
- Nature's Nurseries (1) Parents and young of fish, spiders, alligators, hummingbirds, dogs, deer, sheep and bears. (22)
- Path Through the Woods (1) Little wild creatures of the woods, attractive scenes, closeups of birds in nests. (22)
- ** The River (1) Aquatic life and bird life shown that live near the banks of English River. (22)
- Romance of Life (1) Motion pictures and animation of the origin of life on earth, according to accepted scientific theory. (22)
- Snakes and Their Habits (1) Rattlesnakes, blacksnakes, copperheads, puff-adder; extracting poison venom for medicinal purposes; how poison fangs operate. (XXI)
- Some Wild Babies (1) Depicting family instincts of birds and animals. (22, 37, 37A, 49)
- ** The Struggle for Existence (1) Plants and animals that prey upon each other. (22)
- ***Studies in Animal Motion (1) Motions of kangaroo, frog, deer, lamb, gull, sea lions and others; slow motion photography. (22)
- Turtles and Birds (1) Green turtles, humming birds, the American eagle at home. (28)
- Us Animals Must Stick Together (1) Flocks of geese, sea lion families, sheep, seagulls, cormorants, puffers and others. (22)
- Vegetarians (1) Animals that live on vegetable matter only. (113, 151)
- ***A Visit to a Birdshop (1) Assortment of animal life found there; of particular interest for specimens in aquarium section. Micro-photography excellent and most carefully done. (113, 151)
- Was Darwin Right? (1) Varied types of our supposed ancestors. (151)
- Willing Captives (1) Some interesting scenes at the Zoo. (151)

(See also Groups 96-7)

PHYSICS**GROUP 95****Physics**

- General Science (9) Series of 9 one-reel lessons: An introduction to the scientific method. The topics treated include biological, chemical and physical facts of daily occurrence, disclosing the laws of matter and of energy in relation to everyday life. (105A)
- The Air Pressure in Which We Live ($\frac{1}{2}$) Laboratory experiments made to demonstrate atmospheric pressure. (22)
- ***Einstein's Theory of Relativity (2 & 4) Clear and understandable scientific explanation of principles involved; shorter version a "popular" presentation, longer including more scientific illustrations. Excellent for Physics classes. (XIX, XX)
- * Electromagnetic Induction (1) Important experiments with elaborate equipment such as only a great university possesses. (134)
- * Electromagnetism (2) Fundamental relations of electricity and magnetism. (134)
- * Electrostatics (1) Experiments photographed in Ryerson Laboratory, University of Chicago. (134)
- Experiments in Conduction of Heat ($\frac{1}{2}$) Elementary laboratory experiments. (22)
- Experiments in Physics—Sound Waves ($\frac{1}{4}$) Demonstrating the principle underlying wireless telegraphy, measuring length of waves. Photographed in physics laboratory of Cornell. (22)
- Friction Ball (1) Experiments with a ball of sulphur, revealed to the chemist many discoveries in regard to properties of electricity; how some of these facts were developed industrially. (14)

GROUP 95 (Continued)**PHYSICS****Physics**

- Gravitation of Liquids ($\frac{1}{2}$) Laboratory experiments demonstrating difference in specific gravity. (22)
- * High Frequency Currents (1) Demonstrated in the Ryerson Laboratory. (134)
- * Magnetism (1) Fundamental properties of magnetism. (134)
- ***Mysteries of Snow (1) Pictures of the romance of snow. Beauty of snow flakes and different kinds of crystals. (22)
- Revelations by X-Ray (1) Electrical action in producing X-Rays, and power of X-Rays to reveal inner structure of opaque objects. (X)
- Science at Home—Story of the Magnet (1) Self-explanatory. (151)
- Science at Home (1) Electrical and mechanical experiments. (151)
- The Science of Bubbles (1) Scientific explanation of the formation, structure and behavior of soap bubbles. (42)
- Studies in Magnetism (1) The title tells it. (112)
- Sunbeams (1) Composition of light and color; objects studied under varying light conditions. (56)
- Velocity (1) Examples of relativity of speed are shown—that of the sea anemone, of a glacier, a horse, a whippet and man, concluding with that of light and electricity. (22)

(See also Groups 20, 57, 62-5, 67-9)

PHYSIOLOGY, HEALTH AND HYGIENE**GROUP 96****EMBRYOLOGY****Embryology**

Gift of Life (4) Sketches the biology of reproduction from a very simple form to the human being. (XXX, 6)

The Science of Life (12 one-reel subjects) Made under direction of the Surgeon General, U. S. Public Health Service. Covers general biology, communicable diseases and personal hygiene. Series divided into 3 parts: (22, 37A)

Part I deals with general biology:

Reel 1—Protoplasm, the Beginning of Life

Reel 2—Reproduction in Lower Forms of Life

Reel 3—Reproduction in Higher Forms of Life

Reel 4—Interdependence of Living Things

Part II treats of communicable diseases. (See Group 103 for separate reels).

Part III deals with personal and general hygiene. (See Group 100 for separate reels).

(See also Groups 94, 97)

ANATOMY AND STRUCTURAL PHYSIOLOGY**GROUP 97****Anatomy and Structural Physiology**

* Blood Circulation (1) Microscopic study of embryo of egg and beating of a turtle's heart. (42, 49)

* Circulation of the Blood (2) Composition and function of the blood and action of the heart. (28)

Brain and Nervous System (1) Divisions of the brain, different kinds of nerve cells, association centers, etc. (28)

How the Fires of the Body Are Fed (1) Mechanical processes that take place during the digestion of food. (XVI)

***How We Breathe ($\frac{1}{2}$) Lungs and how they function in purifying blood; animation. (22, 49, 112)

How We Hear ($\frac{1}{2}$) Study of human ear and functions of its various parts. (22, 49)

How We See ($\frac{1}{2}$) Theory of sight and principles common to eye and camera. (22, 49)

* The Human Body (5) Dealing with the development, structure, function and hygiene of the human body. Blood Vessels and Their Functions; Digestive Tract; The Heart and How it Works; Human Development; Respiratory and Urinary Systems. (22, 49)

The Human Voice ($\frac{1}{2}$) Demonstrating functions of nasal passage and the organs of the throat in producing sound. (22, 49)

Inside Out (1) Story of digestion, done in animated diagrams. (XVII, XXX)

Our Bone Relations ($\frac{1}{2}$) Similarity between bony structure in man and in some animals. (22)

The Valves of the Heart (1) Actual photography of the valves of the heart in operation. Animated drawings. (113, 151)

(See also Groups 96, 98)

GROUP 98**EYES, FEET, TEETH *Eyes, Feet, Teeth***

- ** Come Clean (2) Picture made by U. S. Army to show soldier the importance of strict mouth hygiene. (38, 149)
- Fair Day (1) Film made for children. (42, 134)
- Foot Follies (1, 2 & 3) How to keep feet healthy and happy. (XXXI, 37, 49)
- Foot Lore (1) Causes and correction of foot trouble. (151)
- ***Good Teeth, Good Health (2) Mother takes children to zoo as an object lesson in care of the teeth. Doctor shows proper methods. (XXX)
- Clara Cleans Her Teeth (1) Story form is intended to interest children in daily brushing of teeth. (96)
- Mouth Hygiene (1) The need of constant and careful attention to the mouth, teeth and health of gums is emphasized. (49)
- The Human Eye (1) Structure of eye and care it should receive. (28)
- The Point of View (1) Brief sketch of the human eye; defects of sight and corrections illustrated by animated diagrams and cartoons. (18)
- How's Your Eyesight ($\frac{1}{2}$) Explains common ailments of human eye, the causes and remedies. (49)
- Through Life's Windows (1) Shows structure, operations and functions of the human eye. (103)
- ***Tommy Tucker's Tooth (1) Simple narrative cleverly presented to impress upon children importance of keeping teeth in good condition. (XXX, 37A, 96, 103)
- Toothache (1) Neglect of the teeth; how to overcome it; importance of teaching oral hygiene in public schools. (103)
- ***Your Mouth (1) Showing the importance of dental hygiene and methods of caring for the teeth. (XXV, 19, 22)
- (See also Groups 97, 99, 109)

GROUP 99**CHILD HYGIENE*****Child Hygiene***

- Health and Hygiene (9) Series of 9 one-reel lessons in: Armies of Disease and Armies of Health, Disease Carriers, Health Habits (General, Diet, Teeth, Posture and Feet, Exercise), Eyes, Little Brothers and Sisters. (105A)
- Babyhood (1) Babies and their proper care. (56, 113, 151)
- Baby's Bath and Toilet (1) Self-explanatory. (103)
- ***Bending the Twig (1) Designed to impress upon a child audience the importance of correct habits of daily living and personal hygiene. (37, 49, 113, 151)
- Big Gains for Little Bodies (1) Causes of underweight in school-age children and successful camp experiment to restore them, with before and after studies. (37A, 51)
- Bringing it Home (1) Necessity for Infant Welfare Education. (37A, 103)
- The Error of Omission (1) Importance and necessity of recording births; embarrassments and misfortunes that may beset individual whose birth has not been recorded. (103)
- ***The Hungry Dragon (1) Fairy tale of mediaeval times with puppets as actors, inculcating health habits for children. (105, 113, 151)
- * The Kid Comes Through (1) Value of physical fitness brought out by story of boy-and-girl adventure. (37A, 49, 103, 105, 113, 151)
- ***The Knowing Gnome (1) Interesting fairy tale based on health facts. (37A, 49, 134)
- The Modern Health Crusade (1) Learning to fight uncleanness and disease by applying to struggle for health the rules of King Arthur's knights. (103, 105)
- Our Children (2) The efforts of a community to make itself "safe for babies" and the resulting health conditions. (145)
- ** The Priceless Gift of Health (1) Health of child should be guarded at every step from infancy to maturity. (37A, 38, 49, 103)
- Sun Babies (1) Cause, prevention and cure of rickets, by sunlight and cod-liver oil. Lecture-type film. (37A, 145)
- Tommy's Troubles (1) An amusing but effective story for youngsters, in which Tommy discovers facts about nutrition and care of the teeth. (113, 151)
- Trip Through a Children's Hospital (1) The James Whitcomb Riley Hospital for Children. Human interest scenes of little tots. (70)
- The Tournament of Youth (1) Shows how town came to realize need for educating families in health habits; lesson learned through school children who have been taught Modern Health Crusade. (103, 105)
- A Two-Family Stork ($\frac{1}{2}$) Points of pre-natal care packed into cartoon animation story of two couples, both having babies. (51)

GROUP 99 (Continued) CHILD HYGIENE Child Hygiene

- ** Well Born (2) Narrative in dramatic form on pre-natal care. (37A, 145)
 What Shall I Do? (6) Society's responsibility for some means of giving babies a chance when misfortune comes to parents. (19)
 Your Brother's Keeper (1) Peace activities of the Red Cross, instructing mothers in care of children, food selection, First Aid, etc. (134)

(See also Groups 97-8, 101, 121, 125)

GROUP 100 PERSONAL HYGIENE Personal Hygiene

- The Angel in the Home (1) The use of a safe modern antiseptic. (XXX)
 * The Fountain of Youth (2) History of the bath through the ages, to the present day. (XXX, 14, 149)
 General Personal Hygiene (2) Reel 12 of "Science of Life" series. (22)
 General standards of health for the individual. (22)
 He Who Laughs Last (1) Demonstrates the value of and proper technique for periodic physical examinations. (113, 151)
 The High Road (2) Re-edited edition of the standard work in story form on all-around health for women and the Health Inventory Examination. (37A, 49, 51)
 How to Live Long and Well (1) Embodies the consensus of authentic opinion on correct habits of sensible, healthy life. (103)
 The Human Machine (1) How to care for the human mechanism. (102)
 Keeping Fit (1) Fresh air, sunshine and exercise the keynote. (XXX, 154)
 Overweight (1) Shows the penalties of overweight, and what to do about it. (88)
 Personal Hygiene for Young Women (1) Reel 10 of series "Science of Life." Sex education for women; sexual reproduction illustrated with anatomical drawing. (22)
 Social Hygiene for Women (2) Fuller treatment of same subject. (6, 22)
 Personal Hygiene for Young Men (1) Reel 11 of "Science of Life" series. Venereal diseases, etc. (22)
 The End of the Road (5) The aspects of social hygiene for young women are shown. (6)
 Posture (2) Made for physicians, physical training instructors, etc., who wish to show children how to develop and maintain good posture; rec's may be shown separately. (37A, 145)
 * Working for Dear Life (1) Mr. Jones through an experience with his automobile, realizes the need of annual health inspection. (XXX, 88)

(See also Groups 97-8, 109)

GROUP 101 FOOD Food

- Do You Drink Milk (1) Visit to modern dairy farm; care of cattle, bottling of milk, etc. (22)
 The Romance of a White Bottle (1) Fairy story illustrating food elements in milk and their power to build strong bodies. (28, 37A)
 Nature's Perfect Food (1) The production and supply of milk is set forth, and its importance in the regular diet. (37A)
 Past, Present and Future (1) Dramatic story showing health conditions of past, present and future. (16A)
 Milk for You and Me ($\frac{1}{4}$) Shows persons of all ages and walks of life drinking milk. (144)

MOTION PICTURES

The largest distributor of exclusive Religious
and Educational Motion Pictures in U. S.

Write for Catalogue

H. S. BROWN, Inc.

806 SOUTH WABASH AVE.

CHICAGO, ILL.

GROUP 101 (Continued)**FOOD****Food**

- Food for Reflection (2) Need for a hot school lunch demonstrated. (69, 144)
 ***Keeping Out Bad Food (1) Food inspection system and how it operates. (144)
 Yeast for Health (2) Human interest story rendered instructive by means of X-ray photography of stomach and intestinal tract. (XXX)
 Well Done (1) Value of meat in diet. (69)

(See also Groups 2-5, 7-8, 22, 77, 97, 99)

GROUP 102**EXERCISE****Exercise**

- Corrective Exercises ($\frac{1}{2}$) Shows conditions and causes of spinal disorders and includes course of gymnastics for their correction. (49)
 The Enemies of Youth (6) Shows that wholesome recreation is necessary in civic and social life. (XXX)
 Exercise and Keep Well (1) How municipalities improve the stamina of future citizens by providing facilities for outdoor exercise. (49)
 A Fat Chance ($\frac{1}{4}$) Animated cartoon on overweight; a fat man decides to reduce, goes to doctor and succeeds by diet and exercise. (51)
 Garden Gold (1) John Jasper changes from a confirmed golfer to an enthusiastic gardener; community gardens in an American city; benefit they give health and pocketbook. (144)
 Individual Exercises for Girls (1) Series of exercises to meet individual needs. (XXXI)

(See also Group 120)

GROUP 103**PUBLIC HYGIENE****Public Hygiene**

- The Cup of Health (1) The value of sanitary cups. (XXX)
 ***The Fly as a Disease Carrier (1) Structure of the common housefly, his part in carrying disease and suggestions for extermination. Reel 9 in "Science of Life Series." (22)
 Fly Danger (1) Shows nature and habits of flies. Presentation of every reliable method of extermination. (103)
 ** The Flying Bandit (1) Diabolical plottings of fly tribe against human beings; a bug powder puts the fly tribe in consternation. (XVII)
 House Fly (1) Life history, habits, manner of propagating and method of transporting disease germs. Well fitted for campaign of cleanliness in homes and communities. (28)
 How Plants and Animals Cause Diseases (1) Reel 5 of "Science of Life" series. Parasitism explained; bacteria and how they feed, multiply, invade live tissue. (22)
 How Disease Is Spread (1) Reel 6 of "Science of Life" series. Bacterial infection by use of drinking glasses, etc. Animated map of U. S. showing spread of disease. (22)
 How to Prevent Disease (1) Reel 7 of "Science of Life" series. Dangers of carelessness regarding water, etc. Pasteurization, quarantine, vaccination, etc. (22)
 How the Mosquito Spreads Disease (1) Reel 8 of "Science of Life" series. Life history of mosquito and prevention of fever. (22, 112)
 Jinks (1) Animated cartoon teaches in an interesting and humorous manner need for periodic physical examinations. (103, 105)
 Life History of Gnats and Mosquitoes and the Malarial Parasite (1) Part played by mosquito in carrying malaria. (151)
 Mad Dog ($\frac{1}{2}$) Prevention and identification of rabies, done in animation. (51)
 * Malaria and the Mosquito (2) Development of parasite which produces malaria in human body and body of mosquito; habits of mosquito, process of reproduction and preventative measures. (28)
 The Modern Pied Piper (2) Methods of rat control and extermination as exemplified in a city-wide anti-rat campaign. (144)
 The Rat Menace (1) Habits, how rats spread disease and damage property; how to exterminate them. (103)
 *** Our Common Enemy (1) Splendid microscopic study of the fly. (XVI)
 Swat that Fly—(School Edition) (1) Life history of fly and how to combat the pest. (151)
 The War on the Mosquito (1) Self-explanatory. (103)
 * Waste Disposal in Cities (1) Two principal methods employed for the safe disposal of city sewage. (134)
 Yours for Health (2) The origin of sanitation, development through the ages, and meaning to mankind today. (XXX)
 Protective Social Measures (3) Shows ways and means of dealing with unwholesome factors in community social health. (6)

(See also Groups 13, 88)

DISEASE AND ITS TREATMENT**GROUP 104****Disease and Its Treatment**

- *** *A Blessing Born in the Agony of War* (1) A modern antiseptic. (XXX)
Condemned ($\frac{1}{2}$ & 1) Prevention of diphtheria by toxin antitoxin. Animated cartoon. (37A, 51)
 * *Conquering Diphtheria* (1) Scientific facts concerning the disease, its prevention and cure. (49, 134)
A Fortunate Accident ($\frac{1}{2}$) Film on cancer. (7, 37A, 103)
In His Father's Footsteps (1) How unsanitary conditions bring about typhoid. (37A, 38, 103)
 * *New Ways for Old* (1) Narrative of 3 periods—1863, no cure for diphtheria; 1900, antitoxin the cure; today, a perfect preventive, toxin-antitoxin. (88)
 * *One Scar or Many* (1) Vaccination, with special reference to smallpox. (XXX, 88)

On the Trail of the Germ (1) Showing how the source of tuberculosis is traced and presenting diagnosis and treatment of this disease. (103)

Peter Meets a Menace (2) Treatment of tuberculosis in narrative form—from the clinic to sanatorium; prevention and open air schools. (49, 51, 105, 113, 151)

The Price of Human Lives (1) Fake consumption "cures" against proper treatment for tuberculosis. (103)

The Public Health Twins at Work ($\frac{1}{2}$) Diseases hailed before court of public opinion and condemned. (6, 37A)

The Reward of Courage (2) How cancer starts; stages of its development; proper treatment. (7, 103)

*** *Unhooking the Hookworm* (1) Life history of the worm, and the effects of the parasite on its human victims. Produced for International Health Board of the Rockefeller Foundation. (134, 142)

Venereal Diseases (3) Scientific treatment. (XXX, 6)

(See also Groups 100, 103, 109, 126)

GROUP 105**NURSING****Nursing**

Every Woman's Problem (1) How to care for the sick in the home. (134)

The Gentle Medicine Man (1) Unceasing battle of the public health nurse against ignorance and superstition. (151)

The Health Nurse (1) Shows the activities of the county health nurse in school and in follow-up work in home. (103)

In Florence Nightingale's Footsteps (1) Training of nurse in classroom, laboratory, operating room, medical and children's wards. (49, 134)

Winning Her Way (2) Interesting story of methods of public health nursing. (134)

(See also Group 104)

GROUP 106**ACCIDENT PREVENTION****Accident Prevention**

** *The Fall of Man* (2) A safety-first film. Leading causes of accidental death. (XXX)

The Hand of Fate (2) Struggle of the Hand of Fate with the invisible force "Safety" working in man's life. (XVII, 84)

The High Cost of Hurry (1) Illustrating many of the accidents which occur in the home, on the street, on cars, in shops, and elsewhere. (28, 105)

Live and Let Live (3) A story of safety in the oil fields. (142)

The Outlaw (2) Story of safety first; visualizing how King Carelessness and his knaves trap one into taking chances that are fatal. (XVII, 28, 84)

*** *Play Safe* (1) Visualizing everyday occurrences that happen to the careless driver and the equally careless pedestrian. (XXX, 127, 142)

The Reason Why (2) Visualizing for the worker safe and unsafe practices. (XXX, 148)

Safety Devices (1) Accident prevention work done by the National Cash Register Co. (99)

Safety First (1) Argument for accident prevention. (22)

Safety Wins (2) Visualizing importance of safety in life of young man employed in large steel plant. Love story background. (XXX, 148)

When a Man's a Miner (4) Produced primarily for the promotion of safety in the coal mines. (127, 142)

When Wages Stop (4) Safety practices in the oil industry. (142)

Why (2) Educating the worker in accident causes and prevention. (XXX, 148)

(See also Groups 66-7, 124)

GROUP 107**FIRE PREVENTION****Fire Prevention**

The Crime of Carelessness (1) Fire prevention film advocating industrial safety. (103)

The Danger that Never Sleeps (1) Fire prevention. (XXX)

Fire and Safety Appliance Testing at Underwriters' Laboratories (3) How tests are made to determine fire and accident hazard of appliances. (141)

The Fire Demon (1) Causes of number of most prevalent fire hazards; lessons for their prevention. (103)

The Keystone (1) Visualization of the basic service to commerce and society performed by fire insurance. (XXX)

The Menace (2) Personal responsibility for prevention and control of fire; nature of automatic sprinklers and their operation in controlling fire. (98)

An Unbeliever Convinced (2) Teaches lesson in fire prevention. (141)

(See also Group 14)

FIRST AID AND LIFE SAVING**GROUP 108****First Aid and Life Saving**

Before the Doctor Comes (1) First aid to industrial workers rendered by fellow employees. (134)

Diving, Life Saving and First Aid (1) Fundamental principles. (XXI)

Every Swimmer a Life-Saver (1) Latest and most approved methods of rescue. (134)

(See also Group 99)

GROUP 109**MEDICINE AND SURGERY****Medicine and Surgery**

Finer Points in Tonsilectomy (2) Surgical film of operation on tonsils. (19)

Goitre Operation (1) A detailed surgical operation for goitre; each step taken during operation. For sale only. (58)

Gonorrhea in the Male (3) For medical students and post graduate study along urological lines; pathological, symptomological and therapeutic phases of gonorrhea. (6)

A Model Clinic Plan (1) Floor plan for small building; advantages; actual scenes of clinic; role of social worker emphasized. (6)

Modern Diagnosis and Treatment of Syphilis (3) Clinical study, technique in diagnosis and treatment, pathological cases; lesions, Wassermann test, spinal fluid test. (6)

Orthopedic Cases (1) Presentation of surgical cases from the Hospital of the Ruptured and Crippled. (19)

Osteoplastic Craniotomy (1) Detailed operation on the brain, step by step, from beginning to end. For sale only. (58)

Preparation of a Vital Tooth for a Porcelain Jacket Crown (2) Technical film showing porcelain taking the place of gold crowns. (19)

Root Amputation (1) Technical film showing how decayed tooth root should be removed by oral surgery. (19)

Study of Diseases of the Nervous System (2) Cases in Montefiore Hospital. (19)

Study of the Motor Control of Gait and Posture (2) Cases in Montefiore Hospital and Cornell College. (19)

(See also Groups 97, 100, 104, 136)

ATHLETICS AND SPORTS**GROUP 110****Boxing, Wrestling, Fencing**

Jiu Jitsu ($\frac{1}{4}$) Japanese art of self-defense illustrated. (22)

A Lesson in Swordmanship ($\frac{1}{2}$) Men and women students at Columbia receiving instruction. (22)

Munn's Wrestling (2) The title tells it. (42)

Self-defense Without Weapons ($\frac{1}{4}$) Physical instructor demonstrates athletic tricks for self-protection. (22)

World's Championship Wrestling Match between Stecher and Caddock (3) Filmed under auspices of American Legion at Madison Square Garden, New York City. (IV)

(See also Group 113)

ATHLETICS AND SPORTS

GROUP 111

Baseball, Football, Golf

Baseball Slow Motion Pictures (1) How "Babe" Ruth bangs out a home run and how baseball notables behave in action. (23, 37A, 56, 112, 113, 156)

Future Greats (1) Slow motion of young athletes in baseball, tennis, golf, polo. (XVI)

Football (2) Illustrates fundamental elements in correct form and places emphasis on team work. (49)

Game of Golf (1) Explaining terms used and method of playing. (151)

Golf in Slow Motion (1) Drives, putts, etc; two women champions, Cecil Leitch and Alexa Sterling, in normal and slow motion. (XVI)

Golfing with Bobby Jones (1) The youthful amateur champion shows his drives and putts before regular and slow motion cameras. (XVI, 37A)

***Golfing with Jess Sweetser (1) Slow motion helps in analyzing the champion's remarkable form. (XVI)

The Love of Caddying (1) Creating good will between the golfer and his caddy. (58)

GROUP 112

Dancing

Evolution of the Dance ($\frac{1}{2}$) Study in aesthetic dancing made at Denishawn; characteristic dances of primitive and modern races. (22)

Desha's Tryst with the Moon ($\frac{1}{2}$) Poetic slow motion study of a dancer in moonlit woodland. (XVI)

***Grace in Slow Motion (1) Slow motion studies of four dances of different types—each seen first at normal speed, then analyzed in slow motion. (XVI)

Le Ballet de Foret (1) Annual "Dance in the Forest," given on Patterson estate; arranged and conducted by Bott School of Dancing. (99)

GROUP 113

Track and Field

***Athletic Movements Analyzed (2) Slow motion studies; walking, running jumping, javelin throwing, vaulting, hurdling, etc. (XV)

Field Games (1) Olympic athletes demonstrate with slow motion and suspended animation all details of field events. (49)

Inter-Allied Games, Pershing Stadium (2) The title tells it. (XXX)

A Sporting Proposition (1) Telephone equipment installers celebrate unique athletic educational field day; also shows installers at work. (154)

Tennis in Slow Motion (1) Both normal and slow motion shots of Johnston of California and Patterson of Australia. (XVI)

Track Meet (1) Correct form for track events, with aid of slow motion pictures. (49)

What Form Means to an Athlete (1) Track events including the hammer throw, hundred-yard dash, relay race, pole vault, hurdle and jiu-jitsu, and exhibition of fine points in boxing. Slow motion. (XXI)

GROUP 114

Camping and Outdoor Sports

American Boy Out of Doors (1) The Youth engaged in his many sports and other outdoor activities. (23, 56, 113)

***Away Dull Care (1) Outdoor sports and recreations, done in Prizma color. (XX, 156)

Boy Scouts (1) A camp in the Catskills, on a vacation trip to Porto Rico: building a bridge. (66A)

Camping Adventures (1) A day in the Great Wide Open Spaces. (151)

** The Forest King (1) Camping party's journey into the moose country of Canada. (22)

* Hitting the High Spots (1) Tramping and camping through wonders of White Mountains. (144)

Hiking the Alps (1) With the Swiss Boy Scouts in the Alps country. (42)

Summer Time in Minnesota (1) Visit to the land of 10,000 lakes and its resorts. (61)

The Tenderfoot (1) A city chap takes a vacation in the open spaces. (151)

Toiling for Rest (1) Hardships of mountain climbing. (IX)

(See also Groups 51, 86, 116, 119)

GROUP 115

Water Sports

A B C of Swimming (1) Elementary lessons in swimming instruction. (151)

Campfire Girls—Watersports (1) Title tells it. (XXX)

High Diving Analyzed ($\frac{1}{4}$) Slow motion photographs of expert diver. (22)

GROUP 115 (Continued) ATHLETICS AND SPORTS Water Sports

Diving and First Aid (1) Elementary and advanced standard and fancy diving analyzed, followed by rescue of drowning person and resuscitation. (49)

Swimming (1) Fundamental strokes and teaching methods on land and in water clearly illustrated and analyzed with slow motion camera. (XXI, 49)

Swimming and Diving (2) Correct form; slow motion photography. (134)

Swimmers and Swimming (1) A number of shots of picked swimmers displaying the approved forms for most of the modern strokes. (37A)

Swimming (2) Complete lesson in swimming. Slow motion. (IX)

Ederle's Channel Swim (2) Studies of English Channel tides and currents, based on film showing first woman swimming the British Channel. (IX)

(See also Group 108)

GROUP 116**Winter Sports**

***The Chase (2) Ski-jumping amid wonderful Swiss Alpine scenery. (VI, 42)

Just Kiddies and Snow (1) Picturizing all sorts of sports with snow. (151)

A Scout's Letter Home (1) Fun in a Scout's winter camp and lessons on how they take care of their shoes. (XXX)

King Snow Holds Court (1) Winter carnival in White Mountain National Forest; skiing and skating. (37A, 144)

***The Silvery Art (1) A detailed technique of the art of skiing. Beautiful, entertaining and instructive. (XIX, XX)

Flirting with Death (2) Dare-devil skiing in the Alps. (XIX, XX, 42)

***Sno Birds (1) Winter sports in the Adirondacks, done in Prizma color. (XX)

Sporting with Jack Frost (1) Winter sports. (151)

** Thrills and Spills (1) Scenes taken at Pocono Mt. near New York; winter sports. (22)

When North Winds Blow (1) A steam-heated flat dweller finds new vigor when he travels to White Mountain National Forest and joins in a winter carnival. (144)

White Magic (1) Winter sports in Canada. (42)

GROUP 117**Animal Hunting**

Bear Hunting in California (1) A grizzly bear is captured. (151)

Capturing a Great Giant Anteater (1) Filmed by Dr. Wm. Beebe. (XVI)

***Deer Hunting (1) In the Adirondacks. (56)

* A Fish and Bear Tale (1) Mostly bears, captured with a lasso. Canadian government film. (XXX)

The Fur Trapper (1) The pioneer of the wilderness, setting his traps in the far north country. (IX)

Hunting Whales and Walrus (1) The Arctic regions are natural hunting grounds for these animals of the deep. (49)

Martin Johnson's Jungle Adventures (5) The title tells it. (73)

Sidelights on the Raccoon (1) Coon hunt; animals mischievous and full of curiosity; capture of a "possum." (XXI)

Treeing and Roping Wild Animals (1) Self-explanatory. (112)

(See also Groups 27, 86, 94, 114)

GROUP 118**Bird Hunting**

** Bird Dogs Afield (1) Training of hunting dogs and their field tests. Prizma color. (XX)

Hunting in Maryland (3) "Seeking and finding" of typical Maryland wild-fowl and game—(reel 1) wild turkey and rabbits; (reel 2) ducks (on the famous Chesapeake Bay) and rail-bird; (reel 3) quail hunting. (XXIII)

My Own Carolina (1) Bird dog and hunting in the Blue Ridge. (IX)

Wild Duck Hunting (¼) How ducks are hunted in Sussex, England. (XX)

With Gun and Dog (1) Self-explanatory. (XXX)

Quail and Pheasant Hunt (1) Self-explanatory. (112)

Hunting the Wary Black Mallard on Long Island (1) Contains much close-up material of birds flying over the hunter's blind. (XXX)

Hunting Wild Geese for Market (1) Self-explanatory. (112)

(See also Group 22)

Do you want to know what is being said and done in visual instruction? The Educational Screen each month carries the news of the field.

GROUP 119**ATHLETICS AND SPORTS****Fishing**

Angling for Chinook Salmon ($\frac{1}{2}$) At falls of Willamette River, Ore. (22)

Fishing the Flathead with Charlie Howe (1) Humorous titles help in making very interesting and attractive fishing scenic. (61, 121)

Fly Fishing in Lakes of Glacier National Park (1) Interesting fishing film with all the beauty of Glacier National Park. (37A, 61, 121)

Fishing in Many Waters (1) Showing the professional fisherman at work and the amateur angler at play. (37, 37A, 49, 112)

Fishing Gamely for Game Fish (1) Useful hints concerning modern fishing and how to achieve the best results. (XXX)

Inshore Fishing on the Atlantic Coast (1) The work of Canada's Atlantic fishermen. (XXX)

Maryland—The Angler's Paradise (1) Fishing for trout, black bass, rock and gudgeon in picturesque Maryland streams and Chesapeake Bay. (134B)

In Quest of the Bronze Back (1) A bass-fishing expedition to Lake Weslemkoon. (XXX)

Taking Game Fish in the Florida Gulf Stream (1) Made by Harold McCracken; one of the best salt water fish reels ever photographed. (XXX)

(See also Groups 70, 93, 114)

GROUP 120**Miscellaneous**

Grantland Rice Sportlights (1 reel each) High lights of the world of sport shown; contribution made by ideals of sportsmanship to modern American life. Thirty-seven subjects already released, covering many branches of sports. (XV)

** King Basketball (1) Various shots and passes of the game. (70)

Group Games (1) Groups of students form classes for games; suggests conduct of circle, line, file and miscellaneous games. (49)

Play the Game (1) Teaches the joy of the game for the game's sale. (49)

Sport Calender (1) Shows different sports that each month brings. (22)

Thrills (1) Thrills encountered in sport and everyday life. (42)

(See also Groups 100, 102)

PSYCHOLOGY**GROUP 121****Psychology**

Character Analysis ($\frac{1}{2}$) Character as written on the face. (22)

Childhood (1) Intimate study of children's feelings and desires. (151)

Emotion (1) A study of crowds under conditions of excitement. (151)

Knights of Now (1) Narrative for school children on character building; using and explaining the Knighthood of Youth movement in the schools. (51, 99A)

Getting the Most Out of Retailing (2) Information for retail merchants concerning store management, newspaper advertising, window displays and retail selling. (99)

Way to Success (2) A clever little story showing how the good-will method solves a merchant's problem. (149)

SCENIC**GROUP 122****Scenic**

Beauty Spots of America (1) A visit to scenes of rare loveliness in the United States and Canada. (151)

The Bounty of Nature (1) Scenic film of rare beauty, showing that nature gives all and withholds nothing. (23)

Robert C. Bruce Scenic Novelties, 1926-27 (1) Twelve releases containing twenty-seven different subjects, including beautiful scenic effects, diverting novelties and interesting travelogues. (VI)

Dawning (1) Color photographs of dawn in various parts of the world suggested by Cadman's "At Dawning." (56, 113, 156)

***A Dream of the Sea (1) Color studies of the sea in all its moods—by moonlight, sunlight and dusk. (XX)

Everywhere (1) Collection of remarkable and beautiful scenes found here and there throughout the world. (156)

Extremes of Nature (1) Visiting snow-clad Sierras and fiery volcano, Kilauea, in Hawaii. (151)

GROUP 122 (Continued)**SCENIC****Scenic**

***The Farewell (1) One of the best "Bruce Scenics"; glorious cloud movements, surf breaking on beach, and rippling brook with mountain peaks towering above. (VI)

***From the Windows of My House (1) Recording a great variety of beautiful aspects of Nature, and one of the most artistic of the *Bruce Wilderness Tales*. (VI)

Gardens of Normandy (1) Beautiful scenes and pleasure resorts. (156)

My Adirondack's Outing (1) A picturesque scenic. (37)

***My Country (1) A "scenic appreciation" of our own land, beautifully photographed. One of the *Bruce Wilderness Tales*. (VI, 42)

Nature and Poet (1) Exquisite nature scenes with titles selected from poems by William Cullen Bryant. (37, 49)

Nights of Many Shadows (1) A *Bruce Wilderness Tale*. (VI, 42)

The West Wind (1) Action of the wind upon the windmill, the billowy sea, the River Nile, and similar scenes. (IX)

(See also most Groups under Geography, 136)

SOCIOLOGY**GROUP 123****General**

A Gypsy El Dorado (1) Life in a Russian gypsy camp in Georgia. (151)

***The Spirit Wrestlers (1) Glimpses of a peculiar people in British Columbia; the Russian Doukhobars, living simple communal life; their industries. (151)

A Day with the Gypsies (1) Beautiful English scenes; life of the gypsies. (23)

Hearts of Men (5) Geo. Beban in a story of an immigrant's struggle to win success in this country for himself and his little boy. (18, 37A)

Eyes to the Blind (1) Lecture type appeal for support of education of the blind in handicrafts. Made for Brooklyn Committee for the Blind. (51)

Housing Problem (1) Traces the development of the modern house. (22)

Parentage (6) Traces the effect of environment upon two boys of different families and makes a decisive score for conscientious parentage. (66A)

As the Twig is Bent (5) "Parentage" reedited; story of the lives of two boys of different families, showing the effect of home environment. (156)

Lest We Forget (5) Real life temperance drama, showing how the sins of the father are visited upon the children. (18, 115)

The Transgressor (5) A story of punishment and redemption—the victim before and the law breaker after the coming of national prohibition. (115)

Broken Laws (7) Picture of parental responsibilities. Endorsed by many women's clubs and societies throughout country. Mrs. Wallace Reid's picture. (VIII)

* Hell and the Way Out (5) Dramatized facts of the establishment, growth and achievement of the League of Nations. (19, 115)

The Twister (1) New Red-Cross roll-call release, showing horrors of cyclones and necessity of aid. (134)

The Woman Worker, Past and Present (2) Contrasts women's industrial activities in the home of a former era with their occupations in modern factories. (146)

When Women Work (2) Significant film on the woman labor problem. (146)

From Whistle to Whistle (3) Story of woman's work from colonial times to the present. Development of standards for women in industry. (XXXI)

An American in the Making (1) Immigrant in his native land; in America as an employee of a large steel plant; safety, sanitary and educational facilities placed at his disposal. (142, 148)

Factory Welfare (1) Many features of the welfare department of the National Cash Register Co.—working conditions of women. (99)

Punch Press Safety with Increased Production (1) Shows safety devices for operation on power presses and gives increased production records. (84)

Soldier's Home (4) Grounds and buildings of the National Military Home at Dayton, Ohio. (99)

A Visit to Morgan Park (4) Housing development for employees of the Minnesota Steel Co., Duluth. (148)

Welfare Activities of the American Sheet and Tin Plate Co. (1) Self-explanatory. (148)

The Whipping Boss (6) Dramatic production based on evils of convict labor leasing system and the death of service man as a result of whipping exposure of system through American Legion Post. (95)

(See also Groups 21, 24-7, 31, 38, 43, 56, 99, 103-4, 109)

GROUP 124**SOCIOLOGY****Police**

The Arm of Justice (1) Police methods of detecting and outwitting evaders of the law. (151)

Finger Prints ($\frac{1}{2}$) Anthropometry, by which identity of people is positively established. (22)

Prostitution and the Police (2) Designed for groups especially interested in problems of law enforcement relating to commercialized prostitution, produced especially for use with police officers. (6)

(See also Group 133)

GROUP 125**Social Organizations**

Be Prepared (3) The experiences of a fine lad in the varied phases of scouting depicted in a highly interesting narrative form. (XVI)

Blazing the Trail to Manhood (1) A boy scout film. (XXX)

The Boy Scout (3) Story of his good acts. (112,156)

The Boy Scout and His Uniform (1) Beginning with the process of shrinking and cutting, steps in the manufacture of a complete outfit for Young America. (134)

Boy Scouts Camp (1) Their activities and setting up camp. (99)

The Dairy of a Boy Scout No. 1 (1) a boy scout's activities in the summer. (XXX)

***Roosevelt, the Great Scout (2) How Roosevelt illustrated the theme, "building bodily vigor for national service"—an excellent film for Boy Scouts. (XXX)

Boy Scouts of America (1) American scouts take a trip to England. (151)

Knights of the Square Table (4) Boy scouts. (77)

Molders of Manhood (1) What happens at the conferences of the scout executives of the United States. (XVI)

Scouting with Dan Beard (2) The various activities of the troop directed by the famous National Scout Commissioner in his summer camp. (XVI)

A Scout's Diary No. 2 (1) Activities of a boy scout in the winter. (XXX)

Around the Clock with a Girl Scout (1) Self-explanatory. (XXX)

Come to Camp (1) Invitation to girls to join summer Y. W. C. A. camps; scenes from two such camps. (XXXI)

Land of the Sky (1) Y. W. C. A. student conference in Blue Ridge Mountains of N. Carolina. (XXXI)

Middies and Bloomers (1) Summer camp of the New York Y. W. C. A. (XXXI)

Silver Bay (1) Up Lake George on steamer, with girl activities shown at the famous summer conference resort. (XXXI, 37)

The Character Shop (1) Orange Y. M. C. A. (XXX)

Chicago Y. M. C. A. Hotel (2) Title tells it. (XXX)

Springfield Y. M. C. A. College (3) Self-explanatory. (XXX)

Somebody's Children (1) Activities of Baltimore County Children's Aid Society. (XXIII)

The Spirit of Service (1) A film particularly suitable for use during Red Cross Roll Call. (134)

Suppose Nobody Cared (1) Picturization of the activities of the Baltimore Alliance, the charitable and social agencies of Baltimore. (XXIII)

Home at the End (1) Narrative for money-raising of an Old Folks' Home for Men and Women. Adaptable for use anywhere. (51)

(See also Groups 30, 105, 114-5)

FILM CLASSIC EXCHANGE

Greatest Source of Reference Films in East.

Largest Library of Educational and Religious Productions including Colleen Moore in Riley's "Little Orphant Annie"

FREDONIA, N. Y.

SOCIOLOGY**GROUP 126****Insurance and Fraternal Orders**

Chasing the Cure (2) A trip to Modern Woodmen of America Tuberculosis Sanatorium near Colorado Springs. (24, 94)

Everybody's Friend (1) Story of the use and value of life insurance. (XVII)

* The Hour Glass (3) A definite appeal for insurance protection and what one large insurance company does for its members. (94)

A Trip to Rock Island (2) Shows some historical scenes in and around Rock Island, activities in the Head Office of Modern Woodmen of America, and the publication of the organization's magazine. (94)

The Old and the New (2) An animated story of the growth of woodcraft. Contains scenes taken at 1925 Head Camp Meeting, Chicago. (94)

On the Go (1) Note book of a Modern Woodmen Forester who encamped on Chicago's Municipal Pier during Head Camp, 1925. (94)

The Orphans (1) A one-reel heart interest sketch of unprotected orphan children. (94)

Under the Eagle's Wing (2) The Golden Rule as exemplified by the Old Age Pension Law. (XXX)

What Might Happen (1) Simple home folk story of what might happen if you leave loved ones unprovided for. (XVII)

(See also Groups 100, 103, 107)

TRAVEL AND TRANSPORTATION**GROUP 127****Air**

The Race to Paris—Special 1927 (1) A thrilling story of the dramatic and often tragic contest for the first non-stop New York-Paris flight. (VI)

***With Commander Byrd, U. S. N., in America's Polar Triumph (3) Official record of the first flight over the North Pole from Spitzbergen. (XV)

The Story of the Airship (1) Self-explanatory. (59)

***The Amundsen Polar Flight (3) Thrilling record of the first attempt ever made to reach North Pole by aeroplane. (XV)

Flight of N. C. 4 (1) Story of the first Atlantic Aerial crossing from America to Spain. (V, 151)

New York to London by Air (½) Describing famous overseas flight of dirigible R-34; views of mooring towers, ship's interior, gang-plank, etc. (22)

Wings of Progress (1) E. B. Ford Commercial Airplane reliability tour, 1925. (58)

(See also Groups 35, 40, 58, 133)

GROUP 128**Automobiles**

(See Automotive Machinery—Group 67)

GROUP 129**Roads and Road Building**

The Bates Road Test (1) The story of one of the most important road tests in highway history. Of general technical interest. (144)

Building Bituminous Roads (1) How Uncle Sam constructs surface-treated and penetration macadam pavements. (144)

Building Forest Roads (1) Men and machinery at work in the National Forests. (144)

Crossing the Great Salt Desert (1) Difficulties met and overcome by engineers in building the Mendover road, short cut across the Great Salt Desert in Utah. (144)

Around the West by Forest Roads (1) Self-explanatory. (144)

Highroads and Skyroads (1) Building Government roads through the national forests. (144)

Impact of Traffic on Roads (1) Tests made to determine the effect on highways of the pounding tendencies of motor-vehicle wheels. (144)

Improving Improved Roads (1) Highlights in construction of concrete shoulders to revitalize old macadam roads. (XXIII)

The Men Who Build the Road (1) Illustrates cooperation between Bureau of Public Roads and National Park Service in road construction. (144)

Mixed Asphalt Pavements (1) Modern methods of building high type motor roads. (144)

* Modern Concrete Road Construction (1) Engineering skill involved in transformation of old dirt road of yesterday into modern efficient highway. (144)

TRAVEL AND TRANSPORTATION

GROUP 129 (Continued)

Roads and Road Building

A Parable of Paving (1) How money is saved by utilizing existing worn pavements as foundations for new surfaces. (XXX)

Protecting the Nation's Highways (1) How asphalt surfaces thwart destruction by heavily loaded vehicles. (XXX)

Road Building in the United States (2) Methods of building important types of highways as seen by Pan American Highway Commission on tour of country in June, 1924. (144)

Roads for all America (6) Picturing the first Pan American Road Congress, the Panama Canal, types of highways, leading men at the Congress, etc. (144)

The Road Goes Through (1) How the western road builder overcomes barriers to transportation, and builds modern roads of our National Forest and Federal Aid highway systems. (144)

Roads—From Surf to Summit (1) Scenic wonders of National Forests of Pacific Coast states, now revealed to motorist by means of modern highways constructed under direction of Bureau of Public Roads. (144)

The Road to Happiness (3) Promoting good roads throughout the rural districts. (58)

Scenes along the Nation's Highway (1) Good roads throughout U. S. (28)

Snow and Ice Removal (1) How Maryland's famous roads are kept open for traffic during the heavy snows in the western part of the state. (184B)

* What About Macadam (1) Approved methods of building macadam highways. (144)

Yosemite's New Roads (1) Illustrates cooperation between Bureau of Public Roads and National Park Service. (144)

(See also Groups 32, 35, 46, 51, 55, 75)

GROUP 130

Railroads

An Electrified Travelogue (2) Shows how people formerly travelled; then electrification of railroads, how engines are built, etc; ride on electric locomotive through mountain scenery. (XXIX)

The Ford Way of Railroad (2) Modern methods of railroading as practiced by the D. T. & I. Railroad. (58)

Iron Trail Around the World (1) Title tells it. (IX)

** Keeping Up Railroad Service (1) Many phases of railroad operation. (106)

***The King of the Rails (3) Evolution of transportation from primitive to modern times; electric locomotive operating in Rockies. (X)

The Man at the Throttle (1) Ride beside engineer of Twentieth Century Limited up Hudson River shore from New York to Albany. (XXX)

***A Pullman Travelogue (2) The interesting history and development of the Pullman car. (XXX)

* Railroads in United States History (1) Growth of our great railway systems and their economic significance. (134)

A Rolling Romance (4) Views along the Baltimore and Ohio routes. (XXX)

The Science of Traveling (2) Traveling a la Pullman. (XXX)

Tale of the Iron Horse (1/4) Evolution of the modern locomotive. (22)

** Your Friend, the Railroad (4, each reel a unit) Care it takes to move livestock, grain, perishable products and milk and deliver them to consumer in perfect condition. Good instructional material. (106)

(See also Groups 41, 71)

GROUP 131

Water

***Across the Ocean on a Great Liner (1) Story of the comforts and pleasures the Olympic, grey-hound of the sea, offers ocean travelers. (XVII)

Belfast Shipbuilding (1/2) Scenes in great shipyard and launching of ocean liner. (XX)

* Canals in United States History (1) Motion pictures, maps and charts tell of canals built, their location and importance, influence in population. (134)

Cargo Ships of the American Mercantile Marine (1) From construction to journeys all over the world. (151)

Ferries of the Deep (1) Life on palatial liners of the Anglo-American Marine. (151)

The Great Lakes (1) Important activities of this inland waterway. For sale only. (58)

A Great Lakes Romance (1) A boat trip through the upper Great Lakes. (XXX)

GROUP 131 (Continued) TRAVEL AND TRANSPORTATION Water

WHEN YOU HAVE SELECTED A FILM

FOR questions concerning rental charges and booking dates, write direct to your nearest office of the distributing company. (Full addresses are given in the Reference List of Producers and Distributors, pages 114-127). Reference numbers to the extreme right of each film entry in the body of the book refer to that Reference List.

THE EDUCATIONAL SCREEN has no films for rental or loan, and it does not quote rental charges.

"1000 and One Films" is *not* a catalogue of films which are distributed through us. It is a *reference list* of available films from hundreds of different distributors. THE EDUCATIONAL SCREEN has canvassed the field thoroughly and painstakingly in an effort to discover for users of "1000 and One Films" just what subjects are available and from what sources. For further arrangements to secure a film listed, *write to the distributor direct*.

TO PRODUCERS AND DISTRIBUTORS

A SPECIAL department, "Among the Producers," in each issue of THE EDUCATIONAL SCREEN is open to you—for your story of new productions and activities. Send us your announcements of new releases.

Our staff will gladly review for publication in the magazine any film subject which you send. This review service is free of charge.

SELECTION FROM THE "FILM ESTIMATES" OF 1926-27

THE Film Estimates are a unique theatrical film-review service for the intelligent public, appearing monthly in THE ENTERTAINMENT WEEKLY. About 50 current theatrical films are covered each month. This number each month represents the major and better part of the total theatrical output, and includes all films likely to appear at the better theatres throughout the country. The Estimates are not the "opinion of an individual," but are the composite judgment of a National Committee, scattered throughout the United States and sending in their official "score cards" on each film seen. Collation of these cards gives the "Estimate."

From September, 1926, to June, 1927, inclusive, the Film Estimates covered 515 theatrical films. From these we have selected only those judged by the Committee as suitable, and more or less desirable, for children and young people. These 150 films are listed below, in alphabetical order and with reference to the monthly issue which carried the full Estimate, for the convenience of users of "1001 Films." (All films for any reason unsuitable for the younger members of the community, even those thoroughly worthwhile for adults, have been omitted from this selection.)

Title of Film (Star)	Producer's Reference No.	Issue of Estimate	For Intelligent Adult	For Youth (15 to 20)	For Children (under 15)
AFFAIR OF THE FOLLIES, AN (Billie Dove)	VIII a	Apr.	Interesting	Passable	Perhaps

YOUNG APRIL (the Schildkrauts)	XV	Dec.	Notable	Excellent	Good

THE above selection from the first year of the already famous "Film Estimates" gives but a partial idea of the service which appears regularly. In the magazine, under each film (of the fifty and more covered by the Film Estimates each month) is given a brief criticism and comment on the character of the picture which goes far to explain the three adjectives appearing in the columns to the right. Further, these adjectives are printed in bold face for all films considered by the judging Committee to be really worth seeing by Intelligent Adult, Youth, and Child.

(The "Producer's Reference No." in the above list refers to the same Producers Distributors Reference List (in back of book) as serves for all other films in this volume.)

REFERENCE LIST OF PRODUCERS AND DISTRIBUTORS

The distributors of each film listed in the body of the book are given by number at the extreme right of each film entry.

In the following pages these distributors are listed by number and in alphabetical order. For questions regarding rental charges and booking arrangements, consult the distributing company (address nearest to you).

For detailed directions on use of this List, see page 3 in the Foreword.

INDEX OF PRODUCERS AND DISTRIBUTORS

Part I

Producers and Distributors with Exchanges or Branch Offices

(Write always to the Exchange nearest you)

II Associated Exhibitors, Inc. (Primarily theatrical)

35 W. 45th St., New York, N. Y.

Distribute through Pathe Exchanges.

III Associated First National (See under new name,

First National) (VIII A)

IV Co-Operative Film Exchange

284 Turk St., San Francisco, Calif.

1912 S. Vermont Ave., Los Angeles, Calif.

1000 films—Rental only—Flam—Serve far West—Handle films for Prizma and other producers.

V Cosmopolitan Film Exchange

2014 Third Ave., Seattle, Wash.

449 Glisan St., Portland, Ore.

VI Educational Film Exchanges (Primarily theatrical)

1501 Broadway, New York, N. Y.

A PLEDGE OF PROGRESS

From the Manufacturers of

Power's - Simplex - Acme Motion Picture Projectors

For nearly a quarter of a century, a period covering the entire commercial history of the motion picture industry, the products of the International Projector Corporation have played a conspicuous part in the development of this field.

With a full sense of our responsibility we pledge ourselves to anticipate Your Requirements for Tomorrow by a thorough understanding of Your Practical Needs Today.

In our shops during the pioneer days of motion pictures were originated and developed the safety devices, ease of operation and light sources of motion picture projectors which permit them to be used with eminently satisfactory results in the motion picture palaces of the world's greatest cities and with dependability in the remote and isolated parts of the globe.

In the science of projection we have kept pace with the art of production and today American motion picture equipment maintains an international leadership which is by no means inferior to the splendid pre-eminence of American motion pictures.

Our sales organization is well equipped, through ability, experience and willingness to provide service. We will be pleased to furnish catalogues, full details regarding cost of equipment, or any other information which may be required.

International Projector Corp.

90 Gold Street

New York City

AVAILABLE FOR YOUR USE

Free of Charge

Borrower pays only transportation costs

Educational films for instruction and entertainment — produced to conform to the high standard of *Rothacker Quality* and *Rothacker Service*.

THE ROMANCE OF RUBBER (2 reels)

How the trees are grown, and the rubber of commerce produced on a Sumatra plantation of the U. S. Rubber Company, clearly and interestingly portrayed.

PROVED! (1, 2 or 4 reels)

Testing cars under every possible road and weather condition. An intensely interesting story, produced for General Motors Corporation.

PLAY SAFE (1 reel)

A powerful message for safety first in the streets. Should be seen by every school and community group. Especially useful in safety campaigns.

TEXAS TRAIL TO YOUR TABLE (1 reel)

The cattle industry of the West and a comprehensive review of the packing industry. Produced for Swift & Company.

FILLING THE WORLD'S CEREAL BOWL (2 reels)

Breakfast foods prepared in one of the largest plants in the country. Produced for Kellogg Company.

THE LEAVENER OF LIFE (1 reel)

The story of Baking Powder, and how a little boy discovered real things. Produced for the Calumet Baking Powder Company.

Many others available on request. Send for catalogue.

Circulation Department

Rothacker Industrial Films, Inc.

Douglas D. Rothacker, President

7510 N. Ashland Avenue

New York, N. Y.
542 Fifth Ave.

St. Louis, Mo.
610 Louderman Bldg.

For Safety's Sake

In projecting without a booth common caution calls for Safety Film—underwriters' specifications require it—the protection you owe your audience demands it.

For safety's sake specify prints on Eastman Kodak Safety Film. Look for those identifying words throughout the transparent margin of every reel before you project it.
